Board-Administrator Relations

The Board believes that the legislation of policies is its most important function, and that the execution of the policies should be the function of the district administrator. Delegation by the Board of its executive powers to the district administrator provides freedom for the district administrator to manage the schools within the Board's policies, and frees the Board to devote its time to policymaking and appraisal functions.

The Board shall hold the district administrator responsible for carrying out its policies within established guidelines and for keeping the Board informed about school operations.
