Support Services Goals

Support services are essential to the successful function of a school system. Management of auxiliary operations shall, therefore, be considered an important responsibility of the district administration. It should be remembered, however, that education is the district's general function and that all support services shall be provided, guided and evaluated by this requirement.

In order to provide support services that are truly supportive of the educational program, the Board establishes these broad goals:

1. To provide a physical environment for teaching and learning that is safe and pleasant for students, staff and the public.

2. To provide for safe transportation of students to and from school and nutritious meals for students.

3. To provide support services resources and assistance with maximum responsiveness in terms of timeliness and degree of fulfillment of the needs of the educational program as they develop.
