From the writer of Stab 5.

CUT TO:

EXT. K'S CASTLE-MORNING

**Song: Waking Dream by Natalie Walker plays**

ALI LARTER as K stands on the edge of her castle balcony overlooking the surrounding area.

There is a brief flash of something on fire.

K (V.O.)  
We have powers no one else can  
fathom.

Someone generates fire from their bare hands.

K (CONT'D)  
It's like a drug.

MATTHEW'S palms glow and he blasts someone with a spell. He makes a run for it.

K (CONT'D)  
None of us are immune to its pull.

A bright flash of white illuminates from something and engulfs the entire screen.

The white slowly dies out revealing a close up of K's shut eyes.

K (CONT'D)  
(pauses)  
...none of us.

K's eyes open and change color to an even darker shade of blue than they already are.

She steps off the balcony and then flies off into the sky.
