AREA PLAN ON AGING FOR THE PERIOD JULY 2022 THROUGH JUNE 2025

AREA AGENCY ON AGING, REGION VI

300 COLLINS ROAD BISBEE, AZ 85603 (520) 432-5301, ext. 208

Web site: www.seago.org e-mail: aging@seago.org

VERIFICATION OF INTENT

The Area Plan on Aging is hereby submitted for Region VI for the period SFY 2018 through SFY 2021. It includes all assurances and plans to be followed by the Southeastern Arizona Governments Organization, under provisions of the Older Americans Act, as amended during the period identified. The Area Agency identified will assume full authority to develop and administer the Area Plan on Aging in accordance with all requirements of the Act and related State policy. In accepting this authority the Area Agency assumes major responsibility to develop and administer the Area Plan for a comprehensive and coordinated system of services and to serve as the advocate and focal point for older people in the planning and service area.

The Area Plan on Aging has been developed in accordance with all rules and regulations specified under the Older Americans Act, and are hereby submitted to the State Agency on Aging for approval.

PART I INTRODUCTION TO THE AREA PLAN

PART I - <u>INTRODUCTION TO THE AREA PLAN</u>

An Area Plan is the document submitted by an Area Agency on Aging to the State Agency on Aging in order to receive awards or contracts from the State Agency's grant provided under the Older Americans Act, as amended. The Area Plan contains provisions required by the Act, the federal rules and regulations, state policies, procedures, and assurances and commitments that the Area Agency will administer activities funded under the plan in accordance with all federal and state requirements. The plan is the blueprint by which the Area Agency develops and administers a comprehensive and coordinated system of services and serves as the advocate and focal point for older people in the Planning and Service Area.

Conceptually, the plan must represent a process, which translates needs assessment information into the establishment of priorities for funding and services.

The Area Plan on Aging, as a planning document, has three major purposes, as follows:

- 1) The Area Plan serves as the planning document which identifies needs, goals, objectives, and the activities that will be undertaken by the Area Agency on Aging relative to programs for the older persons in the Planning and Service Area.
- 2) The Area Plan represents a formal commitment to the State Agency, which describes the manner in which the Area Agency on Aging plans to utilize the Older Americans Act funds, and how it will carry out its administrative responsibilities.
- 3) The Area Plan is viewed as "the blueprint for action" which represents a commitment by the Area Agency on Aging that it will fulfill its role as the planner/catalyst/advocate on behalf of older persons in the Planning and Service Area.

PART II

DESCRIPTION OF THE AREA AGENCY ON AGING AND ITS NETWORK

PART II – <u>DESCRIPTION OF AREA AGENCY ON AGING AND ITS NETWORK</u>

The Planning and Service Area: The Planning and Service Area designated as Region VI consists of the four rural counties of Cochise, Graham, Greenlee, and Santa Cruz, which covers a territory of approximately 14,000 square miles. It is bordered on the east by New Mexico and on the south by Mexico. The region has fourteen incorporated cities and towns ranging from 696 in Duncan to 43,888 in Sierra Vista, based on the 2010 Census. The total census population for the entire region is 224,423, for a density of around 16 people per square mile. The economic base varies from one community to another, but most communities have been dependent on one major employer and little economic diversity; mining, ranching, border trade, agriculture, military, prisons, and tourism are the major industries.

According to the 2010 Census (Census 2020 data not yet available), 21.2 percent of the population was aged 60 or older, with the highest concentration of 23.84 percent in Cochise County, the lowest of 15.99 percent in Graham County, 17.04 percent in Greenlee, and 18.71 percent in Santa Cruz County. The percentage of elders aged 60 or older who were minority was 24.11 percent in Cochise, 25.74 percent in Graham, excluding San Carlos Apache Nation, 44.17 percent in Greenlee, and 59.78 percent in Santa Cruz. Of those aged 60 or older, 11.97 percent were below the federal poverty level, with the highest poverty rate among elders of 15.54 percent in Cochise and the lowest in Graham with 9.55 percent. These figures could be slightly higher or lower based on migration experienced in the different areas in our region since the 2010 Census was conducted.

The Southeastern Arizona Governments Organization: The Southeastern Arizona Governments Organization (SEAGO) is a Council of Governments (COG). The member governments are the four counties of Cochise, Graham, Greenlee, and Santa Cruz, the 14 incorporated cities and towns of Benson, Bisbee, Clifton, Douglas, Duncan, Huachuca City, Nogales, Patagonia, Pima, Safford, Sierra Vista, Thatcher, Tombstone, and Willcox, and the San Carlos Apache Tribe. SEAGO is a regional planning agency that performs and coordinates a variety of functions. Established in 1972, SEAGO is a 501(c) 3 nonprofit organization whose core function is to help local governments seek cooperative solutions to area-wide problems. SEAGO provides a forum for regional policy discussion and development and serves as a coordinating link between municipal, county, tribal, state, and federal agencies. SEAGO's programs focus on issues that often cross jurisdictional boundaries, such as water quality, community and economic development initiatives, transportation, aging, and social service issues. Originally a planning entity, SEAGO's operational scope has expanded considerably since its inception to include project programming and implementation activities in economic development, social services, transportation, the environment, and public transit.

The SEAGO Area Agency on Aging: The Southeastern Arizona Governments Organization (SEAGO) was designated as an Area Agency on Aging (AAA) in 1974. As with many of SEAGO's program areas, the AAA is a separate organizational unit within SEAGO. Over the years, AAA staff have worked with various community organizations as partners and service providers to develop and maintain community-based systems of service that meet and fit the needs of the communities within the planning and service area. The AAA continuously strives to create new partnerships with other agencies serving the communities within our region.

Every five years, the SEAGO AAA issues a competitive Request for Applications to select the best-qualified service providers and ensure competition in arranging for services for elderly individuals and their caregivers. The AAA currently administers subaward agreements with the agencies identified in Appendix C. The AAA combines Older Americans Act, federal Social Service Block Grants, and state

appropriations into one line in the providers' subaward operating budgets. Service Providers identify all other funding sources that the AAA does not administer, and these are also included in the subaward budgets. In their proposals, prospective service providers are asked to describe how services will be coordinated with any other programs that serve the elderly or disabled and how activities will be coordinated with county long-term care programs, Medicare, and ALTCS. It also asks how the provider will ensure that these fund sources are maximized to use AAA funding only when no other source is available and ensure coordination of services and the integration of multiple funding sources.

Organizational Structure of SEAGO AAA: The SEAGO Organizational Chart is included as Appendix A. All policy decisions related to the AAA are presented to the Advisory Council on Aging and the Administrative Council for input to submit to the Executive Board, which is the policy-making body of SEAGO. The AAA Program Director reports directly to the Executive Director of SEAGO regularly. (See staff table below.)

The Advisory Council on Aging (ACOA) meets quarterly to address issues arising in the communities and discuss AAA alerts and other agency-related information. Action Plans relating to the Area Plan will be a regular agenda item at the January and July meetings of the ACOA. In this way, the Action Plans track progress on meeting the Area Plan Goals and Objectives. Should changes to any goals or objectives be identified, the ACOA will revise the Area Plan and seek approval for these changes from the Administrative Council and Executive Board.

Positions and duties within the SEAGO AAA are as follows:

Position	Duties
AAA	Plans, organizes, and directs the operations and staff of the Area Agency on
Program Director	Aging for the SEAGO region; develops and implements the agency plan;
Full-Time	negotiates awards with provider agencies; prepares financial reports,
	monitors performance under these awards; serves the purpose of enhancing
	programs and ensures compliance with all federal and state laws and
	regulations.
Office Specialist	Sets up and maintains computer records on clients using the DAARS
Full-Time	reporting system, maintains program administrative files, responds to
	questions from service providers and clients through information and
	referral, and delivers administration support.
Management	Delivers Administrative support, performs programmatic monitoring,
Analyst	financial monitoring, oversees the case management program, and serves as
Full-Time	their lead. Assist management in operating more efficiently and effectively
	and helps prepare policy and procedures manuals for the organization.
Health Insurance	Provides counseling to seniors on Medicare and other health insurance
Coordinator	programs to access their healthcare options. Recruits, trains, and supervises
Full-Time	volunteers, works to expand the volunteer base to ensure more excellent
	geographic coverage for this program. Provide outreach that will include
	activities that encompass cultural and intergenerational diversity. Collaborate
	with partnerships and networks to hold annual health fairs, Collect accurate
	data for needs assessment, program evaluation, and reporting.
Ombudsman	Coordinates the ombudsman program represents and advocates for residents
Coordinator	in nursing homes and assisted living facilities in the SEAGO region.

.75Time	Represents the Area Agency on Aging program with these facilities; recruits, trains, and oversees volunteers for each facility. She participates in the Elder Fraud and Abuse Prevention Taskforce-Coalition. The LTCO is working with local partners to begin the Elder Fraud and Abuse Taskforce in Cochise County to address the needs n Southeastern Arizona. Maintains a close relationship with DHS to assist with facility survey exits. Visits sites at least every other month. As a master trainer, she oversees the Health and Nutrition program.
Position	Duties
Accounts Manager	Establishes and maintains the central accounting system, all accounting
AAA supports part of	records, and financial controls; reconciles bank statements to general ledger
this position 1/10	and maintains agency cashbook; prepares monthly financial reports; ensures
Health and Nutrition	that the financial system complies with applicable regulations. The health and nutrition coordinator is a Professional certified food manager
Coordinator	through the National Environmental Health Association and is responsible for
1.25 Full-Time	monitoring the meal programs and nutrition-related provider training. Is
	responsible for coordinating its activities with other community agencies and voluntary organizations, providing supportive services and programs to older individuals. The Coordinator is responsible for recruiting, training, and overseeing volunteers. She is accountable for developing a network of evidence-based lay-leaders and coaches for AMOB and seeing that classes are provided multi-modal periodically throughout the region.
Family Caregiver Program Coordinator	Provides a multifaceted system of support services for family caregivers, coordinates its activities with other community agencies and voluntary
Full-Time	organizations by providing supportive services to family caregivers. Helps refer clients for respite services and collaborates closely with regional case
run-Time	managers to carry out these services; schedules caregiver outreach activities and caregiver training opportunities.
Transit Coordinator	The transit coordinator is SEAGO's mobility manager under a contract with
AAA supports 1/10 of this position	ADOT. This individual monitors all AAA-funded transportation programs throughout the SEAGO region to have transit programs and their funding integrated.

The SEAGO AAA Network: The SEAGO AAA is small, with approximately seven full-time equivalent staff. Without partnerships, minimally could be accomplished. Because SEAGO's focus has been on inhome services, senior centers are not effective in reaching seniors significantly since participation in nutrition sites in some communities has declined over the years. Various agencies have been willing to provide space for SEAGO staff to meet with clients or have agreed to co-host training events.

The AAA currently has subawards with 19 different qualified service providers, Southeastern Arizona Community Unique Services (SEACUS). Headquartered in Safford, SEACUS has gone beyond the scope of its subaward to schedule appointments for Medicare beneficiaries needing assistance from SEAGO's insurance counselor and to sponsor the Senior Expo and Caregiver Conference year after year. The insurance counselor has also established partnerships with libraries, senior housing complexes, and other community organizations in Nogales, Tubac, Willcox, Sierra Vista, Huachuca City, Benson, and Clifton to serve as insurance counseling sites.

Health fairs and resource fairs sponsored by hospitals, high schools, Cochise College, Eastern Arizona College, and senior and disability expos sponsored by the City of Sierra Vista have provided opportunities to inform the community of AAA services and distribute elder resource directories and Medicare information. For five consecutive years, the SEAGO AAA has hosted the Region VI Conference of Aging in Bisbee, AZ. The Canyon Vista Medical Center's (CVMC) "thrive" Wellness Depot has hosted workshops on Medicare, advanced directives, and selecting LTC policies, as well as scam jams in Cochise County.

Working with these partners and a growing list of agencies can attract participation from a different audience than the AAA would reach on its own. For example, Cochise College and the United Way of Cochise County host an annual social service "Synergy" event to promote networking and provide training on mutual interest topics such as grant writing. In Santa Cruz, the Desert Southwest Chapter of the Alzheimer's Association has also been a partner for an annual mini-conference in Nogales and the Southeastern Arizona Health Education Center (SEAHEC).

Region VI has a Facebook page updated regularly; we had had over 800 followers since the page creation five years ago. A Mobile App is created to make it easier for our communities to stay engaged and access the resource directories whenever is needed. The AAA meets with its Advisory Council on Aging once per quarter to keep them informed on updates and changes within the agency and discuss issues arising in the four-county region. SEAGO-AAA has a good standing relationship with three Chamber of Commerce who help us disseminate information in their communities. The Eastern Arizona Courier has been a blessing to have; they help publish articles from the AAA monthly, allowing us to increase visibility in Graham and Greenlee Counties. The AAA Program Director keeps current on national and state legislative issues and policies affecting seniors by participating as members of the Arizona Association of Area Agencies on Aging (AZ4A) on a bi-monthly basis.

AAA staff coordinated activities and long-range emergency preparedness by working with each of the four counties to develop their emergency response plans. The health and nutrition coordinator works with service providers to keep their emergency plans updated and participates in the county planning processes as needed. In 2019, we began program development of the Real Emergency and Disaster Innovative meals (READI). The READI program allows us to work with our subcontracted Sr. Centers and produce frozen, dried meals to comply with their emergency feeding plan. The READI meals program will help our sites reduce food waste and supply our participants with well-balanced, nutritious, and long-lasting freeze-dried meals. Since Cochise, Greenlee, and Santa Cruz Counties each have case management contracts with SEAGO AAA, these counties have integrated systems for contacting clients who need assistance to evacuate into their emergency response plans. In Graham County, SEACUS is the case management provider and has participated in the county's emergency planning meetings. SEAGO AAA works directly with case managers to keep a current list of clients so that if an emergency occurs, the plan will activate immediately.

The SEAGO AAA has partnered with faith-based and community organizations to assist older individuals and their families who meet the qualifications for home and community-based services by co-sponsoring training. We have adopted the Community Connections, a panel of AAA staff zoom meetings that focus on reaching out to local organizations and promoting the program's services and more effectively deploy resources by helping participating organizations understand and build on each other's work.

As described above, training for caregivers dealing with dementia has been provided with the assistance of the Alzheimer's Association. SEAGO AAA formally contracts with Lutheran Social Services for

Home and Community Based Services in Cochise and Santa Cruz County. Also, SEAGO-AAA helps support Graham, Greenlee, and Santa Cruz County with the annual Family Caregiver workshops.

The development of evidence-based health promotion programs has brought a particular focus to the need for community partnerships to recruit coaches/lay leaders, conduct outreach to reach potential participants, and secure facilities and other resources. Matter of Balance participation declined minimally in recent years, but our new Health and Nutrition Coordinator is making strides to revitalize program participation. We currently have six volunteers who help SEAGO teach Tai Chi classes, and since the master trainer is now certified to do virtual A Matter of Balance classes, these will be offered virtually.

SEAGO partnered with the Community Coalition for Advanced Care Planning to bring education and awareness of a delicate subject, End of Life. The Legacy Foundation of Southeast Arizona granted funds at the end of 2018 to begin our journey with Thoughtful Life Conversations in Cochise and Eastern Santa Cruz counties. We subcontracted with Veronica "Ronnie" Squyres, and Ronnie has taken this project to a whole new level. The David and Lura Lovell Foundation saw how much progress was made in one year and granted funds for another two years to expand to Graham and Greenlee County. These funds are still in use until December 2021. Thoughtful Life Conversations Workshops help people start conversations, empower decision-making and make advanced healthcare planning (including completing forms) more straightforward. Thus far, we have hosted 45 workshops, and 609 participants have benefited from this beautiful presentation.

Elders in this region identify transportation as a priority because of the vast distances between communities. Therefore, the AAA will continue to work closely with SEAGO's transportation planner to increase knowledge about transit funding mechanisms. Transportation providers are encouraged to transport multiple population groups because it is inefficient only to transport the elderly. Due to efforts at a state level to improve coordination of transit services, the AAA continues to be actively involved, along with the SEAGO Mobility Management staff and regional transportation service providers, in state and regional planning efforts initiated by the Arizona Department of Transportation (ADOT). Currently, SEAGO AAA is partnering with a social services organization in Sierra Vista known as the Volunteer Interfaith Caregiver Program. These efforts have allowed seniors to receive transportation to medical appointments and other urgent needs to Tucson. The City of Willcox partnered with ADOT and SEAGO Mobility Resource for SE AZ to implement a dial-a-ride transit system serving the Willcox, Sunsites, Pearce, Bowie, and San Simon communities. The Area Agency on Aging is happy to help support those efforts to meet our most rural communities needs with affordable, reliable, and safe transportation.

11

PART III NEEDS ASSESSMENTS

PART III - NEEDS ASSESSMENT

Background: Performing a region-wide needs assessment is integral to understanding the most urgent current needs and priorities of the elderly and disabled to update the Area Plan on Aging. However, it's equally important to consider that each Area Plan is based on plans developed in the past, and drastic changes as to what services are funded will not be made solely on the results of a needs assessment. Services will continue to be funded based on utilization trends, and clients can expect some consistency despite budget cuts. The SEAGO Advisory Council on Aging (ACOA) reviews all proposed funding allocations in detail, comparing them with those most recently approved, and makes recommendations to staff relating to changes in distributions.

In the development of this Area Plan, the ACOA reviewed the minimum goals and objectives that the state unit on aging and the Area Agencies on Aging had agreed to include in their respective plans and reviewed a first draft of the updated Area Plan during their April 2021 meeting. Due to COVID, the AAA was not able to present the plan to the ACOA any earlier. At April 2021 meeting, the ACOA brainstormed activities that the SEAGO AAA should undertake over the next four fiscal years, reviewed the needs assessment results, and reviewed a second draft of the updated Area Plan. At the April 2021 meeting, the final draft of the updated Area Plan was reviewed by the ACOA and recommended for approval by the Administrative Council and Executive Board.

Due to COVID, the public hearings were postponed as we were unable to be in group gatherings. SEAGO-AAA was not able to provide input from our communities to be incorporated into the Area Plan.

To determine the most urgent needs of the elderly and disabled across the region, the AAA performed a needs assessment that included a review of needs assessment surveys, demographic, historic utilization of AAA services and census data for the area was from the 2010 Census since the 2020 data is not out yet. Below is a summary of each of the results of these needs assessment components:

Needs Assessment Surveys: In the last quarter of calendar year 2020, the SEAGO AAA reached out to service providers, local senior citizen service programs, hospitals, health clinics, key informant groups, long term care and assisted living facilities, and other partners to distribute surveys in both English and Spanish throughout the region. SEAGO contracted with U.S Economic Research (USER) to distribute the survey instrument and data analysis of the region-wide survey results. USER also created an electronic version of the survey posted on the SEAGO website, the AAA Facebook page, and distributed through Survey Monkey. Due to COVID, we could only get a handful of these surveys back from our communities.

Needs assessment surveys got distributed at senior housing complexes, nutrition sites, and other senior citizen group meeting places. SEAGO staff, case managers, home-delivered meals staff, and ACOA council members helped provide the surveys to those who were homebound and helped individuals fill them out. AAA staff emailed and passed out approximately 2,000 surveys to all existing clients in the region who receive services through our agency. By targeting individuals who are case-managed. Those individuals 60 years of age or older with the most significant social and economic need, with particular attention to older individuals who are low-income minority, older individuals residing in rural areas, older individuals with severe disabilities, older individuals with limited English speaking abilities and any individuals with Alzheimer's disease or related dementias were considered. This is the fifth time that virtually the same survey tool has been collected and analyzed by the USER, thereby allowing for comparisons over the years.

As stated in the USER report, the survey indicated the most critical need of the elderly in Southeastern Arizona is affordable dental care. Affordable Dental Care was rated a serious problem by 41.1 percent of survey respondents from Cochise, Graham, and Greenlee. Maintenance and Repair of the home, identified as a serious problem by 24.9%, mainly for Greenlee County. Affordable Assistive Devices, identified as a serious problem by 24.8% for Cochise and Graham; Maintenance of the yard, identified as a serious problem by 24.3% for Greenlee County.

Issues identified as a problem (either "some problem" or "serious problem") by the largest share of survey respondents across southeast Arizona were affordable dental care, identified as a problem by 69.8% of those surveyed; affordable assistive devices, identified as a problem by 58.6%; maintenance of the yard, identified as a problem by 56.9%; maintenance and Repair of home, identified as a problem by 55.6%; and telemarketing or in-home sales, identified as a problem by 53.4% of respondents.

Survey respondents were asked to identify their sources of advice regarding health insurance or Medicare. In southeast Arizona, SEAGO AAA and insurance agent were the most popular sources at 21% and 20.5% of respondents, respectively. Popular write-in responses were family members, Medicare, SEACUS, and Veterans Administration. See Appendix D for a complete list of responses regarding other sources contacted.

Key Informant Questionnaires: During this Area Plan, the Key Informant Questionnaires were not distributed or collected due to COVID. (Current data is not available).

Demographic Data: The 2010 Census and the American Community Survey have been used to develop funding formulas as a basis for county allocations of state funding and Older Americans Act funding. Service utilization trends are then used to adjust the base allocations as described below. These same formulas will be used for the term of this plan and are included in Appendix F. The demographic pattern of individuals receiving services is compared at least annually to each county's census profile to ensure that minority and low income individuals are being served appropriately. **The 2020 Census data is not yet available for consideration.**

Service Utilization: Service utilization for case managed services is reviewed on a monthly basis to ensure that services are being used, and that case managers are authorizing service levels as budgeted. Where productivity and utilization have declined, a more in-depth review is made to determine whether the service in question is still relevant or whether a change in the service delivery process is needed. In recent years the utilization data has helped determine areas in which funding allocations for services should be reduced and areas in which allowances will increase in response to demand for services. Congregate meal utilization has increased in the Tombstone, Patagonia, and Nogales sites due to improved meals, personnel, socialization activities, and funding increased in response to these trends.

Action to be Taken to Address Identified Needs: The table below summarizes the actions to be taken to address the needs identified in the needs assessment process:

Comment or Issue	Source	Action to be taken
Affordable Dental Care	Needs Assessment Surveys	Ship counselors will have information about Medicare plans and clinics or service clubs that provide dental or vision services. Enrollment of dual-eligible clients into Special Needs Plans by getting QMB coverage for both Parts A & B of Medicare will be reviewed carefully. Increases of SHIP volunteers trained, and these numbers will decrease significantly.
Maintenance and Repair of the home	Needs Assessment	Potential sources of assistance will be catalogued and feasibility of consolidating regional human services will be explored. Will reach out to existing organizations that already provide similar resources.
Affordable assistive devices	Needs Assessment Surveys	Ship counselors and case managers will have information about insurance coverage for assistive devices and a list of loan closets. Case Managers will be providing more advocacy in their areas and inform clients of available options.
Maintenance of the Yard	Needs Assessment Surveys	Potential sources of assistance will be catalogued; feasibility of consolidating regional human services will be explored.
Telemarketing or In-Home Sales	Needs Assessment Surveys	Increase public information forums on fraud prevention. Since the height of the pandemic, more seniors are utilizing Facebook and other social media postings containing valuable fraud-prevention information.
Finding Legal Assistance	Needs Assessment Surveys	AAA legal services are now available in partnership with Soto-Law, PLLC in Cochise County, and potentially expand to the rest of the region.

PART IV

GOALS, STRATEGIC AND OPERATIONAL OBJECTIVES

PART IV - GOALS, OBJECTIVES

GOAL I To increase awareness and understanding of aging issues and help prepare Arizona for an aging population

Operational Objectives:

- O-1-1 To recruit and train volunteers in every vital community in the region to help the inhouse programs at the Area Agency on Aging
- O-1-2 To increase and expand the visibility of all in-house programs by performing monthly multi-modal presentations.
- Output: Increase the number of our volunteer base and the number of hours that they dedicate to the programs.
- Outcome: Our in-house programs will grow, and our communities will be well aware of the services and resources. AAA will be better prepared to meet the needs of those turning 65 and their family caregivers.

Strategic Objectives:

- S-1-1 To identify new opportunities for partnerships and collaboration.
- S-1-2 To increase visibility of SEAGO AAA by increased use of electronic communications, including social media platforms such as the website, Facebook page, and partnerships with Chambers of Commerce and local newspapers.

GOAL II To increase the ability of older adults to remain active, healthy, and living independently in their communities.

Operational Objectives:

O-2-1 To expand the multi-modal A Matter of Balance and Tai Chi for Arthritis/Fall Prevention and Trualta interactive learning portal for caregivers throughout the region.

Output: Increase the number of Tai Chi for Arthritis and A Matter of Balance classes and increase registered family caregivers.

Outcome: Change in societal expectations about aging, higher levels of physical and emotional well-being, decrease falls, civic engagement, and more vital social connectedness among aging adults throughout the region.

O-2-2 To enhance and maintain home and community-based programs that enable elders to remain at home, decreasing long-term care institutionalization costs.

Output: Increase home-delivered meals and hours of Home Care and In-Home Respite provided to eligible individuals.

Outcome: Elders and their families will receive services that enable them to remain active in their homes and communities.

O-2-3 Increase participation in coordination meetings and planning efforts.

Output: Increase transportation services will continue to meet the needs of elders who would otherwise be isolated.

Outcome: The most vulnerable and family caregivers will have available resources at their reach.

Strategic Objectives:

- S-2-1 To develop partnerships throughout the region to implement evidence-based prevention programs, precisely A Matter of Balance and Tai Chi for Arthritis fall prevention and Trualta.
- S-2-2 To establish relationships with hospital discharge planners and Long Term Care rehabilitation centers that will focus on care transitions for elderly patients back to home settings.
- S-2-3 To expand relationships with Faith-Based Organizations and Fire Districts to reach a broader sector of the senior population and our caregivers.

S-2-4 To explore opportunities for increased efficiencies in program administration.

GOAL III To increase the safety and well-being of older Arizonans.

Operational Objectives:

O-3-1 To identify existing safety programs that law enforcement, fire departments, Red Cross, Health Departments, and AARP have in operation, and encourage seniors to enroll in these programs.

Output: Enrollment and participation in existing safety programs will increase.

Outcome: Elders will benefit from safety training and wellness check programs that already exist, and caregivers will have the tools needed to provide quality care.

O-3-2 To promote fall prevention, including A Matter of Balance and Tai Chi for Arthritis fall Prevention.

Output: To complete fact sheets on fall prevention and number of individuals who complete A Matter of Balance and Tai Chi classes.

Outcome: The number of falls reported in elders will decline.

O-3-3 To improve care for residents in long-term care facilities and increase awareness of abuse, neglect, and crimes against seniors.

Output: Increase the number of Ombudsman volunteers.

Outcome: Decrease in victims of elder abuse, neglect, and crimes against seniors.

Strategic Objectives

- S-3-1 To establish and expand relationships and collaborative efforts with public safety personnel throughout the region.
- S-3-2 To reduce the costs associated with public safety responses to senior-related crimes or injuries.

PART V

PREFERENCE GIVEN TO OLDER PERSONS WITH GREATEST ECONOMIC OR SOCIAL NEED

PART V - PREFERENCE TO OLDER PERSONS WITH GREATEST ECONOMIC OR SOCIAL NEED

Hispanics and Non-Hispanic whites constitute the most prominent race group in this region. Demographic analysis report generated through the DAARS database is what SEAGO uses to track home and community-based services, congregate meals, and transportation needs. During SFY 2019-2020, data on household composition in the four-county region indicates 48% of all clients live alone, and 20% live with their spouse. **Appendix E5** provides a detailed demographic analysis of SEAGO AAA clients for SFY 2019-2020.

To meet our target population's service needs, providers employ bilingual and bicultural individuals in Spanish and English. They also use flyers and publications in both Spanish and English to reach elders and their families throughout the region. Moreover, provider staff is trained to recognize cultural or religious customs that need to be considered when providing service. To identify eligibility for assistance, the individual client assessments were completed by case managers on anyone who might qualify to receive home and community-based services (HCBS). Through this assessment, services are targeted to those who lack a support system, low income, and most vulnerable, including adult protective service referrals. Many of the individuals who are case-managed are at risk of institutionalization. A waitlist is kept and monitored monthly to help keep waitlisted clients to a minimum and allocate funds where they are needed.

A variety of different forms of outreach are used. These are: word of mouth, personal contact, distribution of brochures and flyers to senior living facilities and other venues, posting ads or program information on the SEAGO website, AAA Facebook page, Constant Contact, and quarterly newsletters, as well as being present at the many events in the different communities are essential ways to find individuals who are eligible for our services. Each member of the Advisory Council on Aging represents a diverse community in the SEAGO region and serves as an ambassador for the AAA. These members work closely with their communities and share information and resource directories with their family and friends, and within the organizations they represent.

Presentations at community meetings, faith-based groups, trainings, and board meetings that SEAGO AAA Program Director participates in quarterly help get the word out about our services. The Chamber of Commerce in Cochise, Graham, and Santa Cruz help us disseminate information through their platforms. Health and Resource fairs have also been a way to reach those who would not learn about our services otherwise. Many times it is younger family members at these fairs who take the information back to their elders. Networking with other fairs participants has also been beneficial, such as home-care agencies, hospitals, fire departments, long-term care facilities, senior housing complexes, disability organizations, and elder law attorneys. The Community Connections through the FCSP presents to local organizations on all AAA programs.

SEAGO's 19 contracted service providers plus its many community partners enable a very tiny Area Agency on Aging to function and implement this Area Plan. By collaborating, making referrals, jointly providing training opportunities, sharing facilities, and most importantly, communicating Under "Part II" of this plan, specific examples of how community-based organizations are involved in providing services are discussed. These services are planned and implemented with input from these partners.

PART VI KEY CHANGES TO SERVICE DELIVERY

PART VI – KEY CHANGES TO SERVICE DELIVERY

Changes in the Service Delivery System:

Family Caregiver Support Program- The transformation began in 2019; the FCSP coordinator has found ways to enhance, support, and introduce the program throughout region VI. The FCSP packet includes: The five core caregiver support services, including information to caregivers about available services, individual counseling, support groups, caregiver training, respite care, and supplemental services (on a limited basis) to complement the care provided by caregivers.

Community Education and Information:

Community Connections- A panel of AAA Staff zoom meetings that focus on reaching out to local organizations and promoting the program's services and more effectively deploy resources by helping participating organizations understand and build on each other's work.

Hello Neighbor Program - Senior Community Outreach that Distribute bags containing Literature and information regarding AAA programs, services, and events to senior community residents.

Outreach:

Reassurance Program- connects with existing caregiver clients via direct mailing, email, or telephonic well care calls to check on their well-being, provide information and resources.

Social Media Outreach- helps keep caregivers informed via Facebook, allowing them the opportunity to stay engaged. Daily Caring caregiver tips are posted each morning on Facebook providing practical information to help caregivers maintain their role in providing care to an individual.

Caregiver Training:

Trualta- provides caregivers with an on-demand interactive learning portal. The platform is flexible, allowing the caregiver to utilize it at their own pace and learn from multiple trainings such as Dementia care, safety, personal care, and many more. The program offers information in a practical, engaging manner to prepare and support caregivers with relevant skills to manage daily caring tasks. The support is accessible and does not create extra barriers or more stress.

FCSP plans to implement strategies that increase existing services, especially in our most rural areas. Utilizing a technology-enabled training program helps to mitigate barriers to access and dependency on costly resources to support families. Technology literacy and accessibility to resources remain a concern.

Peer Counseling:

Caregiver Mingle-Pinkie's Up- addresses social isolation and loneliness. Designed to help reduce caregiver stress and burden, the weekly virtual support group will offer a forum for caregivers to connect with peers, focus on self-care and find support. Surprise Speakers will provide opportunities to learn about local resources.

Information and Referral:

Information and Referral shares information regarding all current programs and services, and resources available in the community. Resources are explored and reviewed with individuals who have barriers in their life that may have impacted.

Program Development READI - Real Emergency and Disaster Innovative meals began during SFY20. Since then, we have subcontracted with Cindy Meyers, who works closely with our HPR coordinator to find ways to make this program a success. The purpose of this idea was to help our existing CNG/HDM service providers to find a way to reduce food waste and keep a healthy, nutritional emergency feeding plan that would work with DES-DAAS requirements. Our participants will store packaged, long-lasting meals that do not lose their nutritional value, flavor and can last for years. We have purchased and deployed one or two freeze dryers that each site will use in their facilities. We are now following the Food Safety Plan through the Food Modernization Act rather than the HACCP plan. The FSP has allowed us to spend less and work towards a more efficient process. By contracting with the Meter Group, we now have reliable water activity meters with SKALA software. We use the SKALA food safety software system to track, record, and report on each batch of freeze-dried food coming out of the machines at the various sites. We now have the Vapor Sorption Analyzer (VSA) to help us predict shelf life, the stability of the freeze-dried food in varying environmental conditions and safely reconstitute the freeze-dried food. Meet the criteria of the Food Safety Plan (FSP) as set by the FDA and the Food Modernization

- 1) Predict the shelf life of the freeze-dried food
- 2) Determine product stability over varying environmental conditions
- 3) Set parameters and guidelines for safely reconstituting the food
- 4) Choosing proper packaging and finding areas to control cost

We are in the process of recording video training that we will use to train our sites as soon as COVID allows us to, and the local health departments also give us the okay. The potential for the SEAGO-READI program is tremendous. When successful, it could become a model rolled out across the State of Arizona and eventually nationwide. The program will provide an affordable, shelf-stable, and nutritionally balanced alternative for emergency feeding of clientele, thus ensuring meaningful, fully compliant emergency preparedness. Also, the SEAGO-READI Meals Program will potentially save nutrition sites thousands of dollars each year by preventing food purchased and prepared from being wasted while ensuring that seasonal produce is available for menu planning year-round.

Elder Fraud and Abuse taskforce: The COVID pandemic has brought a lot of attention to how we see and address elder fraud and abuse. The Long Term Care Ombudsman and State Health Insurance Coordinators collaborate to form partnerships that include: Adult Protective Services, Long Term Care facilities, Public Fiduciaries, senior adult homes, financial institutions, and more to address regional challenges and potential future needs. The task force will help both programs work hand in hand on addressing elder abuse both in long-term care settings and the communities with scam jams. The LTCO collaborates with long-term care facilities and helps host an event on Elder Abuse and Fraud, particularly in Douglas. The SHIP Coordinator has increased her scam jams throughout the region to address Southeastern Arizona's most common scams. Working closely and identifying partners in the community and working closely with them will help protect our seniors and raise awareness for a healthier southeastern region.

Strengthening Programs Providing Protection against Threats to Independence, Well-Being and Financial Security:

Expanding the SEAGO AAA Network - Expanding partnerships, increasing collaboration, and improving outreach are integral to strengthening the core programs at SEAGO AAA. In addition to the partnerships and initiatives described in this Area Plan, SEAGO AAA will continue to provide training and information at community events and health fairs. With the COVID pandemic, we have expanded ways to stay active and visible in our communities. We created a library of events on our Facebook page where presentations are stored for future use. We have created a mobile app that gives people access to

our library of events and, most notably, the resource directories for our four-county region. We work closely with three Chamber of Commerce who allow us to use their distribution methods to get information to the private sector. We will continue to collaborate with the Alzheimer's Association in providing training and education to first responders, Adult Protective Services, and caregivers as requested. Our agency is a member of the National Association of Area Agencies on Aging (N4A), Arizona Association of Area Agencies on Aging (AZ4A), and National Association of Nutrition and Aging Services Programs (NANASP) to be more informed of current issues, policies, and programs for seniors and people with disabilities. We collaborate with our Center for Independence-Direct to promote their services to the disabled population in our region. Home and community-based programs help many remain independent. We have reduced our waitlist numbers as we see more funding allocated to our region year after year, thanks to outstanding advocacy at the local, state, and federal levels.

While it is not possible to ask our partners to host their annual events during the pandemic. SEAGO-AAA will encourage our local partners to host the yearly Caregiver Conference in Santa Cruz County, with the Senior Expo and Caregiver Conference in Graham and Greenlee County when it is safe to do so. SEAGO-AAA will help coordinate and promote those events. We intend to continue educating our communities and hosting the annual Region VI Conference on Aging in Sierra Vista. SEAGO AAA will help promote the efforts that DES and Alzheimer's Association have outlined for the new Arizona Alzheimer's State Plan. These efforts maximize public awareness and understanding by educating caregivers and in-house staff, and case managers and expanding a dementia-capable workforce in Arizona. SEAGO AAA is actively looking for grant opportunities to supplement the DES's funds to enhance or expand services within the region.

Senior Medicare Patrol (SMP) - The new SMP Coordinator currently has three volunteers starting virtual SMP training during the 2nd quarter of 2021 and an additional volunteer that has completed SMP training. These volunteers cover southwestern Cochise, northern Cochise, and eastern Santa Cruz counties. Outreach with community hospitals has been slowly building with contacts at Canyon Vista Medical Center in Sierra Vista, Benson Community Hospital in Benson, and Mount Graham Regional Health Center in Safford. Outreach will also be happening with church groups throughout our four-county regions.

Evidence-Based Programs: The CDSMP is currently active in Graham and Greenlee Counties. SEAGO-AAA plans to work closely with Graham and Greenlee and collaborate to expand their services and the services AAA has in place. SEAGO provides AMOB, and we have a full-time Health and Nutrition Coordinator who will soon become a master trainer in both AMOB and CDSMP. This will allow us to enhance our community partnerships in all four counties, expand SEAGO-AAA outreach and train more volunteer coachers to deliver services to participants within their communities. Outreach and partnerships will focus on county organizations, senior communities, and assisted living facilities in the four county region. Our goal is to yield AMOB in-person classes post COVID while at the same time maintaining the proper training and structure for virtual classes should we experience another shutdown. We will promote and expand our efforts in all areas of the region to best fit the needs of each community and deepen our partnerships to ensure access, communication and support.

Helping Older Adults Access Medicare Benefits: The struggle to recruit volunteers has continued. One volunteer in the Graham/Greenlee counties area has resigned due to the long-term effects of Covid. We currently have four volunteers who cover the Cochise county area and eastern Santa Cruz County. We are recruiting for volunteers in western Santa Cruz and all of Graham and Greenlee counties. During the past year, we have hosted several webinars on Facebook and will continue to do so. Facebook Live offers

us the option of having live educational opportunities regularly. We use our Constant Contact email blasts and our newsletters to reach out to our communities. We have also added our SEAGO – Area Agency on Aging Mobile application to keep our region informed and facilitate appointments by phone and, hopefully, soon in person.

Transportation Coordination-Mobility Management: Is recognized as an essential service to the SEAGO Region's transportation providers. Through Mobility Management, partnerships are created with providers, social service agencies, governmental agencies, and the general public to reduce costs, enhance travel options, improve safety, and identify service gaps. Federal Funding requires that grantees **Coordinate** with other transit providers to ensure the maximum amount of service possible while reducing costs by utilizing shared or coordinated resources. The SEAGO Mobility Management team has 25+ years of Transit Management experience. They strive to provide support and guidance to regional transit providers, ensuring that Arizona Department of Transportation (ADOT) requirements are being met by; standardizing program operations and adhering to training and policies/procedures. The Mobility Management team also monitors regional transit programs that provide service to AAA clients and provide PASS training/technical assistance to providers statewide. As a result of these efforts, the City of Willcox is awarded ADOT funding for a Dial-A-Ride program that would serve Willcox and the surrounding communities of Bowie, Cochise, Kansas Settlement. Pearce/Sunsites and Winchester Heights. This program is scheduled to begin in October 2021 and fill an identified service gap in Cochise County.

Modernizing Nutrition Programs: The SEAGO AAA does not operate or manage nutrition sites or senior centers but does provide funding for nutrition programs across the region through subawards with service providers. In soliciting nutrition service providers in the future, SEAGO may ask potential service providers to include strategies for targeting Boomers in their service delivery plans. SEAGO-AAA has created a Director's Handbook to issue to our meal providers to have on-hand when needed. In that handbook, we cover the following: What is the AAA, Fundamentals of CNG and HDM and requirements, menu and meal planning, Policies, licensing, and more. During the yearly training, the AAA staff will cover each of the topics included in the handbook and address it when needed. With the implementation of the READI meals, the AAA will dedicate an increased amount of time spent guiding and assisting the sites with the READI meals program effectively. This will result in our sites meeting the requirements of DES-DAAS emergency feeding plans. By working closely with each of our county health departments, we will deliver crucial nutritional information and help with the survey once per year to identify educational needs, food insecurity, and other possible SEAGO-AAA service needs of participants at senior centers and nutritional sites receiving sub-awards.

Consumer Choice and Care Choice Options: Case managers have always promoted private pay for home care because they effectively target low-income individuals and manage waiting lists. Three of the six contracted home care providers are for-profit agencies. These agencies offer private pay housekeeping, attendant care, and in-home Respite. SINCE ITS INCEPTION, the SEAGO-AAA staffs the Family Caregiver Support Program Coordinator; we see an increasing demand for FCSP services in the past year. The AAA coordinator works closely with the case managers, identifies gaps, and finds ways to fill those gaps. SEAGO will continue to encourage providers and case managers to involve consumers in decisions that affect service delivery. SEAGO has at least two service providers for temporary housekeeping, attendant care, and in-home Respite in most areas of the region. Case managers are required to offer clients a choice.

Health Care Service Coordination: As described in detail above, the SEAGO AAA issues a competitive Request for Applications to select the best-qualified service providers and ensure competition in arranging for services for elderly individuals and their caregivers. In their proposals, prospective service providers are asked to describe how they will coordinate benefits with any other programs that serve the elderly or disabled, how they will coordinate activities with county long-term care programs, Medicare and ALTCS, and how the provider will ensure that these fund sources are maximized to use AAA funding only when no other source is available, in order to ensure coordination of services and integration of multiple funding sources. Cost Share is encouraged, and case managers, service providers, and AAA monitor these contributions.

Title VII Efforts: The SEAGO AAA will continue to host the Region VI Conference of Aging, where information on Long Term Care Ombudsman, SHIP, and SMP programs are featured. While it was not possible to host the conference during SFY21, our intention stands once we can do it safely from Covid. SEAGO will continue to hold workshops on Medicare, advanced directives, and selecting LTC policies, as well as scam jams across the region. Besides, case-managed services target those who lack a support system, low income, and those who are most vulnerable, including adult protective service referrals. Participation in community meetings, training, health and resource fairs, and other events will offer opportunities to get the word out about LTC Ombudsman, SHIP, SMP programs and services, and how to prevent, detect, and report abuse neglect, and financial exploitation of older adults. As new training modules are out at the state level, these modules will be adopted, and once completed, the LTCO will make an effort to recruit more volunteers in the area. The Long Term Care Ombudsman program and the State Health Insurance Program are collaborating in building an Elder Fraud and Abuse taskforce in Cochise county. We see that with the multiple changes happening since COVID, we must educate and inform our communities. We have organizations that work with the elderly as partners that will help the Area Agency on Aging address the needs of those affected or reduce the number of cases throughout our region.

Other: SEAGO-AAA Management Analyst oversees the Case Management program, and since her partaking, we see even more impact in the program. She coordinates services and funding availability amongst the case managers and service providers to assist the director in projecting future spending. She provides training and guidance to our case managers on changes happening within the organization. The modification is preparing our Management Analysis for when SEAGO-AAA begins to bring the case management in-house.

With a grant obtained through the Legacy Foundation of Southeast Arizona and the David and Lura Lovell Foundation, the Area Agency on Aging has successfully adopted **End of Life Care Matters** since 2018. With the dedication and support from Veronica "Ronnie" Squyres, we are successfully going into our third year. Thus far, we have accomplished our goal to expand our services throughout the fourcounty region by hosting Thoughtful Life Conversations workshops. Our goal has been to normalize and increase conversations by providing several venues for discussing and planning for end-of-life issues and healthcare planning, including advance directives. We have developed our Workplace Initiative (WPI) to provide education to organizations that provide healthcare and social services to patients and clients. We have reached over 600 participants, over 40 workshops and partnered with 19 local organizations. There is representation from the Area Agency on Aging in the AZ Health Directive Registry committee for the transition. We commit ourselves to help make this transition a huge success.

APPENDICES PART D AREA PLAN ASSURANCES

Area Plan Assurances

By signing this document, the authorized official commits the Area Agency on Aging to performing all listed assurances and required activities.

- (2) Each area agency on aging shall provide assurances that an adequate proportion, as required under section 307(a)(2), of the amount allotted for part B to the planning and service area will be expended for the delivery of each of the following categories of services-
- (A) services associated with access to services (transportation, health services (including mental health services), outreach, information and assistance (which may include information and assistance to consumers on availability of services under part B and how to receive benefits under and participate in publicly supported programs for which the consumer may be eligible), and case management services);
- (B) in-home services, including supportive services for families of older individuals who are victims of Alzheimer's disease and related disorders with neurological and organic brain dysfunction; and
- (C) legal assistance:

and assurances that the area agency on aging will report annually to the State agency in detail the amount of funds expended for each such category during the fiscal year most recently concluded.

- (4)(A)(i)(I) provide assurances that the area agency on aging will—
- (aa) set specific objectives, consistent with State policy, for providing services to older individuals with greatest economic need, older individuals with greatest social need, and older individuals at risk for institutional placement:
- (bb) include specific objectives for providing services to low-income minority older individuals, older individuals with limited English proficiency, and older individuals residing in rural areas; and
- (II) include proposed methods to achieve the objectives described in items (aa) and (bb) of subclause (I);
- (ii) provide assurances that the area agency on aging will include in each agreement made with a provider of any service under this title, a requirement that such provider will—
- (I) specify how the provider intends to satisfy the service needs of low-income minority individuals, older individuals with limited English proficiency, and older individuals residing in rural areas in the area served by the provider;
- (II) to the maximum extent feasible, provide services to low-income minority individuals, older individuals with limited English proficiency, and older individuals residing in rural areas in accordance with their need for such services; and
- (III) meet specific objectives established by the area agency on aging, for providing services to low-income minority individuals, older individuals with limited English

proficiency, and older individuals residing in rural areas within the planning and service area; and

(4)(A)(iii) With respect to the fiscal year preceding the fiscal year for which such plan is prepared, each area agency on aging shall--

(I) identify the number of low-income minority older individuals and older individuals residing in rural areas in the planning and service area;

(II) describe the methods used to satisfy the service needs of such minority older individuals; and

(III) provide information on the extent to which the area agency on aging met the objectives described in clause (a)(4)(A)(i).

(4)(B)(i) Each area agency on aging shall provide assurances that the area agency on aging will use outreach efforts that will identify individuals eligible for assistance under this Act, with special emphasis on--

(I) older individuals residing in rural areas;

(II) older individuals with greatest economic need (with particular attention to lowincome minority individuals and older individuals residing in rural areas);

(III) older individuals with greatest social need (with particular attention to low-income minority individuals and older individuals residing in rural areas);

(IV) older individuals with severe disabilities;

(V) older individuals with limited English proficiency;

(VI) older individuals with Alzheimer's disease and related disorders with neurological and organic brain dysfunction (and the caretakers of such individuals); and

(VII) older individuals at risk for institutional placement; and

(4)(C) Each area agency on agency shall provide assurance that the area agency on aging will ensure that each activity undertaken by the agency, including planning, advocacy, and systems development, will include a focus on the needs of low-income minority older individuals and older individuals residing in rural areas.

(5) Each area agency on aging shall provide assurances that the area agency on aging will coordinate planning, identification, assessment of needs, and provision of services for older individuals with disabilities, with particular attention to individuals with severe disabilities, and individuals at risk for institutional placement, with agencies that develop or provide services for individuals with disabilities.

(6) Each area agency will:

(6)(F)in coordination with the State agency and with the State agency responsible for mental health services, increase public awareness of mental health disorders, remove barriers to diagnosis and treatment, and coordinate mental health services (including mental health screenings) provided with funds expended by the area agency on aging with mental health services provided by community health centers and by other public agencies and nonprofit private organizations;

(9) Each area agency on aging shall provide assurances that the area agency on aging, in carrying out the State Long-Term Care Ombudsman program under section 307(a)(9), will expend not less than the total amount of funds appropriated under this Act and expended by the agency in fiscal year 2000 in carrying out such a program under this title.

- (11) Each area agency on aging shall provide information and assurances concerning services to older individuals who are Native Americans (referred to in this paragraph as "older Native Americans"), including-
- (A) information concerning whether there is a significant population of older Native Americans in the planning and service area and if so, an assurance that the area agency on aging will pursue activities, including outreach, to increase access of those older Native Americans to programs and benefits provided under this title;
- (B) an assurance that the area agency on aging will, to the maximum extent practicable, coordinate the services the agency provides under this title with services provided under title VI; and
- (C) an assurance that the area agency on aging will make services under the area plan available, to the same extent as such services are available to older individuals within the planning and service area, to older Native Americans.
- (13)(A) Each area agency on aging shall provide assurances that the area agency on aging will maintain the integrity and public purpose of services provided, and service providers, under this title in all contractual and commercial relationships.
- (13)(B) Each area agency on aging shall provide assurances that the area agency on aging will disclose to the Assistant Secretary and the State agency--
- (i) the identity of each nongovernmental entity with which such agency has a contract or commercial relationship relating to providing any service to older individuals; and (ii) the nature of such contract or such relationship.
- (13)(C) Each area agency on aging shall provide assurances that the area agency will demonstrate that a loss or diminution in the quantity or quality of the services provided, or to be provided, under this title by such agency has not resulted and will not result from such non-governmental contracts or such commercial relationships.
- (13)(D) Each area agency on aging shall provide assurances that the area agency will demonstrate that the quantity or quality of the services to be provided under this title by such agency will be enhanced as a result of such non-governmental contracts or commercial relationships.
- (13)(E) Each area agency on aging shall provide assurances that the area agency will, on the request of the Assistant Secretary or the State, for the purpose of monitoring compliance with this Act (including conducting an audit), disclose all sources and expenditures of funds such agency receives or expends to provide services to older individuals.

- (14) Each area agency on aging shall provide assurances that funds received under this title will not be used to pay any part of a cost (including an administrative cost) incurred by the area agency on aging to carry out a contract or commercial relationship that is not carried out to implement this title.
- (15) provide assurances that funds received under this title will be used-
- (A) to provide benefits and services to older individuals, giving priority to older individuals identified in paragraph (4)(A)(i); and
- (B) in compliance with the assurances specified in paragraph (13) and the limitations specified in section 212.

Executive Summary

This report presents the results of a needs assessment survey of the senior population in southeast Arizona conducted in 2020 by US Economic Research and SouthEastern Arizona Governments Organization's Area Agency on Aging. The survey included a sample of 371 seniors (ages 60 and older) residing in Cochise, Graham, Greenlee, and Santa Cruz counties.

The survey indicated the most important need of seniors in southeast Arizona is affordable dental care. This was rated a serious problem by 41.1% of survey respondents across the region and was the number one serious problem in 3 of the 4 counties (in Santa Cruz County, it ranked sixth as a serious problem but was the top-ranked problem, tied with cost of housing, in identification as either "some

problem" or "serious problem"). In addition to being rated the top serious problem, affordable dental care was also perceived as a problem ("some problem" or "serious problem") by 69.9% of those surveyed across southeast

Arizona. It was perceived as a problem by more respondents than any other issue in 3 of the 4 counties (it ranked third in Greenlee County, behind maintenance of the yard and maintenance and repair of the home).

The second most important need of seniors in southeast Arizona is maintenance and repair of the home. This was rated a serious problem by 24.9% of survey respondents across southeast Arizona. Maintenance and repair of the home ranked in the top 5 list of serious problems in all four SEAGO counties. In addition to being rated a top serious problem, maintenance and repair of the home was also perceived as a problem ("some problem" or "serious problem") by 55.6% of those surveyed across southeast Arizona, making it the 4th ranked problem ("some problem" or "serious problem") regionwide.

Maintenance and repair of the home was followed closely by affordable assistive devices, rated a serious problem by 24.8% of survey respondents, making it third on the list of serious problems in the SEAGO region. In addition to being rated a top serious problem, affordable assistive devices was also perceived as a problem ("some problem" or "serious problem") by 58.6% of those surveyed across southeast Arizona, making it second on the list of problems ("some problem" or "serious problem"). It was in the top 5 serious problems in 3 of the 4 counties (all but Santa Cruz County) and was in the top 5 list of problems ("some problem" or "serious problem") in all four counties.

Other important concerns at the regional level include maintenance of the yard and telemarketing

"The survey indicated the most important

(or in-home sales), each of which was rated a serious problem by 24.3% of survey respondents. Maintenance of the yard was rated a

need of seniors in southeast Arizona is affordable dental care. This was rated a serious problem by 41.1% of survey respondents across the region..." problem ("some problem" or "serious problem") by 56.9% of survey respondents across southeast Arizona and

was in the top 5 problems ("some problem" or "serious problem") in all four counties. Telemarketing was ranked both a top 5 serious problem and a top 5 problem ("some problem" or "serious problem") at the region level.

Issues that were least regarded as serious problems for seniors in southeast Arizona were personal safety, volunteer opportunities, raising grandchildren, bereavement/grief counseling/hospice services, and elderly abuse/exploitation.

The survey revealed the most common sources of advice for seniors regarding health insurance or Medicare regionally were SEAGO Area Agency on Aging and insurance agents. The most popular sources of transportation were respondents' own vehicles and friends, neighbors, and family.

Introduction

In 2020, US Economic Research in partnership with SouthEastern Arizona Governments Organization's (SEAGO) Area Agency on Aging (AAA) conducted a survey of 371 residents of southeast Arizona (Cochise, Graham, Greenlee, and Santa Cruz counties) ages 60 and older to determine their needs for assistance (see Table 1 for distribution of the sample). The surveys were distributed by AAA at various locations throughout the counties in places where residents ages 60 and older were known to

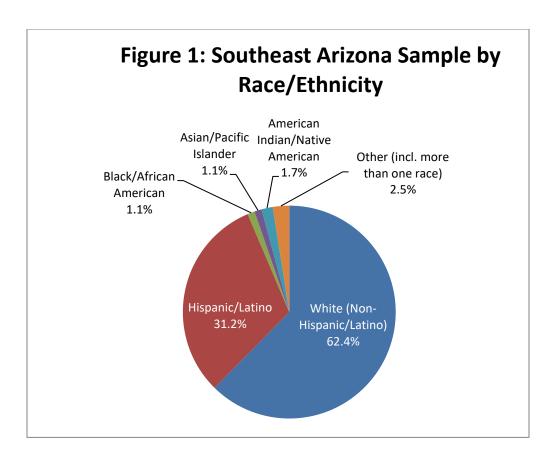

frequent. An online version was disseminated by AAA and posted to the SEAGO website. US Economic Research reviewed the survey design, prepared the online version of the survey, provided data entry and analysis, and prepared this report. Survey results were compared to those from a similar survey conducted in 2016 (see Appendix A for comparison of results). The survey instrument is at Appendix B (English) and Appendix C (Spanish).

Narrative and Tabular Survey Results

Southeast Arizona

Sample Size: 371

Serious problems

Issues identified as a serious problem by the largest share of survey respondents throughout southeast Arizona (Cochise, Graham, Greenlee, and Santa Cruz counties) were affordable dental care, identified as a serious problem by 41.1% of those surveyed; maintenance and repair of home, identified as a serious problem by 24.9%; affordable assistive devices, identified as a serious problem by 24.8%; maintenance of the yard, identified as a serious problem by 24.3%; and telemarketing or in-home sales, also identified as a serious problem by 24.3% of respondents.

Problems

Issues identified as a problem (either "some problem" or "serious problem") by the largest share of survey respondents across southeast Arizona were affordable dental care, identified as a problem by 69.8% of those surveyed; affordable assistive devices, identified as a problem by 58.6%; maintenance of the yard, identified as a problem by 56.9%; maintenance and repair of home, identified as a problem by 55.6%; and telemarketing or in-home sales, identified as a problem by 53.4% of respondents.

No problem

Issues identified as no problem by the largest share of survey respondents throughout southeast Arizona

were <u>raising grandchildren</u>, identified as "no problem" by 88.1% of those surveyed; <u>elderly abuse/exploitation</u>, identified as "no problem" by 84.3%; <u>volunteer opportunities</u>, identified as "no problem" by 83.7%; <u>personal safety</u>, identified as "no problem" by 79.1%; and <u>providing care and supervision for an elderly family member</u>, which was identified as "no problem" by 78.5% of those surveyed.

Sources of Health Insurance/Medicare advice

Survey respondents were asked to identify their sources of advice regarding health insurance or Medicare. In southeast Arizona, <u>SEAGO AAA</u> and <u>insurance agent</u> were the most popular sources at 21% and 20.5% of respondents, respectively. Popular write-in responses were family members, Medicare, SEACUS, and Veterans Administration. See Appendix D for a complete list of responses regarding other sources contacted.

Sources of Transportation

Survey respondents were asked to identify their sources of transportation. In southeast Arizona, <u>own vehicle</u> was the most popular source (69.3% of respondents) followed by <u>friend/neighbor</u> (23.7%). The most popular write-in response was family members. See Appendix E for a complete list of responses regarding other sources of transportation.

Raising grandchildren	11.9%

Cochise County

Sample Size: 208

Serious problems

Issues identified as a serious problem by the largest share of survey respondents in Cochise County were affordable dental care, identified as a serious problem by 44.4% of those surveyed; affordable assistive devices, identified as a serious problem by 24.7%; telemarketing or in-home sales, identified as a serious problem by 23.7%; maintenance and repair of home, identified as a serious problem by 23.4%; and maintenance of yard, identified as a serious problem by 22.7% of respondents.

Problems

Issues identified as a problem (either "some problem" or "serious problem") by the largest share of survey respondents in Cochise County were <u>affordable dental care</u>, identified as a problem by 70.7% of those surveyed; <u>affordable assistive devices</u>, identified as a problem by 59.1%; <u>maintenance of yard</u>, identified as a problem by 55.2%; <u>maintenance and repair of home</u>, identified as a problem by 53.2%; and <u>availability of health care providers</u>, identified as a problem by 52.7% of respondents.

No problem

Issues identified as no problem by the largest share of survey respondents within Cochise County were

raising grandchildren, identified as "no problem" by 90.3% of those surveyed; elderly abuse/ exploitation, identified as "no problem" by 85.3%; volunteer opportunities, identified as "no problem" by 84.7%; bereavement/grief counseling/hospice services, identified as "no problem" by 80.9%; and providing care and supervision for an elderly family member, identified as "no problem" by 79.2% of those surveyed.

Sources of Health Insurance/Medicare advice

Survey respondents were asked to identify their sources of advice regarding health insurance or Medicare. In Cochise County, <u>SEAGO AAA</u> and <u>insurance agent</u> were the most popular sources at 20.7% and 17.3% of respondents, respectively. The most popular write-in response was family members. See Appendix D for a complete list of responses regarding other sources contacted.

Sources of Transportation

Survey respondents were asked to identify their sources of transportation. In Cochise County, <u>own vehicle</u> was the most popular (75% of respondents) followed by <u>friend/neighbor</u> (19.2%). The most popular write-in response was family members. See Appendix E for a complete list of responses regarding other sources of transportation.

Graham County

Sample Size: 69

Serious problems

Issues identified as a serious problem by the largest share of survey respondents in Graham County were affordable dental care, identified as a serious problem by 35.3% of those surveyed; telemarketing or in-home sales, identified as a serious problem by 32.8%; affordable assistive devices, identified as a serious problem by 26.5%; finding legal assistance, identified as a serious problem by 19.1%; and maintenance and repair of home, identified as a serious problem by 18.2% of respondents.

Problems

Issues identified as a problem (either "some problem" or "serious problem") by the largest share of survey respondents in Graham County were affordable dental care, identified as a problem by 72.1% of those surveyed; telemarketing or in-home sales, identified as a problem by 65.7%; affordable assistive devices, identified as a problem by 57.4%; maintenance and repair of home, identified as a problem by 53%; and maintenance of yard and income, each identified as a problem by 52.2% of respondents.

No problem

Issues identified as no problem by the largest share of survey respondents within Graham County were

volunteer opportunities, identified as "no problem" by 88.7% of those surveyed; raising grandchildren, identified as "no problem" by 87.7%; elderly abuse, identified as "no problem" by 81.5%; personal safety, identified as "no problem" by 80.3%; and having someone check on me daily, identified as "no problem" by 78.1% of those surveyed.

Sources of Health Insurance/Medicare advice

Survey respondents were asked to identify their sources of advice regarding health insurance or Medicare. In Graham County, insurance agent was the most popular source (31.9% of respondents) followed by SEAGO AAA (18.8%). Popular write-in responses were family members and SEACUS. See Appendix D for a complete list of responses regarding other sources contacted.

Sources of Transportation

Survey respondents were asked to identify their sources of transportation. In Graham County, <u>own vehicle</u> was the most popular source (73.9% of respondents) followed by <u>friend/neighbor</u> (30.4%). The most popular write-in response was family members. See Appendix E for a complete list of responses regarding other sources of transportation.

Greenlee County

Sample Size: 78

Serious problems

Issues identified as a serious problem by the largest share of survey respondents in Greenlee County were affordable dental care, identified as a serious problem by 43.4% of those surveyed; maintenance of yard, identified as a serious problem by 35.5%; maintenance and repair of home, identified as a serious problem by 33.3%; affordable assistive devices, identified as a serious problem by 28.8% and finding legal assistance identified as a serious problem by 23.7% of respondents.

Problems

Issues identified as a problem (either "some problem" or "serious problem") by the largest share of survey respondents in Greenlee County were <u>maintenance of yard</u>, identified as a problem by 68.4% of those surveyed; <u>maintenance and repair of home</u>, identified as a problem by 68%; <u>affordable dental care</u>, identified as a problem by 65.8%; <u>availability of health care providers</u>, identified as a problem by 59.2%; and <u>affordable assistive devices</u>, identified as a problem by 58.9% of respondents.

No problem

Issues identified as no problem by the largest share of survey respondents in Greenlee County were <u>elderly</u>

abuse/exploitation, identified as "no problem" by 84.6% of those surveyed; raising grandchildren, identified as "no problem" by 83.3%; volunteer opportunities, identified as "no problem" by 78.9%; providing care and supervision for an elderly family member, identified as "no problem" by 77%; and personal safety, identified as "no problem" by 76.3% of respondents.

Sources of Health Insurance/Medicare advice

Survey respondents were asked to identify their sources of advice regarding health insurance or Medicare. In Greenlee County, <u>insurance agent</u> was the most popular source (23.1% of respondents) followed by <u>SEAGO AAA</u> (16.7%). The most popular write-in response was family members. See Appendix D for a complete list of responses regarding other sources contacted.

Sources of Transportation

Survey respondents were asked to identify their sources of transportation. In Greenlee County, <u>own vehicle</u> was the most popular source (55.1% of respondents), followed by <u>friend/neighbor</u> (25.6%). The most popular write-in response was family members. See Appendix E for a complete list of responses regarding other sources of transportation.

Santa Cruz County

Sample Size: 16

Serious problems

Issues identified as a serious problem by the largest share of survey respondents in Santa Cruz County were <u>transportation</u>, identified as a serious problem by 50% of those surveyed; <u>having someone check on me daily</u> and <u>transportation: rural, non-medical</u>, each identified as a serious problem by 37.5%; and <u>maintenance and repair of home</u>, <u>employment opportunities</u>, and <u>loneliness</u>, each identified as a serious problem by 31.3% of respondents.

Problems

Issues identified as a problem (either "some problem" or "serious problem") by the largest share of survey respondents in Santa Cruz County were affordable dental care and cost of housing, each identified as a problem by 68.8% of those surveyed; transportation: rural, non-medical, identified as a problem by 62.5%; and affordable assistive devices, preparing nutritious meals, and transportation, each identified as a problem by 56.3% of respondents.

No problem

Issues identified as no problem by the largest share of survey respondents in Santa Cruz County were

personal safety, identified as "no problem" by 93.7% of those surveyed and personal care, raising grandchildren, providing care and supervision for an elderly family member, and maintaining my personal independence, each identified as "no problem" by 87.5% of those surveyed.

Sources of Health Insurance/Medicare advice

Survey respondents were asked to identify their sources of advice regarding health insurance or Medicare. In Santa Cruz County, <u>State Health Insurance Assistance Program</u> was the most popular source (62.5% of respondents) followed by <u>SEAGO AAA</u> (56.3%). See Appendix D for a complete list of responses regarding other sources contacted.

Sources of Transportation

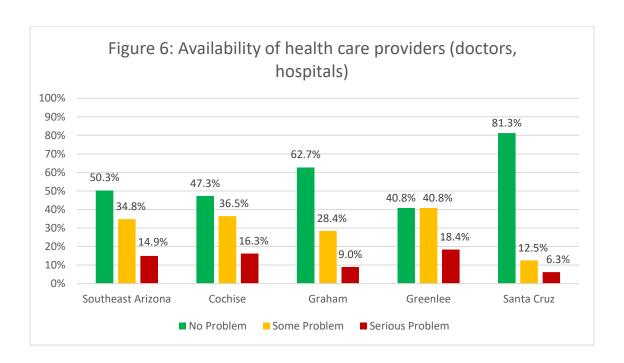

Survey respondents were asked to identify their sources of transportation. In Santa Cruz County, <u>own vehicle</u> and <u>friend/neighbor</u> were the most popular sources (each at 43.8% of respondents) followed by <u>taxi</u> and <u>volunteer</u> (each at 18.8%). See Appendix E for a complete list of responses regarding other sources of transportation.

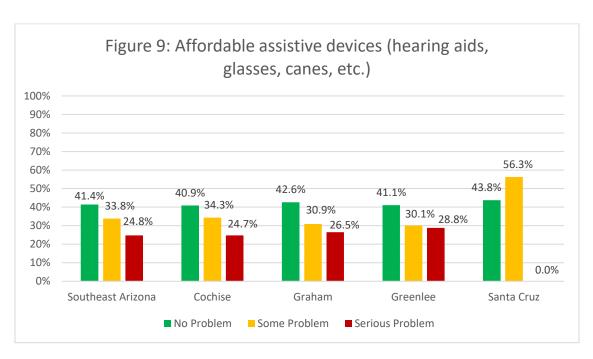

Graphical Survey Results

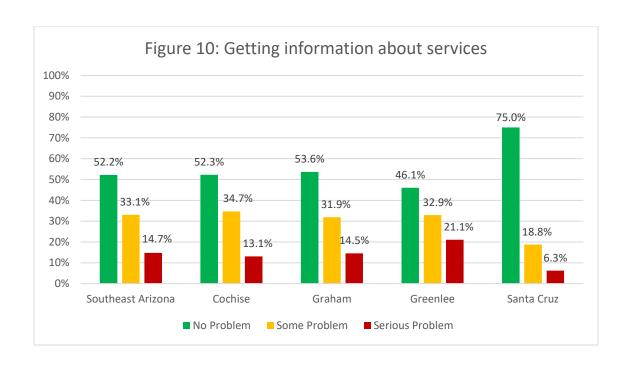

Survey respondents were asked to indicate the degree to which each of the following items is a problem for them personally. Respondents rating the issue as "no problem" are shown in green, while ratings of "some problem" are shown in yellow and "serious problem" are shown in red.

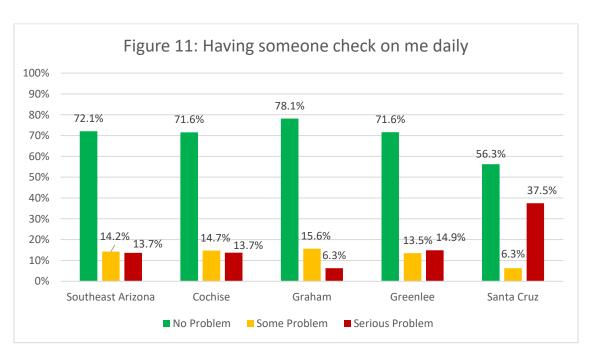

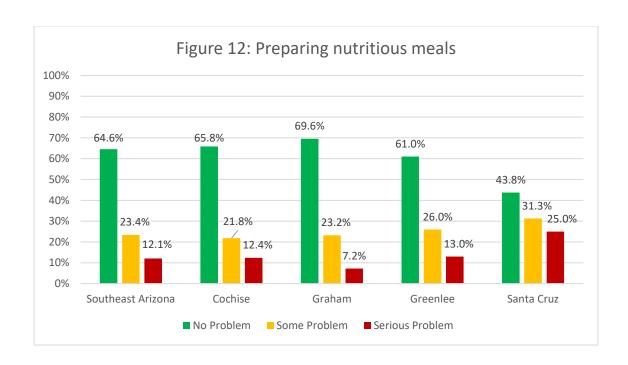

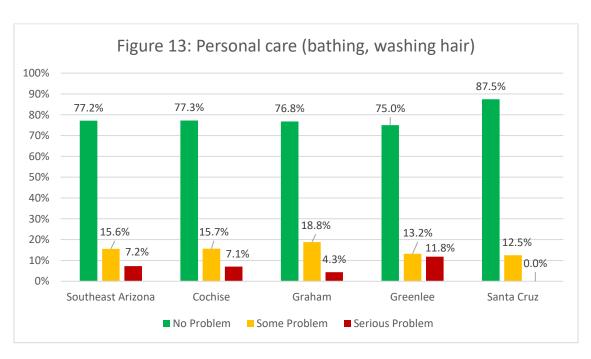

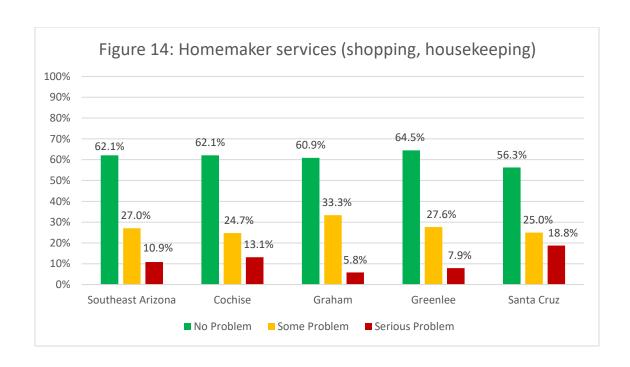

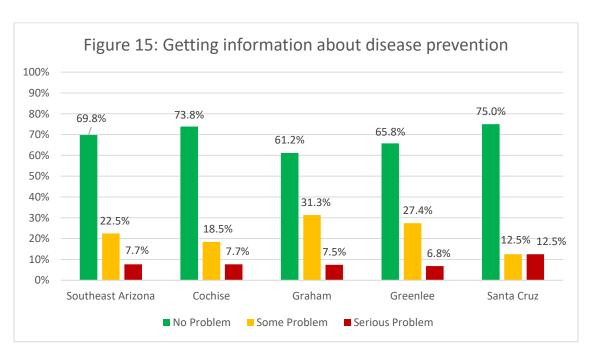

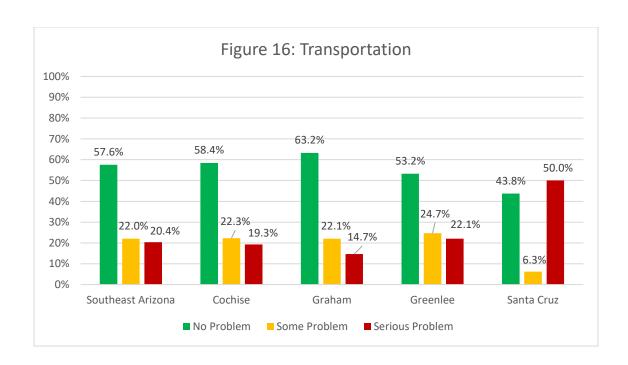

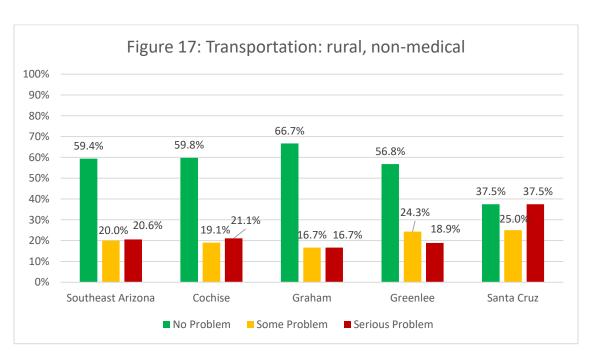

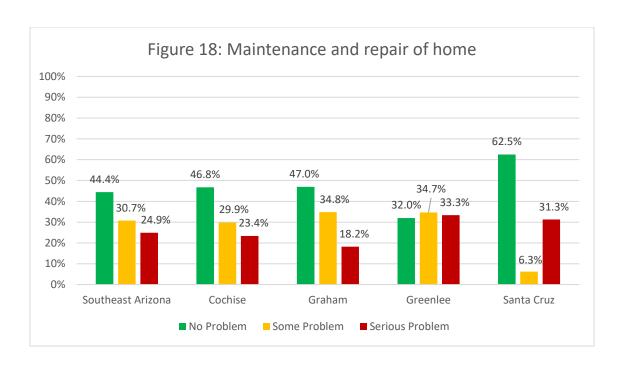

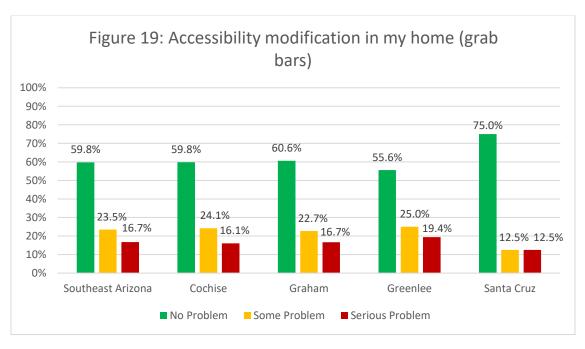

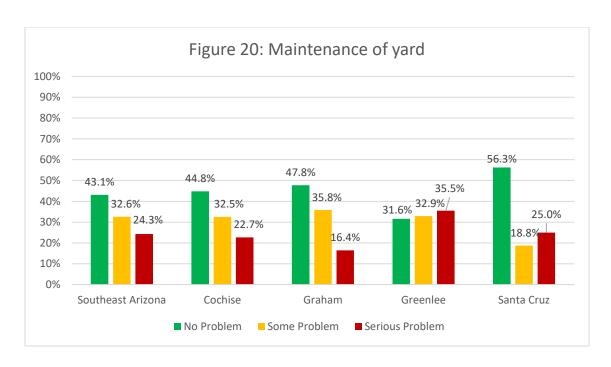

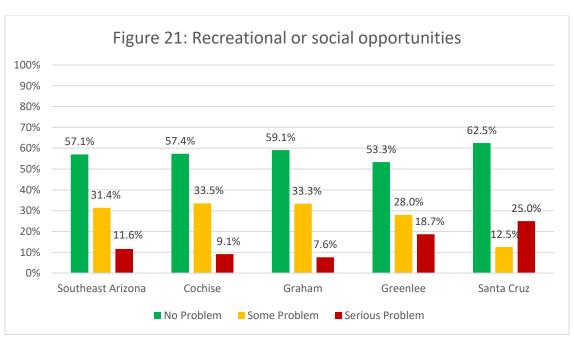

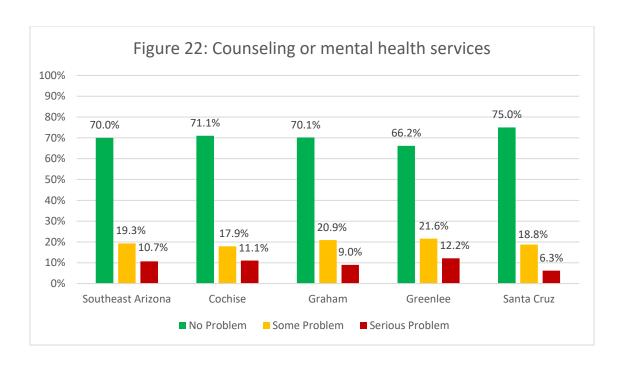

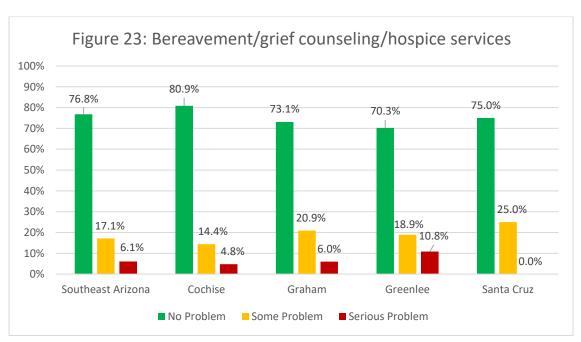

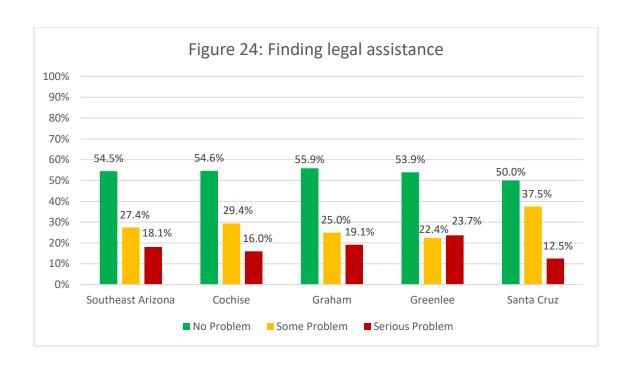

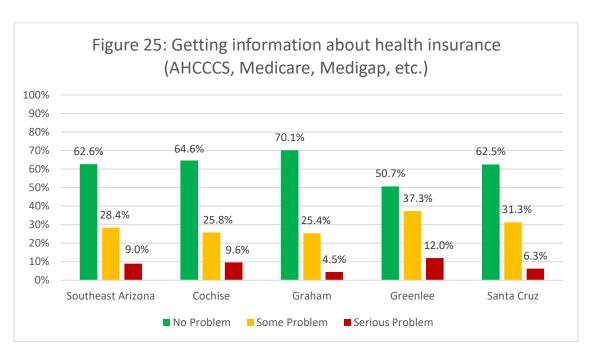

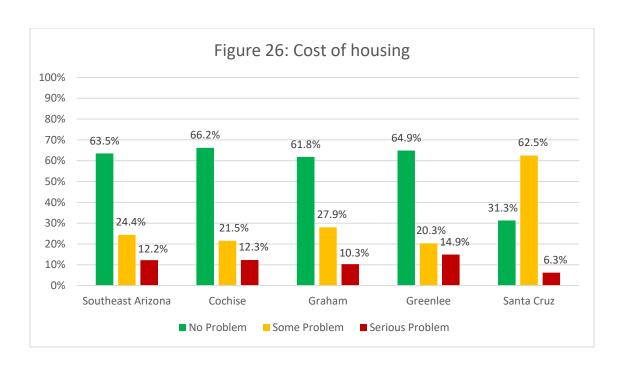

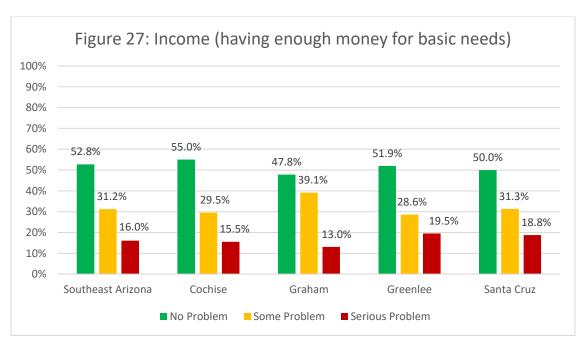

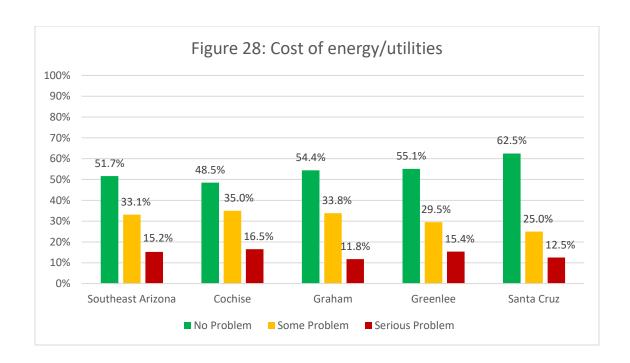

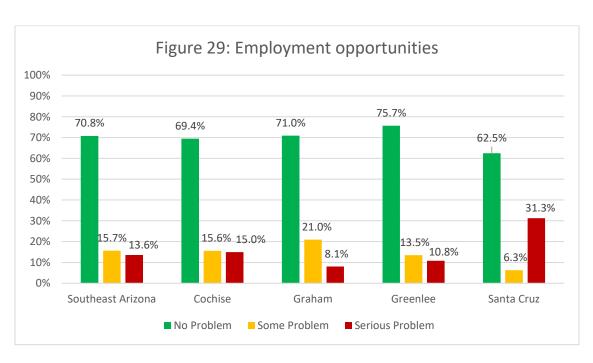

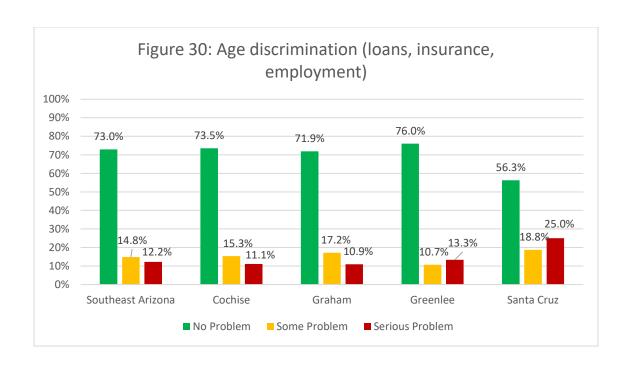

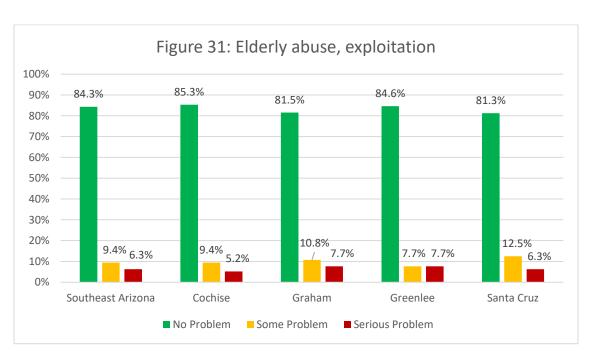

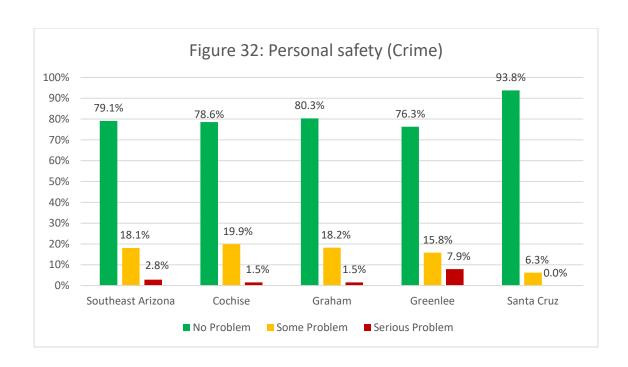

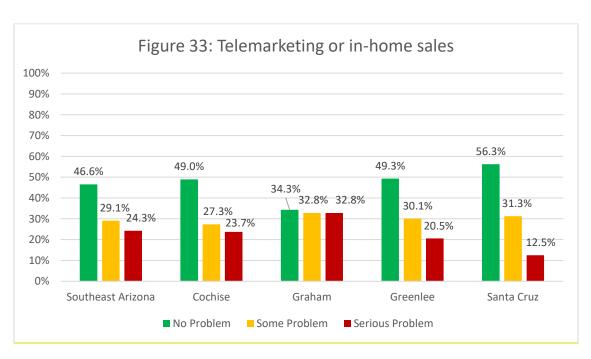

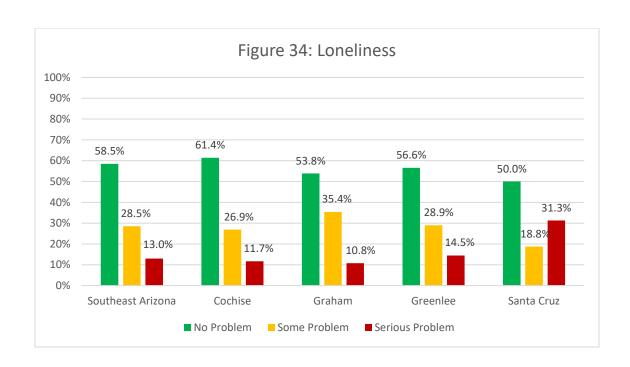

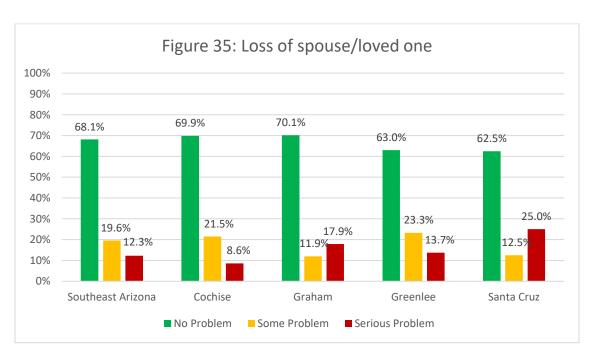

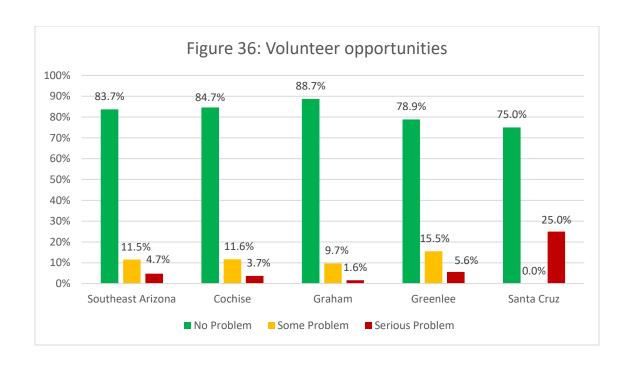

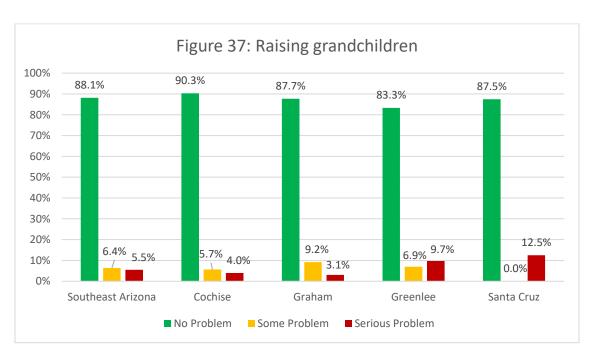

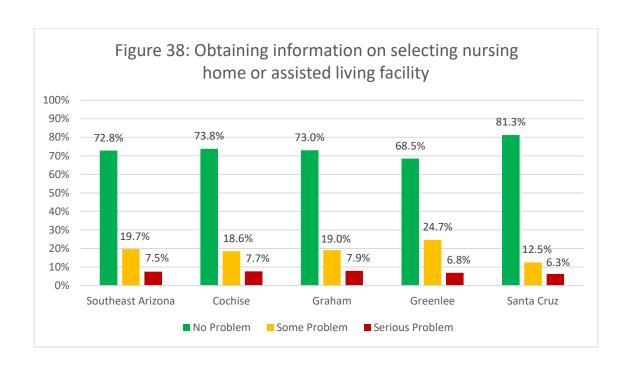

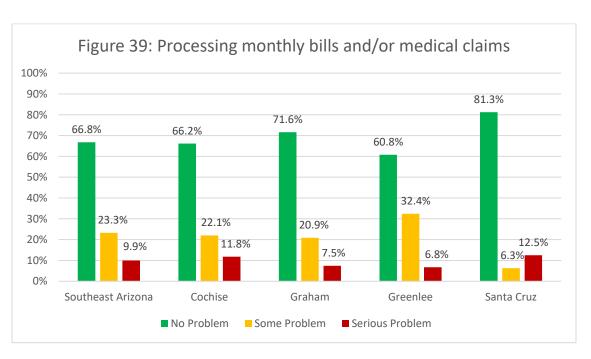

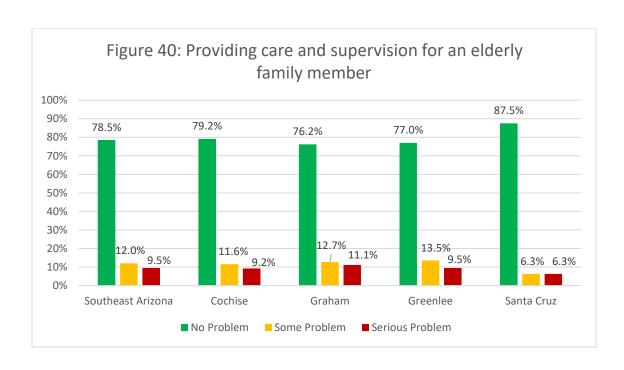

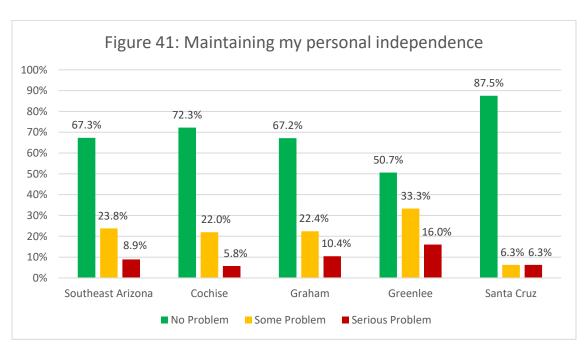

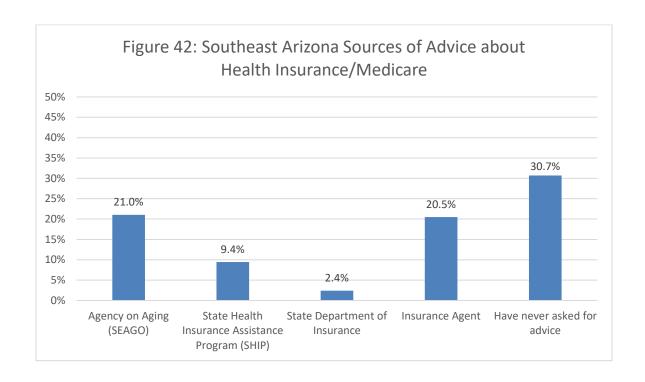

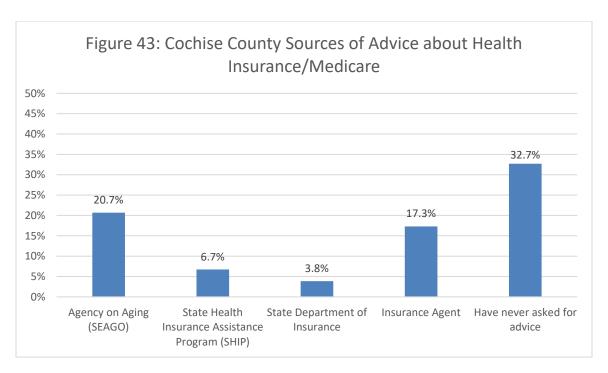

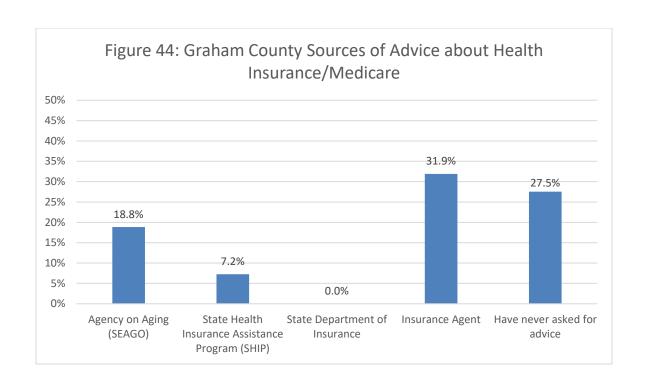

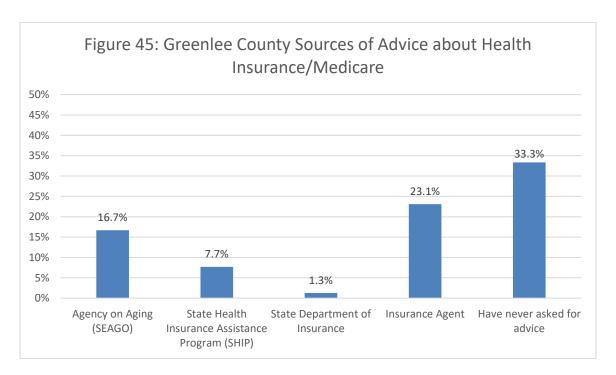

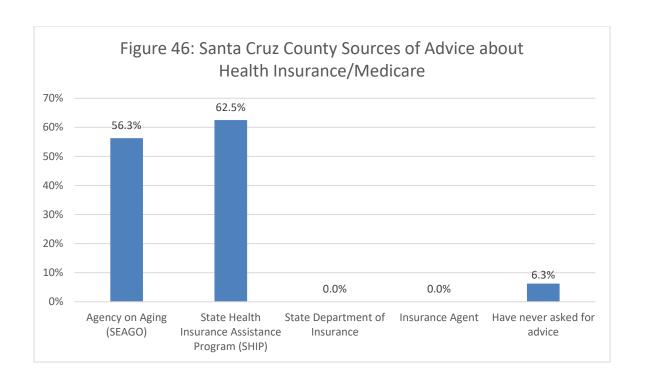

Note on Figures 42-46: Survey respondents were asked, "Who do you usually go to for advice about your health insurance or Medicare?"—see Appendix D for other (specified) sources of advice/information.

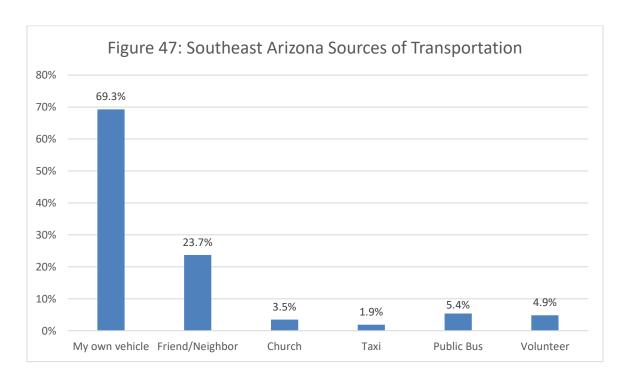

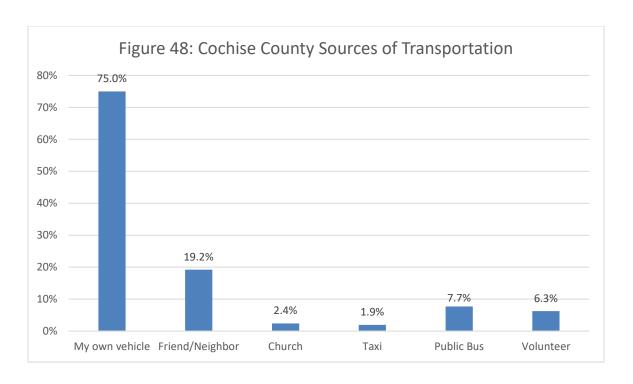

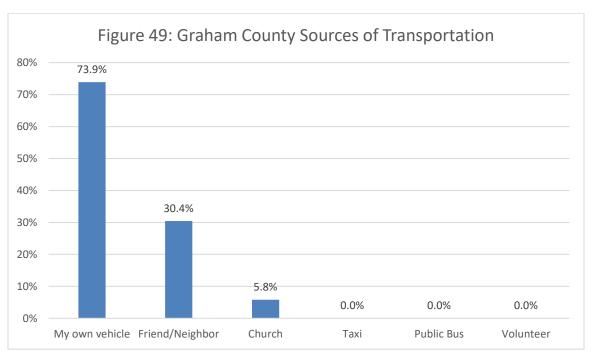

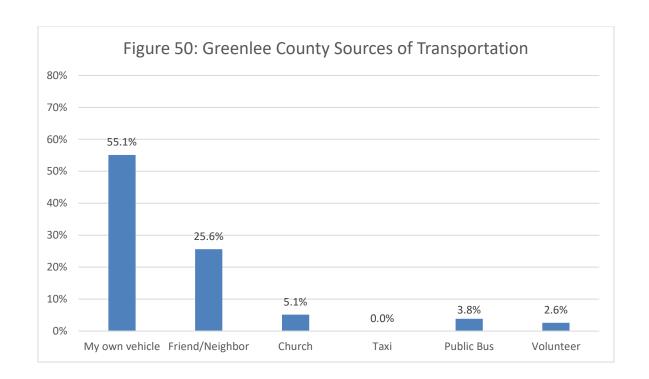

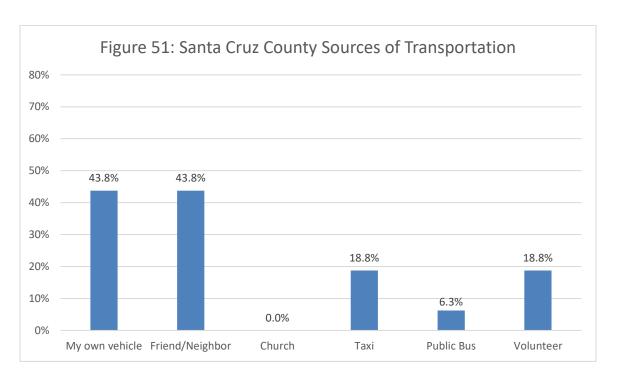

Note on Figures 47-51: Survey respondents were asked, "What is your source of transportation?"—see Appendix E for other (specified) sources of transportation.

Appendix A: Changes from 2016 to 2020

Southeast Arizona

From 2016 to 2020, the top 3 serious problems regionwide remained the same. Those were affordable dental care, maintenance and repair of the home, and affordable assistive devices. Affordable dental care remained the number one serious problem, with the share of respondents identifying it as a serious problem increasing from 37.5% to 41.1% (those identifying it as a problem—either "some problem" or "serious problem"—increased from 64.8% to 69.8%). The content of the top 10 list of serious problems among seniors in the SEAGO region (along with the list of top 10 problems, identified as either "some problem" or "serious problem") was essentially unchanged from 2016 to 2020, although there were some minor changes in ordering. Notably, telemarketing or in-home sales moved from 8th to 5th place on the list of serious problems, with the share of respondents reporting it as a serious problem increasing from 18.3% to 24.3% (those reporting it as "some problem" or "serious problem" increased from 47.6% to 53.4%). Transportation (rural, non-medical), which was not on the survey in 2016, debuted in 2020 as the 6th ranked serious problem and the 15th ranked problem ("some problem" or "serious problem") among seniors in southeast Arizona.

Cochise County

In Cochise County, the list of the top 5 serious problems remained the same from 2016 to 2020. Those were affordable dental care, affordable assistive devices, telemarketing or in-home sales, maintenance and repair of the home, and maintenance of the yard. Affordable dental care remained the number one serious problem. In 2020, 44.4% of respondents in Cochise County identified affordable dental care as a serious problem, up from 37.4% in 2016. Transportation (rural, non-medical), which was not on the survey in 2016, ranked as the 6th serious problem and 14th problem ("some problem" or "serious problem") among seniors in Cochise County in 2020.

Graham County

In Graham County, the top 2 serious problems remained the same from 2016 to 2020. Those were affordable dental care and telemarketing or in-home sales. In all, 4 of the top 5 serious problems remained the same (affordable dental care, telemarketing or inhome sales, affordable assistive devices, and maintenance and repair of the home). Finding legal assistance, which was 20th on the list of serious problems in 2016 moved up to the 4th ranked serious problem among seniors in Graham County in 2020, with the share of respondents reporting it as a serious from 12% to problem increasing Transportation (rural, non-medical), which was not on the survey in 2016, started in 2020 as the 7th ranked serious problem and the 19th ranked problem ("some problem" or "serious problem") among seniors in Graham County.

Greenlee County

In Greenlee County, the top 3 serious problems (along with the top 3 problems, identified as either "some problem" or "serious problem") remained the same from 2016 to 2020 (with a minor change in ordering). Those were affordable dental care, maintenance of the yard, and maintenance and repair of the home. Affordable assistive devices moved from 7th to 4th ranked serious problem, with the share of survey respondents identifying it as a serious problem increasing from 24.1% to 28.8%. Transportation (rural, non-medical), which was not on the survey in 2016, began in 2020 as the 11th ranked serious problem and the 18th ranked problem ("some problem" or "serious problem") among seniors in Greenlee County.

Santa Cruz County

The sample size for Santa Cruz County (n=16) for the 2020 survey is too small for meaningful comparisons to 2016 survey results. It is notable, however, that affordable dental care topped the list of problems ("some problem" or "serious problem") in 2020, the same as in 2016.

APPENDICES PART G COMMENTS FROM ADVISORY COUNCIL ON AGING

Comments from Advisory Council on Aging

4/15/2021

The Council reviewed the Draft Area Plan with Laura Villa reading the documents Introduction, explaining the three major purposes and a description of Area Agency on Aging and It's Network, Utilization Trends, Needs Assessments 371 completed, Goal Objectives, Preferences to older persons with greatest economic or Social Needs, Key Changes to Service Delivery, Funding by Geographical Area, Agency Unit Reports, Demographics Analysis Reports. One of the ACOA members questioned about Home Delivered meals or how people get the meals. Laura Villa went through the Cochise County Issues that were ranked in order of importance of the Needs Assessments, and explained that Preparing Nutritious Meals and having someone check on me daily did not rank in the top 5 issues. Laura Villa also explained that the Needs assessments where provided to the Case Managers to assist the individuals in completing, there where Assessment Boxes left at Hospitals, Libraries, Senior Centers for individuals to complete or instructions on who to call so that an Needs Assessment could be completed with assistance. Another ACOA member stated that this is a big document and he was going through the Goals and did not realize how much is done by the AAA and how much the newspaper has helped distribute information.

No other feedback provided, ACOA President Mr. Jaime Aguilar entertained a motion to accept Area Plan, Mr. Donald Behnke made a Motion to accept the Area Plan, Dr. Arnoldo Montiel seconded the motion to accept the Area Plan, Action Unanimously Approved by all ACOA members.

APPENDICES PART G PUBLIC HEARINGS PRESS RELEASE AND COMMENTS

The SEAGO Area Agency on Aging is in the process of developing a four year Area Plan on Aging for fiscal

years 2022-2025. The new Area Plan will go into effect on July 1, 2021. The Area Plan serves as the

planning document which identifies priority needs, goals, objectives, funding and advocacy efforts that

will be undertaken by the Region 6 Area Agency on Aging and our provider network in developing,

implementing and building collaborations and programs for seniors in Cochise, Graham, Greenlee, and

Santa Cruz Counties for the next four years. The Area Plan describes the manner in which the Area

Agency on Aging plans to utilize state and federal funds, and how it will carry out its administrative

responsibilities. The Area Plan is viewed as "the blueprint for action" which represents a commitment by

the Area Agency on Aging that it will fulfill its role as the planner/catalyst/advocate on behalf of older

persons in Region 6 as required under the Older Americans Act.

SEAGO-Area Agency on Aging has distributed boxes and surveys addressing the needs throughout the

region. Numerous partners have allowed us to set these boxes in their locations in order to allow

visibility in their communities and provide adequate services for the older and disabled population in

our region.

You as a AAA client, family member or friend of one we encourage you to complete the survey and send

those back to the Area Agency on Aging or reach our office at the address or phone number below and

we will make sure to include it in our count.

SEAGO Area Plan on Aging

The SEAGO Area Agency on Aging is in the process of developing a four year Area Plan on Aging for fiscal years 2022-2025. The new Area Plan will go into effect on July 1, 2020. The Area Plan serves as the planning document which identifies priority needs, goals, objectives, funding and advocacy efforts that will be undertaken by the Region 6 Area Agency on Aging and our provider network in developing, implementing and building collaborations and programs for seniors in Cochise, Graham, Greenlee, and Santa Cruz Counties for the next four years. The Area Plan describes the manner in which the Area Agency on Aging plans to utilize state and federal funds, and how it will carry out its administrative responsibilities. The Area Plan is viewed as "the blueprint for action" which represents a commitment by the Area Agency on Aging that it will fulfill its role as the planner/catalyst/advocate on behalf of older persons in Region 6 as required under the Older Americans Act.

The SEAGO Area Agency on Aging Administration, Board of Directors and Advisory Council realizes that the economic decline and system changes occurring daily on national, state, and local levels will have a serious impact on the current service delivery system and funding for senior programs. Therefor we request that seniors, service providers, families, caregivers, and all interested in senior issues attend and provide input to make the plan a comprehensive one that addresses real needs.

SEAGO will hold a series of public hearings throughout the region to gather additional community input. Sign up for our mailing list below to be informed (via email) of dates and locations as they become available.

To provide your input please click below to take a short needs assessment survey. For more information, please contact Laura Villa at 520-432-2528, ext 208.
