Speech Homework

Your child is being assigned speech homework. Homework is an important part of his or her program. Children can often develop skills at school, but not be aware of the importance of using clear speech at home as well. Homework gives them an opportunity to use clear speech in another setting. It also allows you to monitor their progress and give me feedback on what you see at home.

Please listen carefully to your child. Judge them on how well they use all their speech sounds and your ability to understand them.

Rate them on how clearly they spoke on a scale of 1 to 5. 5 meaning there were no speech errors and you understood everything they said. 1 meaning they were very hard to understand.
