

TK11 R5 Flashlight

The Fenix TK (Tank) series features a powerful, solid, durable, and waterproof design intended for rugged outdoor and military use. The TK11 uses 18650 Li-ion or two CR123A batteries and maintains excellent constant brightness with two output modes: General mode, which can last for a whole night and can be used for general illumination, and Turbo mode, which can be used whenever high-powered light is needed – search and rescue, long-range target identification, etc

Technical Parameters

ANSI/FSC	Turbo Mode	General Mode
 LIGHT OUTPUT	258 Lumens	48 Lumens
 RUNTIME	2 hours 42min	12 h
 BEAM DISTANCE	188 m	
 PEAK BEAM INTENSITY	8940 cd	
 IMPACT RESISTANCE	1.5 m	
 WATERPROOF & SUBMERSIBLE	IPX-8, underwater 2 m	
EXTRA FUNCTION		
ACCESSORY	holster, lanyard, a rubber switch boot and two spare o-rings	

- ⊙ Cree XP-G LED (R5) with a lifespan of 50,000 hours
- ⊙ Uses two 3V CR123A Lithium batteries or one 18650 Li-ion battery
- ⊙ 135mm (Length) x 25.4mm (Diameter) x 34mm (Head)
- ⊙ 152-gram weight (excluding batteries)
- ⊙ Digitally regulated output - maintains constant brightness
- ⊙ Reverse polarity protection, to protect from improper battery installation
- ⊙ Tactical tail cap switch with momentary-on function
- ⊙ Anti-roll, slip-resistant body design
- ⊙ Made of durable aircraft-grade aluminum
- ⊙ Premium Type III hard-anodized anti-abrasive

Notice: The above-mentioned parameters (tested in lab by using quality CR123A primary lithium batteries) are approximate and may vary between flashlights, batteries, and environments.

Operation Instruction

Flashlight turning on/off:

Depress the push button switch halfway to momentarily activate the light. Depress the push button switch completely to turn on the light and lock it. The light will stay on until the push button is depressed completely to turn off. Mode Selecting:

Screw the light head to select Turbo Mode, unscrew it to select General Mode.

Notice: The video for operating the flashlight, you can watch or download from our official website: www.fenixlight.com ->Service->Light operation video.

Battery Replacement

Unscrew the tail cap to insert the batteries with the anode side (+) toward the light head, screw the tail cap back on to test.

Usage and Maintenance

- ⊙ The 18650 Li-ion battery is not for domestic use. If use such battery, please ensure to use the 18650 battery with protective circuit. Or it will cause risks, such as combustion and explosion.
- ⊙ Please don't disassemble the sealed head, doing so can cause damage to the flashlight and will void the warranty.
- ⊙ Please use batteries of high quality, if the flashlight is not to be used for an extended period, remove the batteries, or the flashlight can be damaged by electrolyte leakage or battery explosion.
- ⊙ The o-ring may be worn out after using for a long time. If it happens, please

replace the o-ring with a new one to keep the flashlight properly sealed against water.

© Please clean the contacts of your light from time to time, especially if the light flickers or doesn't light up. There may be several reasons for a flickering or not working light:

Reason A: The battery needs replacing.

Solution: Replace batteries (Please confirm the correct installation of anode and cathode).

Reason B: The threads, PCB board contact or other contacts are dirty.

Solution: Clean the contact points with an alcohol soaked cotton swab. If the above methods don't work, please contact the distributors and refer to the warranty policy.

Notice: The routine cleaning video can be watched and downloaded through Fenix official website, please log onto the service channel->'maintenance for light'.

Product Warranty

We will replace products afflicted with manufacturing defects within 15 days of purchase and repair a light free of charge within 24 months of purchase if problems develop with normal use; if repair is required after 24 months from the date of purchase, we will charge for parts. The total repair fee is dictated by the cost of the replaced materials.

Warranty Card Registration

We kindly suggest that you register your guarantee card on the official website of Fenixlight Limited. You can get an extra six-month warranty period once you have successfully registered. What's more, you can take part in the lottery of questionnaire at the same time.

Warning

TK11 is a high intensity lighting device and capable of causing eye damage, avoid shining the light directly into the eyes.
