Your guess is as good as mine

Clocks

The lights go out and I can't be saved

G

The tides that I tried to swim against

the tides that I tried to swim against, Have, brought me down upon my knees Oh I beg, I beg, and plead, singing.

Come out with things unsaid Shoot an apple off my head And a trouble that can't be named And tigers waiting to be tamed, singing

You are..you are

Confusion that never stops
The closing walls and ticking clocks,
gonna, Come back and take you home

```
I could not stop that you now know, singing.
Come out upon my seas
the Cursed missed opportunities
Am I a part of the cure?
Or am I part of the disease, singing
You are - X4
F
                                    C - G

 She said that time is unfair- to a woman her age
 And now that wisdom has come- everything else fades
                                                                             Riff
 She said she realizes - she's seen her better days
 She said she can't look back- to her days of youth
 What she thought were lies, - she later found was truth

 She said her daddy had dreams but he drank them away

                                                          Riff
 Will you comfort and forgive me, she said

 She said she's still search-ing - for salvation's light
 Yet she wishes all day- and she prays all night
