

Our First President

by Lewanuva

George Washington, **who was the first president of the United States of America**, was elected for president in 1789. He did not **desire** the people to treat him like a **pampered** king; instead, he wanted them to call him Mr. President. George cared **considerably** about his country. In his presidency, he visited all of the 13 states. George helped keep peace between America and England. He believed Americans should live virtuous lives. **Because** he was the first president of the United States, the people called him “The Father of our Country.”
