R = ring Ch = chain - = picot + = join
 prev = previous RW = reverse work
 DNRW = do not reverse work
 CTM = continuous thread method

You will need a ball and shuttle either tied together or CTM (shuttle wound from ball and thread not cut). This heart is tatted in one pass.

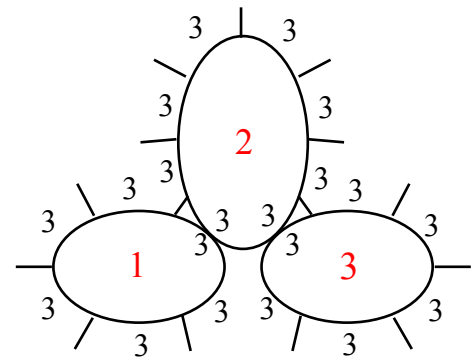

Clover

R1 3-3-3-3-3-3.

R2 3+3-3-3-3-3-3-3.

R3 3+3-3-3-3-3.

Do not reverse work. Rotate so R2 is at the bottom.

Round 1

Ch 3+(to 1st p of R1)3-3-3-3-3 RW

R 3+3 (to 3rd p of R1) RW

Ch 3-3-3-3 RW

R 3+3 (to 3rd p of R2) RW

Ch 3-3-2-2-3-3 RW

R 3+3 (to 5th p of R2) RW

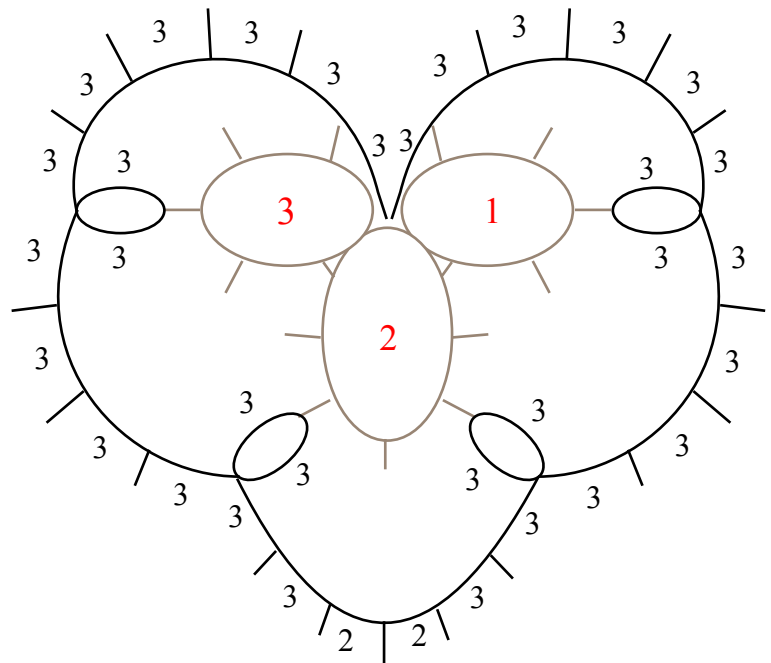

Ch 3-3-3-3 RW

R 3+3 (to 3rd p of R3) RW

Ch 3-3-3-3-3+3 (to 5th p of R3).

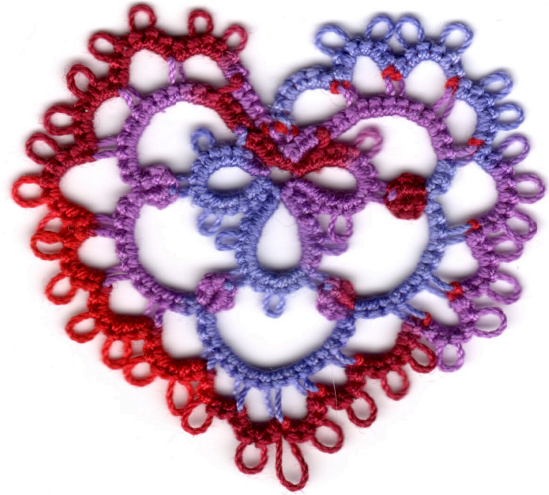

Join to base of clover.

Do not cut, do not RW
