Cut and hide ends. Glue magnet to back of tatted button and plain button making sure the polarity matches. Once dry hang on screen or glass by placing button heart on one side and a button (with magnet glued on back) on the other side.

## How to do a beaded button join (bbj)

(basically a lock join around a button hole)

1. Pull shuttle thread through 4 beads (this creates a loop)
2. Pull loop down through button hole
3. Pass shuttle through loop
4. Pull up excess thread
