

## Easy Christmas Bauble

### Materials

Bauble with an 'equator' of approx 18 cm, size 20 thread, 2 shuttles

### Abbreviations

CTM continuous thread method; R ring; SR split ring; Ch chain; - picot; cl close RW reverse work; + join; BTS bare thread space

### First half

Wind 2 shuttles CTM

1<sup>st</sup> round: R 2-2-2-2 Cl, RW;\* Ch 2-2, R 2+(previous R)2-2-2, Cl,RW; repeat from \* until there are 19 rings and 19 chains, SR 2+(previous ring)2/2+(1<sup>st</sup> ring)2

2<sup>nd</sup> round: SR 4/4; using shuttle 1,\* BTS of 10 mm (tip, use a folded piece of paper to measure the BTS), R 4+(R on previous row)4, Cl, repeat from \* until round is complete, + to SR

3<sup>rd</sup> round: SR 4/4; using shuttle 2, \*BTS of 15 mm, R 4+(BTS of previous row)4, Cl, repeat from \* until round is complete, + to SR.

Cut threads and hide ends.

### Second half

Make exactly the same as first half.

### Completing the bauble

Place the two halves over the bauble and use a piece of thread on a needle to lace the two halves together, imitating the look of the BTSpaces. Tie the 2 ends together in a secure knot.
