

# 2017 SHOW CLINIC SCHEDULE

## **Lee Smith** **June 3, 4 and 5th**

Lee is a gifted and eloquent teacher who has extraordinary insight into horses and people. She shares what she sees as if speaking for the horse and thus provides her students with the opportunity to observe the exchange of communication between horse and human. Teaching people to learn from the horse.

Lee leads people on a pathway of discovery to the essential elements of horsemanship. She helps them to unlock their potential to understand the mind, body and spirit of the horse using what naturally happens, and then shows them how to appreciate and build upon the incredible moments of harmony that are possible. Lee believes that through life's experiences (horse related or not), the answers lie within us.
