Dear Prime Minister:

RE: a strategic and personal threat

I am an Israeli citizen, 78, an independent researcher, PhD. I appeal to you because my mission, the reform of modern science, is of vital importance for the destiny of civilization, for the Jewish people in particular, while I live now in conditions inappropriate for that activity, to say the least.

As to my mission, during my independent research in exact sciences and humanities, that I started 45 years ago in Russia and, since 1992, have proceeded with in Israel, Europe and Canada, I achieved the following results:

- (1) reformed modern theoretical physics;
- (2) discovered the true philosophy of science: the true systems theory;
- (3) created a methodology for reforming modern science in general;
- (4) created the frameworks of the true sciences of politics and economics, the sciences non-existent or underdeveloped before.

**Those achievements, if recognized, would signify a turning point in the history of science and civilization.** However, because of the present crisis of modern science and its institutions, in Israel in particular, the above results have not yet been recognized officially. Moreover, there is some kind of conspiracy against me in Europe and Israel initiated by Russian agents and aimed at isolating me from the scientific community. Nevertheless, I have managed to publish some of my works in hard copies and online. At present I have been trying to proceed with the reform of modern science the crisis of which is underlying the present general ideological crisis of civilization. **Such a reform is especially important for the survival of the Jewish people.**

However my current living conditions have proved thoroughly incompatible with that mission. Indeed, for over six years, I have been living in a hostel with a special regime, without common safety and jurisdiction, controlled thoroughly by my enemies, Russian agents; it is actually a concentration camp, "a death house", a kind of modern personal Auschwitz. Since the beginning, those former KGB agents or their like, the type of people who persecuted me in Russia, have staged dangerous provocations, spied on, intercepted, falsified and blocked my correspondence. Now that I have received invitations to attend some international conferences in Europe, the situation is becoming increasingly dangerous: they have resumed provocation trying once again to undermine my living conditions and, possibly, return me to Russia.

**In this connection, given that the above situation presents not only a threat to my life, but also a strategic threat to the whole civilization, the Jewish people in particular, would you please take urgent measures to provide me with a more appropriate accommodation. Please see more information enclosed.**

Yours sincerely,
