Dear Mr. Edelstein:

RE: mission of vital importance

I am an Israeli citizen, 78, an independent researcher, PhD. I appeal to you for assistance in my mission - the reform of modern science, the ideology of modern society in general. Such a reform is necessary to overcome the present general ideological crisis of civilization now threatening the very existence of humankind and manifesting itself perhaps most acutely in the Middle East, in Israel in particular.

As to the background of the mission, during my independent research in exact sciences and humanities, that I started 45 years ago in Russia and, since 1992, have proceeded with in Israel, Europe and Canada, I achieved the following results:

- (1) reformed modern theoretical physics;
- (2) discovered the true philosophy of science: the true systems theory;
- (3) created a methodology for reforming modern science in general;
- (4) created the frameworks of the true sciences of politics and economics, the sciences non-existent or underdeveloped before and socially most important (see more in my website).

Those achievements, if recognized, would signify a turning point in the history of science and civilization. However, because of the present crisis of modern science and its institutions, in Israel in particular, the above results have not yet been recognized officially. Moreover, there is some kind of conspiracy against me in Europe and Israel initiated by Russian agents and aimed at isolating me from the scientific community. Nevertheless, I have managed to publish some of my works on paper and online. At present I have been trying to proceed with that mission, but my current living conditions, a hostel with a special regime controlled by Russian agents, have proved thoroughly incompatible with that.

In this connection, taking into account:

- the ever growing intensity of the Israeli-Palestinian conflict,
- the rise of contradictions, conflicts and demoralization in the Israel society itself,
- the rise of anti-Israeli and anti-Semitic sentiments the world over, including the USA,
- the rise of ultra-nationalist and neo-fascist ideologies in Europe,
- the growing general political crisis and the crisis of statehood itself,
- the monstrous corruption of scientific and religious institutions unable to tackle the above ideological crisis,
- and therefore the growing general threat to the future of the Jewish people in Israel and abroad,

would you please consider an opportunity to provide my above mission with the proper conditions in Israel, setting up perhaps a special institute for it.

Yours sincerely,
Igor Makarov, PhD
