Kitty Updates!

Maple — She has settled in here, I think she might be running the place in a little bit as the boys are quite taken with her. Fred and Maple have touched noses already and he seems to be quite taken with her, he's checked her all out and I think he approves

Nando — Enjoying the sun through his very own window seat!!

Alfie (Now Smokey)— I wanted to give you an update on Smokey. He is soooo lovable. He follows me around like a puppy dog, he loves to cuddle and gives kisses to.

Bobby & Buster— I absolutely love Bobby & Buster to pieces. I really love having them in my home. Both boys are doing great and adjusted well. They are growing and love the attention I give them. Both of them are with me when I sleep . . lol. They are both very affectionate. I am really enjoying them and how they play together. They are so much fun to watch, they make me laugh everyday & show so much affection. They truly are my “babies”.

Leonard & Sasha - They are normally together sleeping, exploring or into something. They play and run all thru the house, it sounds like a small herd at night. We are really enjoying them and their company, they are very entertaining and a pleasure to have. We are so glad we adopted them and kept them together!

Spotlight Kitty!

Bandi

Hi my name is Bandi and I am just a big lovable guy! When I first came to the shelter, I hid in the corner and wouldn't come out for a week! But once I got used to the other cats I came out of my shell and started exploring around. I like to visit the other cats to see how they are doing and I get along with everyone. I would love to snuggle on the couch with a nice person or family! I would also love to have a feline friend to keep me company and share my new furever home with! So if you are interested in adopting me but have no other kitties, maybe you could consider the 2-purr-one special the SPCA offers!
