Illuminate Your Adventure

Ultra-high Intensity Bike Light

BC30

DUAL DISTANCE BEAM

Instant Burst Activation with Remote Pressure Switch

Max **1800** *Lumens*

Neutral White LEDs

FENIX

Illuminate Your Adventure

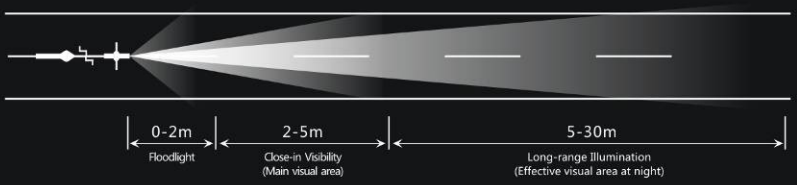
BC30-professional bike light

The Fenix BC30 Bike Light puts self-contained 1800-lumen max output at the ready. Remote burst activation and the exclusive Dual Distance Beam System make the BC30 effective on road or trail up to 170m. Choose 18650 rechargeables or CR123A batteries to power four brightness levels and a warning mode, all guarded by a rugged bar-mounted housing.

Features

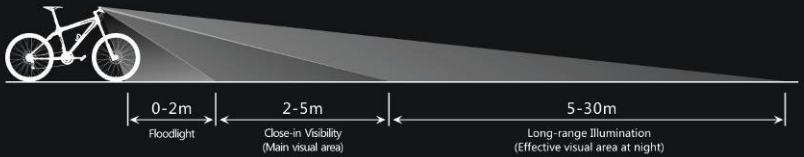
- Dual Distance Beam System
- Max 1800 lumens
- Instant burst with remote pressure switch
- Full metal housing design
- Quick-release mounting system

Dual Distance Beam System



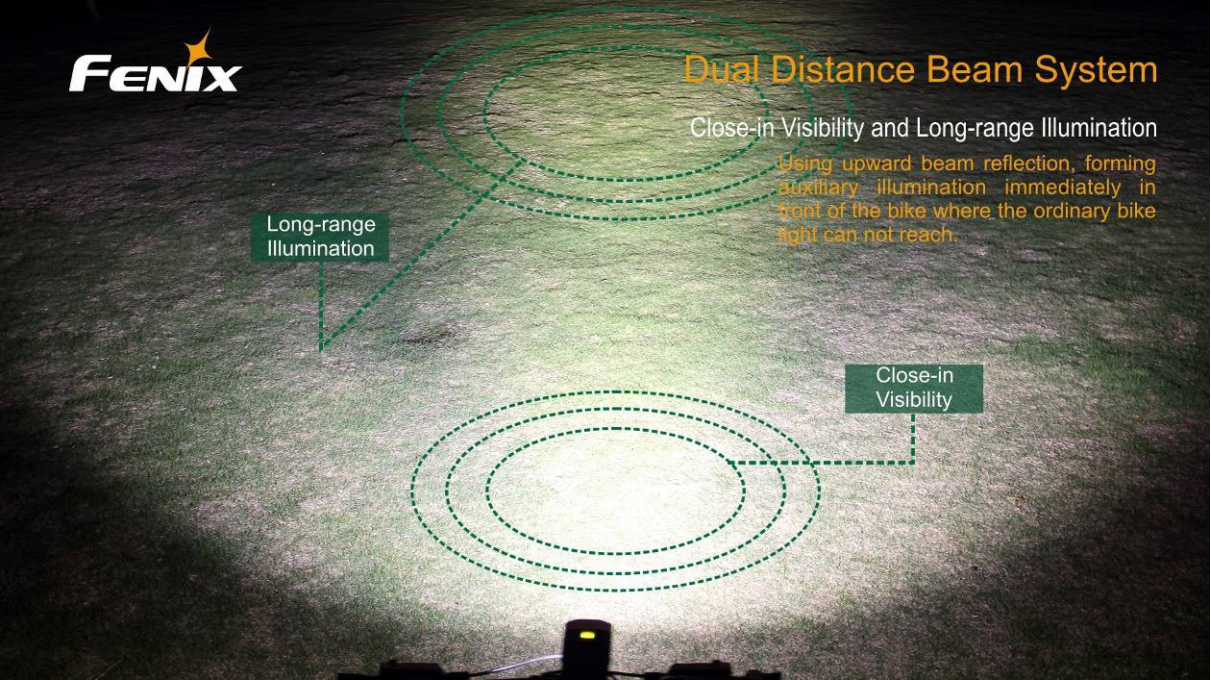
Broad Floodlight

The efficient total-reflection lens produces superior beam width while reaching to over 170 meters.



No Blind Spot

Using upward beam reflection, forming auxiliary illumination immediately in front of the bike where the ordinary bike light can not reach.



FENIX
Dual Distance Beam System
Close-in Visibility and Long-range Illumination

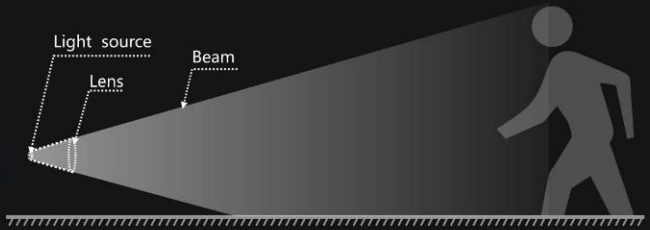
Dual Distance Beam System

Broad Floodlight

The efficient total-reflection lens produces superior beam width while reaching to over 170 meters.

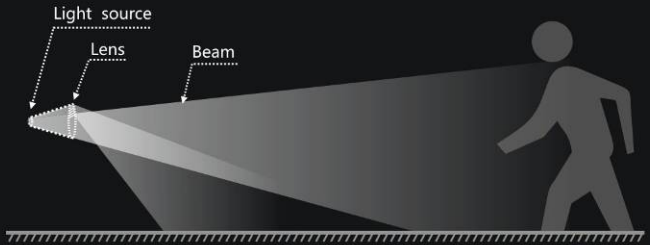
Dual Distance Beam System

Anti-glare Design



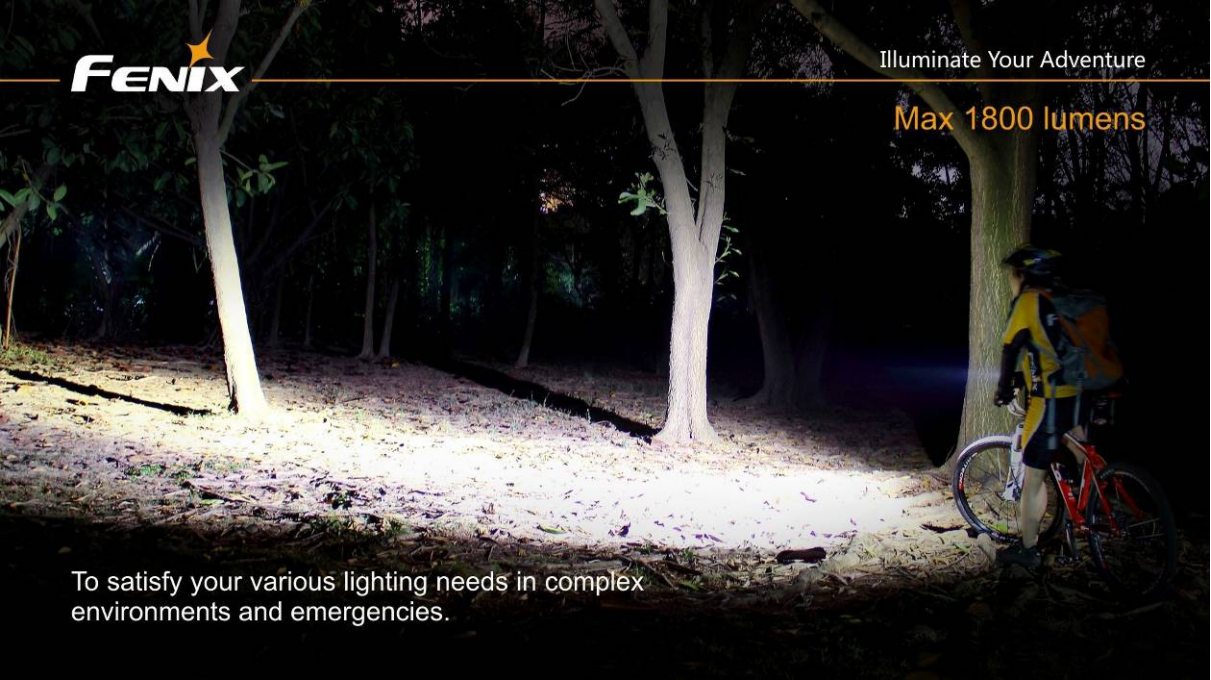
Common Bike Light

Part of upward beams of a common bike light will shine into the eyes of pedestrians.



BC30

The upward beam of the BC30 bike light is refracted to the ground rather than shine into the eyes of pedestrians.



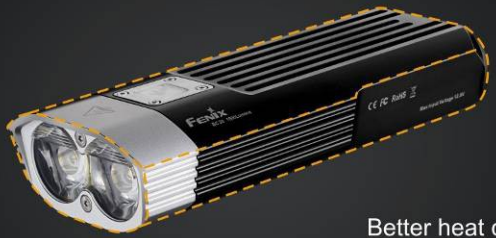
FENIX
Illuminate Your Adventure
Max 1800 lumens
To satisfy your various lighting needs in complex
environments and emergencies.

Instant burst with the remote pressure switch

The BC30 employs the Instant burst with the remote pressure switch to answer the calls under complex road conditions or special situations.

Whether the bike light is on or off, depress the remote switch button will activate the light in the highest level, returning it to the current brightness level once released.

Full metal housing design



Better heat dissipation and
higher reliability

Quick-release mounting system

Quick attach

Quick detach

Quick-release mounting system

0-30 degree horizontal adjustment and any vertical adjustment to satisfy your various lighting needs.

Quick-release mounting system

Detachable rubber mats

Mixed use of rubber mats to fit wide-ranging handlebars.

High-quality rubber mat provides shock-resistant, slip-resistant grip without scratching the handlebar.

Quick-release mounting system

Innovative quick-change battery system for fast and easy battery replacement.

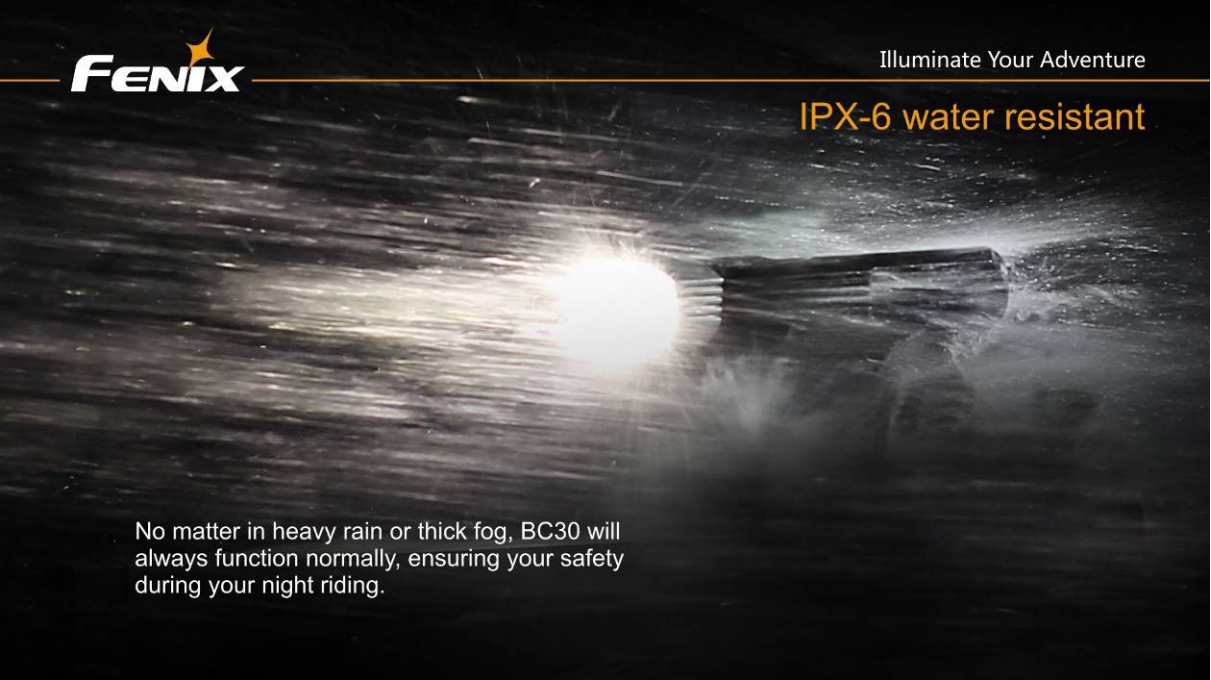
Low-voltage warning function

When the battery is running low, the BC30's low-power indicator turns from green to red to remind you of battery replacement. And the light will downshift to a lower brightness levels to maintain illumination until all battery power is used.

Power options

Powered by two 18650 rechargeable Li-ion batteries or four 3V CR123A Lithium batteries.

IPX-6 water resistant



No matter in heavy rain or thick fog, BC30 will always function normally, ensuring your safety during your night riding.

Components included

BC30
Headlight

Handlebar
Mount
for the BC30

Handlebar
Mount Shims
(one thick and
one thin)

Remote
Pressure Switch

O-rings
(one black and
one red)

Parameters

Technical Parameters

Parameters	Instant Burst	Turbo	High	Mid	Low	Flashing Mode
Output	1800 lumens	1200 lumens	500 lumens	200 lumens	100 lumens	200 lumens
Runtime	/	1h 50min	5h	11h	20h	/
Distance	170m (Max)					
Water Resistant	IPX-6					
Dimensions	Headlight: 126.7mm (Length) ×50mm (Width) ×31.8mm (Height)					
Weight	Headlight: 161g (excluding batteries and handlebar mount)					

- Utilizes two Cree XM-L2 T6 neutral white LEDs, max 1800-lumen output
- Instant burst activation with the remote pressure switch
- DUAL DISTANCE BEAM SYSTEM
- 4 brightness levels plus warning mode
- Digitally regulated output - maintains constant brightness
- Quick attach and detach handlebar mount sized for 22mm-35mm handlebars
- Easy, secure adjustment of the light's direction
- Made of aluminum alloy and quality plastic
