From the Floor

- Justin Harker expressed a wish that it would be nice to have a phone list with owners' names and contact information so that if there was something out of the ordinary at your property or if there was damage, someone would be able to get in touch with you to alert you. Additionally, this will help ensure that anything that pertains to the Palm Beach Subdivision and/or the Palm Beach Civic club, will be communicated to you. The more informed our residents are, the better off we all are.

He then brought up that the palm beach web page had information about a group in our subdivision, the Palm Beach Supporters Alliance that should be removed.

He then discussed that having this information on our webpage gave the mistaken appearance that instead of just mentioning them as a news item pertaining to our subdivision that people may think we endorse this organization by mentioning them at all.

A motion to censor the palm beach civic club main webpage by removing any mention of the Palm Beach Supporters Alliance was made, seconded, and passed.

-Gordon Perry brought up the fact meeting have traditionally be held quarterly. Elections were held in November and officers taking over in January.
