

## **FAQs about Fenix TK15C**

### **1. What is the product positioning of TK15C and who are the target customers?**

TK15C gives you complete target vision up to 200 meters (217 yards). Three color light sources for tactical and hunting lighting, compact and easily mountable size and optional power supplies keep the flashlight going in rain or snow storms.

### **2. What are the key features and benefits of TK15C?**

Fenix exclusive compound reflector

Enhanced Red/Green/White light

Strobe and flashing red/green

Three power options

### **3. Why the beam patterns of red and green LEDs are not perfect circles?**

Specially designed for improving and ensuring beam distance of every LED, red and green LEDs are arranged into off-center position of the Fenix exclusive compound reflector. As a result, the beam patterns of red and green are not formed into a perfect circle to a degree.

#### **4. Why does my TK15C work with flashing red & green under battery level indicator function?**

The battery level indicator only supports 18650 Li-ion rechargeable battery. Other batteries with voltage higher than 4.4V will turn the indicator function into flashing red & green.
