

## **FAQs about Fenix BC30R**

**Q: What is the product positioning of BC30R and who are its target customers?**

A: The BC30R bike light puts 1600-lumen neutral white output at the ready with reliable USB charging. Featuring OLED digital display, the BC30R helps riders realize the remaining power and runtime so as to better plan their routes. Remote Burst activation and plus/minus switch give you the total command over output selection. In addition, water resistance and rugged full metal structure ensure the bike light assists cyclists through all-weather biking.

**Q: What are the key features and benefits of BC30R?**

A: 1. OLED digital display  
2. Back-lit plus/minus switch  
3. Quality neutral white LEDs  
4. Dual Distance Beam System  
5. USB rechargeable  
6. Water-resistant and full-metal

**Q: Is the OLED screen of BC30R resistant to water?**

A: Yes. The OLED screen can withstand heavy rain and splashing as well.

**Q: Can BC30R work at the Burst mode without a break?**

A: NO.

Working at the Burst will incur lots of heat. To protect BC30R from over heating, the Burst mode is limited within 20 seconds each time it is started. If continuous Burst is needed, please press the remote pressure switch again.
