The Fenix PD35 TAC (Tactical Edition), remains in pocket-size but in higher performance and focuses on tactical employment. Measured at less than 14cm long, it features up to 1000-lumen output and throwing distance to 200 meters. In Outdoor Mode, it delivers 6 output modes. However, Tactical Mode strengthens PD35 TAC with simplified and fast operation. From outdoor use to law enforcement, you can resort to it.

A black Fenix PD35 Tactical Edition flashlight is mounted on a tan-colored helmet using a rail system. The helmet features a green and brown camouflage pattern with the word "MULTICAM" visible. The flashlight is angled downwards and to the left. The background is a brown and tan patterned fabric.
