

FAQs about Fenix FD40

Q: What is the product positioning of FD40 and who are its target customers?

A: FD40 is the first adjustable focus Fenix flashlight which utilizes the latest Cree XP-L HI LED. With maximum spill beam angle up to 78 degrees and 300 meters beam distance, FD40 is a great choice for lighting use in searching, camping and photographing.

Q: What are the key features and benefits of FD40?

A: 1) Twist head to adjust focus
2) Cree XP-L HI LED
3) Stainless steel side switch
4) One 26650 or 18650 Li-ion battery

Q: What is the difference when using 26650 Li-ion rechargeable batteries and 18650 Li-ion rechargeable batteries?

A: Compared to the 18650 Li-ion rechargeable batteries, the 26650 Li-ion rechargeable batteries feature bigger capacity and higher discharge rate and can provide higher output and extended runtime. But 18650 batteries are relatively lightweight and common.

Q: Can the FD40 tail stand?

A: Yes, it can.
In addition, FD40 is also tripod mountable.

Q: Where can I purchase a 26650 Li-ion rechargeable battery?

A: The Fenix ARB-L4-4800, a high capacity 26650 Li-ion rechargeable battery is available now. For more information please contact your local distributors.
