

FAQs about Fenix E25UE

Q1. What's the product positioning of E25UE and who are the target customers?

A: E25 Ultimate Edition is Fenix the very first ultra bright 2AA flashlight with intelligent drive circuit. Featuring Cree XP-L LED, compatible with 14500 Li-ion batteries, it produces 1000-lumen stunning output. Dual side switch, special lock-out function and the excellent performance, all these elements make E25UE an ideally portable flashlight which is fit for EDC and outdoor activities.

Q2. What are the key features and benefits of E25UE?

- A:
- 1□ Max 1000-lumen output
 - 2□ Compatible with 14500 rechargeable Li-ion batteries
 - 3□ Five brightness levels, plus Strobe and SOS mode
 - 4□ Dual side switch works independently

Q3. What are the differences between E25UE and its former edition?

- A:
- 1□ Utilizes XP-L V5 LED
 - 2□ Powered by two 14500 rechargeable Li-ion batteries or two AA (Ni-MH/Alkaline) batteries
 - 3□ Max 1000 Lumens, five brightness levels, plus Strobe and SOS mode
 - *Delivers four brightness levels with two AA (Ni-MH/Alkaline) batteries, no Turbo
 - 4□ Dual side switch works independently
 - 5□ Lock-out Function
 - 6□ Body clip mountable

Q4. Will E25UE automatically downshift to lower output levels in Turbo mode?

A: Yes. Due to the protective setup, E25UE will turn to High from Turbo after working 3 minutes, and 10 minutes from High to Mid output level, thus to prevent the flashlight from overheating.

Q5. Will E25UE automatically enters the previously used brightness level when turned on?

A: Yes. E25UE memorizes the last brightness level used in the General mode, the next time it is turned on, it will recall that previously used brightness level. As Flash mode, each time the light will work at Strobe mode.
