all these colorful letters tho so festive :yawnel:

this life or death situation being confusing :kksure:

y do we even have to split up anyway? :man:

W/e tho 2 for Matyllda cuz I'm sure she can use ha phone to light the way, 14 for Masyn cuz he's basically been nothing but a doting wife to Matyllda, & 5 for Laredo cuz idk

K, I don't rly remember how I rated the other chaps, but this is probz my least fav cuz it just felt disjointed & I don't get how this has anything to do w/ the movie anymore which is wow. It started off strong w/ Diamond's attack continuation & there were some other scenes I was all :yasmama: about, but the meltdown was was a tad no & I feel as if you're making Matyllda too much like u & that'd be fine & all if it didn't feel so OOC for her after everything that's happened so far & Masyn is basically just a whiney bitch rn & I'm :sideari: bout it. Admittedly, Daniel's getting better in terms of the guys as a whole & the more casual gals are serving well, but those 2 bothered me, alongside the conveniently capped off Olesya arrest storyline that rly did nothing for the plot as a whole.
