

Illuminate Your Adventure

FLEXIBLE POWER APPLICATION CARRY-ON CONVENIENCE

Fenix BC21R

Portable Rechargeable
Bike Light

Max **880** Lumens

Neutral White LED

The background of the advertisement is a photograph of a bicycle parked on a paved path at dusk. The bicycle is positioned in the center-left of the frame, facing right. A bright, starburst light emanates from the front of the bicycle, illuminating the path ahead. The path is made of cobblestones and leads towards a body of water in the background. The sky is dark, and the water reflects some light. In the distance, there are some lights and silhouettes of trees or buildings.

BC21R

Max **880** Lumens

Fenix BC21R, an integrated yet versatile rechargeable bike light, delivers max 880-lumen neutral white light. The soundly reasonable four output modes plus Flash enrich the cycling activities and side red light ensures the riding safety. Moreover, quick-release bike mount makes it easier to mount or dismount the light. The feasibility to change battery gives the access to command runtime and prolong the lifespan of the bike light. This well-designed bike light goes anywhere for any activity, it commits to diversify your bike lifestyle and enhance your every ride such as road racing, bicycle riding and urban commuting.

BC21R

Max **880** Lumens

- ✦ Optimized Dual Distance Beam System
- ✦ Quality neutral white light
- ✦ Side red light for alerting
- ✦ Multiple power sources
- ✦ One-switch user-friendly operation

Optimized Dual Distance Beam System

The increased refracted ray area of the lens works better by improving the close-in visibility, which offers effective lighting.

BC21R
Max **880** Lumens

A person is shown in a dark, wooded area at night, holding a flashlight that casts a powerful beam of light onto a dirt path. The beam is very bright, creating a strong contrast with the surrounding darkness. The person's hand and part of their leg are visible in the shadows.

BC21R

Max **880** Lumens

Quality neutral white light

Utilizes one Cree XM-L2 T6 neutral white LED for better color rendition and penetration power, offers max output up to 880 lumens and farthest throwing distance to 125 meters.

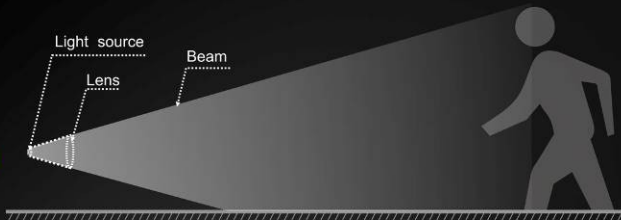

BC21R

Max **880** Lumens

Dual Distance Beam System

Anti-glare Design

Common
Bike Light

Part of upward beams of a common bike light will shine into the eyes of pedestrians.

Fenix
Bike Light

The upward beam of the Fenix bike light is refracted to the ground rather than shine into the eyes of pedestrians.

BC21R

Max **880** Lumens

Side red light for alerting

BC21R is equipped with side red light lit on in accordance with the main light, increasing visibility and ensuring the riding safety.

Being constant-on as the main light on

Flashing red when main light flashes
*The Flash mode will flash at 380 lumens and 100 lumens alternately.

BC21R

Max **880** Lumens

Multiple power sources

- ✦ The bike light can be charged directly by USB charging cable with 18650 Li-ion battery in it.
- ✦ Replaceable 18650 Li-ion battery to meet the demand for longer runtime.
- ✦ Two CR123A Lithium batteries can be taken, but charging is prohibited.

One-switch user-friendly operation

- ✦ Press and hold the light button for 0.5 seconds to turn ON/OFF the light.
- ✦ With the light on, click the light button to cycle through Low→Mid→High→Turbo→Flash.

*Luminous light button can be seen even in the dark.

BC21R
Max **880** Lumens

BC21R

Max **880** Lumens

Keep up with the power status at any time

With the light off, click the light button to keep informed of the battery status from the changing side light status, for better cycling planning.

Side light constant-on
sufficient power level
60%-100%

Side light slow flashing
low power level
20%-80%

Side light quick flashing
critical power level
1%-20%

Low-voltage warning function

With the light on, when the battery level is lower than 20%, the light button will blink red constantly, to remind you to downshift to a lower brightness level or recharge the bike light.

* If non-stop use is needed, the light will downshift to a lower output level to extend runtime.

BC21R
Max **880** Lumens

BC21R

Max **880** Lumens

Optimized quick-release mounting system

New-type quick-release bike mount, push to mount and press-pull to dismount.

Optimized structure

BC21R
Max **880** Lumens

Ladder-type mounting strap with different hole sizes

* Applicable in bike handlebars with diameter between 20mm-35mm

Light body comes with tilt of 5 degrees downward

Light angle can be modulated left and right to 30 degrees

BC21R
Max **880** Lumens

Compact and handy

Great portability thanks to compact structure and new-type quick-release bike mount.

BC21R
Max **880** Lumens

IPX-6 water resistant

Thick fog or heavy rain, BC21R will act tough as normal, safeguard your every night riding.

*Please ensure the USB cap covered.

BC21R

Max **880** Lumens

PARAMETERS	Turbo	High	Mid	Low	Flash
OUTPUT	880 lumens	380 lumens	200 lumens	100 lumens	380 lumens & 100 lumens
RUNTIME	1h 20min	4h 30min	8h 30min	15h 50min	/
MAX DISTANCE	125m				
WATER RESISTANCE	IPX-6				
WEIGHT	Headlight: 67g(2.4oz) excluding battery				
DIMENSIONS	Headlight: 113mm length x 40.5mm width x 42mm height (4.4" x 1.6" x 1.7")				

The above-mentioned parameters (lab tested by using one Fenix 18650 3.6V/2300mAh rechargeable Li-ion battery) are approximate and may vary between the bike lights, batteries and environments. The runtime can be longer when uses Fenix 18650 battery of larger capacity.

BC21R

Max **880** Lumens

- ✦ Uses one Cree XM-L2 T6 neutral white LED with better color rendition
- ✦ Powered by one 18650 rechargeable Li-ion battery or two CR123A Lithium batteries
- ✦ Optimized Dual Distance Beam System
- ✦ Micro USB direct charging
- ✦ Built-in over-charge, over-discharge protection
- ✦ Battery Level Indication
- ✦ Low power warning reminds when battery replacement needed
- ✦ Over-heat protection to avoid high temperature of the surface
- ✦ New-type quick-release bike mount for easy and secure adjustment of the light direction
- ✦ Four brightness levels and one flashing mode
- ✦ Digitally regulated output maintains constant brightness
- ✦ Made of aluminum alloy with excellent heat dissipation
- ✦ Waterproof to IPX-6 standard

BC21R

Max **880** Lumens

Included in the package

- ✦ BC21R bike light × 1
- ✦ Fenix 18650 3.6V/2300mAh rechargeable Li-ion battery × 1
- ✦ BC21R bike mount × 1
- ✦ USB charging cable × 1
- ✦ Bike mounting shim × 1
- ✦ Bike mounting strap × 1
- ✦ Spare O-ring × 1
- ✦ User manual × 1
- ✦ Warranty card × 1
