AHHHH MATYLD A I DO 2 BITCH #TWINNING

omg another flashback

ugh Sam stfu listen 2 Jenna she's speaking the fucking truth

what even @ yepperdoodledoo

Honestly, as far as killers go, I think I may have figured out who it is becuz unless there r 2 killers, Frankie, Veronica, Masyn, & Olesya r all out cuz they're #RIFP & Diamond, Daniel, Laredo, Mitchell, Emily, Pauline, & Gertrude r all out cuz they've all had a scene or a scene w/ close proximity 2 a scene w/ the killer in some shape, way, or form. Jenna just rly feels like a major red herring @ this point instead of a genuine contender cuz Ik u just wouldn't give her away if she was actually a killer since the whole point is it being a mystery & Dahlia just had a scene w/ Mitchell right when the killer was going 4 Gertrude, so she pmuch just dropped from my suspect's list entirely. So, I'm getting the feeling my bb Matylda might actually be the killer, if my assumption that her & Laredo separated after finding the killer is correct just so she can have an alibi. Even tho she's had her little final girl moment, I've been getting major Jill Roberts tea from her lately where it's just appeared as if she's the lead, only 4 some1 else 2 come thru & be the lead unless she pulls a Missy Evans & fucks every1 over w/ her supposed lead status. Ik u've had a 2nd option this entire time, which I suspect would be Dahlia since she's also been on my major suspect list this entire time, so if there r 2 killers, I would just have 2 go w/ her instead of some1 else cuz I rly haven't been putting thought in2 that. Will just have 2 c how it goes there tho.

As 4 the chap as a whole, it's not my all time fav, but it's still a fantastic chap, so I'm thinking it might tie w/ chap 6 or 1 4 me as of rn. I can't totally remember my chap order fav-wise, so I'd have 2 get back 2 u on that. Regardless, it handled Olesya's death extremely well in terms of fighting off the killer & just giving her final moment while keeping it very humorous & plot-heavy. I can only assume either the all night shoot will play a huge part in2 chap 8 as a whole or just the entire finale cuz it's honestly such a perfect set-up 4 1 if u go in that direction (which, I doubt, cuz it's 2 early, but it is a nice thought). Thing r rly heating heating up on the investigation end of the plot w/ both the Gert/Daniel/Emily trio & #TeamMatylda w/ the cams, which gave us a look in2 the non-shady side of Jenna that was much-appreciated & made her a more well-rounded charrie as a whole. Highlights next 2 her were definitely Emily & Pauline, who kept me cackling the entire time. I can't wait 2 c what's in store 4 chap 8 tho & the rest of the RPG & whether my assumptions r correct. I also wonder how he whole camera plot will play in2 it & whether it was Lauren's cunty ass or if the killer is behind the filming of the murders.

As 4 my Qs, I'm gonna go w/ **A** 4 Laredo cuz he already doesn't like Lauren's ass so y wouldn't he & **D** 4 Matylda cuz she's obvs as done w/ Lauren as the rest of them & would Ofc tell the rest of the cast since she's all about having them on a unified front
