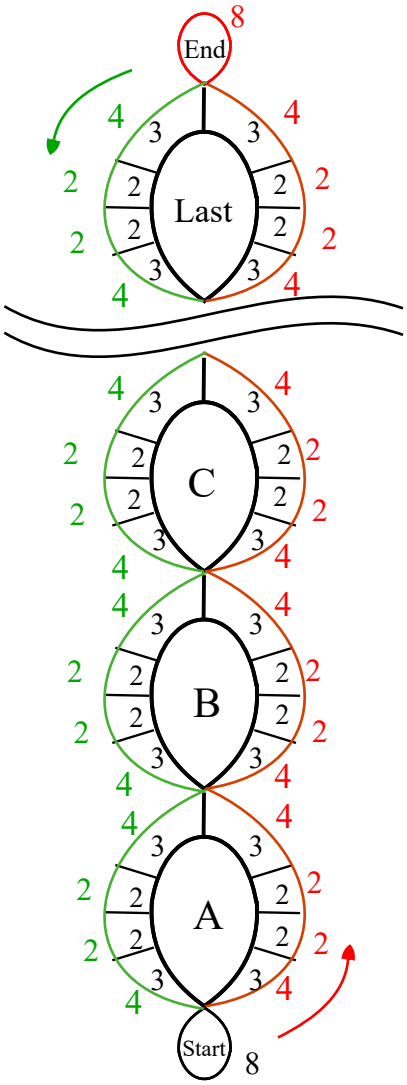
Lanyard 2016
Wanda's version

R = ring Ch = chain
SS = switch shuttles
Sht1 = shuttle 1 Sht2 = shuttle 2
RW = reverse work
DNRW = do not reverse work



R Start 8 DNRW
RA 3-2-2-3-3-2-2-3 RW
*Ch 4+2+2+4 RW
RB 3-2-2-3-3-2-2-3 RW *
Repeat between * for desired length
R Last 3-2-2-3-3-2-2-3 RW
*Ch 4+2+2+4 DNRW
SS Sht2 R End 8 DNRW
SS Ch 4+2+2+4 join to p between Rings DNRW
Ch 4+2+2+4 join to p between Rings DNRW
Repeat for length
Join to base of RStart and RA

Alternate ideas
R Start and R End are for clips to hold name tags. Jewelry findings could be added Instead.

Adding beads to the picots would be easy.

I used 2 shuttles but 1 shuttle and ball thread would work as well. R End could be a Self Closing Mock Ring.
