THE TRUMP TRANCE

Dr. Charles Vance interviewed Terry Sacka in their series called 'The Trump Trance' to discuss the current economic situation that President Trump is walking into and what it will take for him to clean it up.

JUPITER, Fla. - May 1, 2017 [PRLog](#) -- JUPITER, Fla. -- Mr. Sacka opened with, "Be cautious to be in a trance. The data says one thing but even the President and Secretary of Treasury say the value of the dollar is too strong for our exports and will have to come down. We're going into a storm that I think we'll get out of with tremendous success if Trump can get the liberal socialists off the back and the Republican establishment to come in line."

Mr. Sacka displayed a chart showing real weekly earnings year-over-year for production and non-supervisory workers detailing the effect of money printing and the subsequent rise and drop again in earnings.

This all comes at a time when President Trump's campaign has just released its 'First 100 Days' ad that highlights his work over the first 100 days to restore prosperity, keep Americans safe and secure, and hold the government accountable.

Some of the data collected in the CNN/ORL Poll were:

How are things going in the United States?

Well: 54% Badly: 44%

How are economic conditions in the United States?

Good: 59% Poor: 41%

It has been ten years since 59% of Americans felt the economic conditions are good. Good numbers are indicative of good sentiment and can boost both a president's approval rating and the economy.

Mr. Sacka went on to say, "We're going to wake up one day and wish we'd been investing smarter in tangible assets. Our IRAs don't have to be in the systems in the world. Land is always good; it's not a liquid but it's an example of things God gave us dominion over. We know that silver is so oversold that the value is going to be a tremendous wealth transfer coming in the future for us and the kingdom."

*Note: The first 100 days of Donald Trump's presidency began with his inauguration as the 45th President of the United States, which occurred at noon on January 20, 2017. The 48th Vice President of the United States, Mike Pence, was inaugurated on the same day. The 100th day of Trump's presidency was **April 29, 2017**.*

Silver & Gold-Backed IRAs

Regarding this topic he stated, "Gold and silver is the best performing asset class in the last ten years. The nice part about a precious metals IRA, there actually is a physical metal purchased and stored on your behalf. Gold is capable of going back to its high, yielding a 60% return and silver a 200% return. Gold and silver are really the wealth transfer in the physical market."

Safe Christian Investments

On one of his websites specifically aimed toward Christians, Mr. Sacka offers five reasons why Christians should invest in gold and why [Christians should invest in silver](#) with detailed charts, figures and video content. He believes that the most valuable assets are gold, silver and survival food which they provide at Cam Ready Food (<http://camreadyfood.com>).

Terry Sacka, AAMS is a financial analyst and founder of **Cornerstone Asset Metals** in Jupiter, Florida. He assists and guides investors on how to use precious metals in the form of physical assets such as gold and silver to hedge against systematic and inflationary risk and preserve their hard-earned wealth.

Mr. Sacka pointed out how gold and silver historically have been protection and hedges against systematic risk associated with geopolitical jitters, events and inflationary factors which all have historically lead to financial crashes.

He emphasized this by stating, "I'm a strategist so I'm an analyst in natural

WWW.CORNERSTONEASSETMETALS.COM

resources. So my job mainly with Cornerstone is the role of natural resources, we're right from the earth, we deal with things right from the ground."

He went on to say, "We're custom minters and refiners but we supply this beautiful God product to people...I understand the systems of the world and I understand the biblical principles that God taught us."

Refining and custom minters, Cornerstone Asset Metals are the manufacturers of the only good delivery Judeo-Christian Hallmarked Silver in the country

Their silver coins are manufactured refined, hallmarked and minted by a COMEX Certified, LMBA Good Delivery Refiner. Same quality and purity as an American Silver Eagle and because its good delivery it technically can be used in bank settlement transactions. There are scriptures on it, 12 stars on both sides, for the tribes and for the disciples and finally a lion and a crown for **The King**.

So religiously manufactured it gives first amendment protection against confiscation attempts. It is the only one of its kind out there.

He advises people on how to protect their assets and hard earned wealth with precious metals in times of financial hardship which the coming of the Shemitah is said to historically align itself with. Mr. Sacka's teachings coincide with Jonathan Cahn's "The Mystery of the Shemitah" as the author's theory is that God has visited warnings and or judgment against the United States according to a seven-year cycle going back many decades.
