Prof. Nili Cohen  
President  
Israel Academy of Sciences and Humanities  
Jerusalem, Israel

Dear Prof. Cohen:

RE: unique mission needs conditions

I am an Israeli citizen, an independent researcher, PhD, currently a pensioner, 81. As a result of my almost 30-year-long independent research, that I started in Russia late in the 60s and since 1992 have proceeded with in Israel and abroad, I have done the following:

- (1) reformed modern Theoretical Physics;
- (2) discovered the true interpretation of the Systems Theory, actually the Philosophy of Science;
- (3) worked out the General Methodology of reforming modern science including humanities.

Those results amount, in my opinion, to a turning point in the history of science and civilization. They are the more important that the crisis of modern science is underlying the present general ideological crisis now threatening the very existence of humankind. So my current mission is to proceed with the reform of science, which needs a broad international support.

Seeking the above support, I have applied to numerous universities and conferences in Israel and Europe but in vain. The main reasons for that failure are the monstrous corruption of modern scientific institutions, my independent status and the activity of Russian agents who, since my immigration in Israel, have been waging an omnipresent secret war against me, undermining my living conditions and isolating me from the scientific community. At present I have been living in Haifa, in a hostel controlled thoroughly by former KGB agents, who, in particular, steal my works and documents, block and intercept all my correspondence including internationally important messages. Now they are planning to deprive me of my current housing at all, given its substandard security status. I have several times applied to the government and the Knesset asking assistance in this regard but in vain.

In this connection, taking into account the suggested international importance of my works and mission and, in particular, their special importance for the destiny of the Jewish people, as well as the almost soviet-camp type of my current hostel, would you please consider an opportunity to provide me with the proper living and working conditions in Israel, Europe or, perhaps, the USA. Please see more information in the relevant online papers enclosed.

Yours sincerely,

Igor Makarov, PhD (ID 310295142)
