Neutral white light

Green light

Red light

# CL09

Ultra-portable High-performance Camping Lantern

CL09 is a compact, elegant and cold-resistant camping lantern. Neutral white light effectively gives better color rendering, while the featured multipurpose red and green lights can be used as signal lights. This camping lantern suits the demands for camping and hiking and is compatible with ARB-L16-700U, CR123A and 16340 batteries. The ARB-L16-700U is rechargeable via its own built-in charging port, while cold-resistant CR123A batteries are readily available. In addition, the lantern has IP68 rated protection, and a magnetic bottom and hanging loop make the CL09 better suited for various lighting environments.

# CL09

Ultra-portable High-performance Camping Lantern

- ★ Neutral white light for better color rendering
- ★ Spherical luminous body for 360° illumination
- ★ Multifunctional red and green lights
- ★ Included Micro USB rechargeable Li-ion battery

# CLO9

Ultra-portable High-performance Camping Lantern

## Neutral white light

- ✦ The neutral white light allows for better color rendering.
- ✦ Four brightness levels make it perfect for various conditions.

# CLO9

Ultra-portable High-performance Camping Lantern

## Spherical luminous body for 360° illumination

- ★ The spherical luminous body is made of optical grade PC materials for soft and even beam
- ★ 200 lumens max output allows 360° illumination.

**CLO9**

Ultra-portable High-performance Camping Lantern

## Multifunctional red and green light

- ✧ Red constant on: protects people's night vision and avoids attracting mosquitoes
- ✧ Red flash: serves as a signaling or alerting light
- ✧ Green light: serves as a beaconlight

# CLO9

Ultra-portable High-performance Camping Lantern

## The complimentary ARB-L16-700ULi-ion battery

- ★ The battery can be charged by its own built-in Micro USB port or in a charger.
- ★ Multiple protections design for safety use
- ★ 500 charging circles

Notice: when charging via Micro USB port, the charging indicator turns red, and blue when fully charged.

# CL09

Ultra-portable High-performance Camping Lantern

## Compatible with CR123A battery

Withstands temperatures down to  $-40^{\circ}\text{C}$ , CL09 performs well in cold and harsh environments.

**CL09**

Ultra-portable High-performance Camping Lantern

**Various ways of wearing**

Magnetic attaching   Hook   D-ring

# CL09

Ultra-portable High-performance Camping Lantern

## Compact and lightweight; choice of two colors

Being only 78.5mm in length, 22mm in diameter and 31.5g in weight, this compact lantern is easy to carry.

# CL09

Ultra-portable High-performance Camping Lantern

## IP68 rated protection

Totally protect against dust and foreign objects

Fearless of harsh environments (Submersible to 2 meters)

# CLO9

Ultra-portable High-performance Camping Lantern

		Low	Med	High	Turbo	Red	Red Flash	Green
Output		1 Lumen	30 Lumen	80 Lumen	200 Lumen	5 Lumen	5 Lumen	5 Lumen
Runtime	ARB-L16-700U	90h	19h 20min	5h 40min	2h 40min	30h	/	48h
	CR123A	150h	36h	19h	6h	48h	/	76h
Beam Diameter		10m						
Impact Resistance		1m						
Waterproof		IP68, underwater2m						

Notice: The abovementioned parameters (lab-tested by Fenix using the included ARB-L16-700U and one CR123A battery) may vary between lanterns, batteries and environments.

# CL09

Ultra-portable High-performance Camping Lantern

- ✦ Three lighting sources: neutral white, red and green
- ✦ Powered by one ARB-L16-700U, 16340 or CR123A battery
- ✦ 78.5mm Length x 22mm Diameter
- ✦ 31.5 grams (excluding battery and other accessories)
- ✦ 360° illumination
- ✦ Bottom magnet and hanging loop
- ✦ IP68 rating(submersible to 2m for 30 minutes)
- ✦ Reverse polarity protection, to protect from improper battery insertion
- ✦ Made of durable aircraft-grade aluminum and optical grade PC materials
- ✦ Premium type III hard-anodized anti-abrasive finish
