Dear Sir (Madam),

RE: Proposal of vital cooperation

I am an independent researcher, PhD, an Israeli citizen, 82, currently an asylum seeker in Sweden. I arrived in Sweden with a scientific mission vital, in my opinion, for the destiny of civilization. I have failed so far to get support for the mission and, instead, found myself trapped, perhaps abducted, near Goteborg, in a suspicious hotel controlled by some suspicious people, with no prospect for a better life, to say nothing of my mission. Honestly speaking, I doubt I will be able to survive in this situation. The main cause for that wild outcome is supposedly the interference of Russian KGB agents cooperating closely against me with their local counterparts.

As to my mission, in the course of my almost 40-year-long research, that I started in Russia late in the 60s and since 1992 have proceeded with in Israel, Europe and Canada, I achieved the following:

- (1) reformed modern physics, which is not recognized officially yet;
- (2) discovered the true interpretation of the General System Theory - the Golden Key to Science;
- (3) created the frameworks of the true sciences of Politics and Economics, the sciences nonexistent or underdeveloped before.

The above results amount, in my opinion, to a turning point in the history of science and civilization. Those results have encouraged and enabled me to start settling the present general ideological crisis now threatening the very existence of humankind. To that end it would be necessary to reform the ideology of modern society, that is its science, philosophy and religion. I have already started such a reform, worked out the general methodology for it and launched a dedicated website:
www.reformscience.org.

Scientifically, the above approach is the only way to settle such present conflicts as, for example, those in Ukraine, Syria and North Korea, that otherwise would develop and eventually trigger a global conflict. However, to proceed with the reform on a large scale, it is necessary to establish a Coordinating Center that would guide and coordinate the reform worldwide, for which I would need a firm international support. I think it would be logical and perhaps possible to create such a center in the structure of The Institute of International Relations or, at least, as an independent NGO closely cooperating with it.

In this connection could you please consider an opportunity of starting our cooperation by organizing my report on my above mission at the Institute, thus also solving my current predicament in Sweden.

Yours sincerely,

Igor Makarov (my Israel ID310295142; my current asylum case #51083734)
