

## Alternative Brussels Square

© Jane McLellan 2017. Design inspired by Jane Eborall's [square motif](#)

Using size 20 thread, motif should measure 3 cm square.

Wind 2 shuttles, continuous thread method. I wind 120 cm (47 inches) on each shuttle plus 50 cm (20 inches) thread between shuttles.

### Method

Begin with a Self Closing Mock Ring, 4 - 4, swap shuttles leave a small length of thread as a false picot, make central ring 2-2-2-2-2-2-2-2, close, swap shuttles. Work second half of mock ring, 4-4, close, reverse work.

Swap shuttles

\*Make small outward facing ring: 3-3, close, swap shuttles.

Chain: 4-4, reverse work

Ring: 3, join to previous ring, 3, join to central ring, 3-3, Close, reverse work.

Chain 4-4, reverse work

Ring: 4, join to previous ring, 4, join to central ring, 4-4, close, swap shuttles.

Repeat from \* until square is complete, joining last ring to first, as per picture, finishing with a chain joined to the base of the first small ring.

In short:

SCMR: 4-4 SS [ FP 2-2-2-2-2-2-2-2] 4-4

SS

\*R3-3 DNRW, Ch 4-4 RW, R 3+3+3-3, Ch 4-4. R 4+4+4-4 SS, Repeat from \*
