Dear Mr. Edelstein:

RE: Geopolitical project

I am an independent researcher, PhD, an Israeli citizen, 82. In the course of my almost 40-year-long research I have achieved the following:

- (1) reformed modern physics, which is not recognized officially yet;
- (2) discovered the true interpretation of the General System Theory - the Golden Key to Science;
- (3) created the frameworks of the true sciences of Politics and Economics, the sciences nonexistent or underdeveloped before.

The above results amount, in my opinion, to a turning point in the history of science and civilization. Those results have encouraged and enabled me to start settling the present general ideological crisis of civilization now underlying a new incarnation of fascism and threatening the very existence of humankind. To that end it would be necessary to reform the ideology of modern society, that is its science, philosophy and religion. I have already started such a reform and worked out the general methodology for it. To start realizing the project on a large scale, it is necessary to establish a Coordinating Center, in Europe or perhaps in Israel, that would guide, control and stimulate the reform worldwide. The Center could be set up as an NGO for ten persons or so sponsored for about two years.

In this connection, taking into account:

- (1) that the above general crisis manifests itself in the Middle East perhaps most dangerously;
- (2) that Israel, with its Zionist ideology inconsistent with the current overwhelming trend for globalization, on the one hand, and with its decades-long conflict with Palestinians, on the other hand, becomes gradually the FOCUS of the Middle East crisis, which gives rise to anti-Semitism;
- (3) that, moreover, Zionism is essentially the ideology of the Jewish ghetto, that is of a petty, isolated and persecuted people, which is inconsistent with Judaism, the great world religion, as well as with the great mission of the Chosen People, and therefore necessitates its replacement by the proper ideology;
- (4) that the delay of the reform of modern society prompts some corrupt circles to resort ever more often to illegal methods, which degrades the moral of society pushing it nearer to a new world war;
- (5) that all that makes the Jewish people most vulnerable and therefore most interested in settling the above general ideological crisis,

**would you please find an opportunity to provide me with conditions necessary to start realizing the proposed project.**

Yours sincerely,

Igor Makarov, PhD
