ARMED SERVICES (/ISSUES/ARMED-SERVICES)

I believe in peace through strength. Our military combat capability has been reduced by two-thirds since I gave my first oath back in 1985, but we maintain worldwide commitments, which is stretching us to the breaking point. We need to retool our military with the latest technology, reduce the massive headquarters' staffs, and reform our acquisition processes.

(/issues/budget)

BUDGET (/ISSUES/BUDGET)

I will support a Balanced Budget Amendment. We have a spending problem, not a revenue problem. We need to reduce the size of our bureaucracies in Washington, D.C.

CONGRESSMAN BACON'S COMMITTEES (/ISSUES/COMMITTEES)

I am eager to rebuild America's Military and restore readiness to the Joint Force on the House Armed Services, work to suppress burdensome and unnecessary regulations that stifle small businesses and the economy on the House Small Business Committee and represent the most productive farmers and ranchers in the world on the House Agriculture Committee.

(/issues/agriculture)

AGRICULTURE (/ISSUES/AGRICULTURE)

Agriculture is Nebraska's number one industry and it affects the economy of the entire state, and I want to expand my background and understanding of these industries and their needs, so I can be a strong advocate on the House Agriculture Committee. Without the talent of these hard-working people, the entire industry would implode and adversely affect consumers.

ENERGY & ENVIRONMENT (/ISSUES/ENERGY-ENVIRONMENT)

The mission of the Climate Solutions Caucus is to educate members on economically-viable options to reduce climate risk and to explore bipartisan policy options that address the impacts, causes, and challenges of our changing climate. I am proud to be part of the Climate Solutions Caucus to further expand my knowledge on the potential impacts of climate change and find bi-partisan solutions.

(/issues/foreign-policy)

FOREIGN POLICY (/ISSUES/FOREIGN-POLICY)

We need to defeat ISIS with assertive leadership, our superior airpower, and special forces. Iraq and other regional partners should be the lead with ground forces. Our regional partners will do this with strong American leadership, and leading from behind will not get the job done.

SENIORS: SOCIAL SECURITY & MEDICARE (/ISSUES/SENIORS)

Congressman Bacon does not support altering or reducing Social Security for those who are currently in or near retirement. With the average life expectancy increasing in the United States, The Congressman believes we should consider the possibility of adjusting current long-term policies to ensure the viability of Social Security for future generations.

TAX POLICY (/ISSUES/TAXES)

We need a simpler, flatter tax code that has lower rates with fewer deductions. Since government at all levels spends 42 cents on every dollar earned in this country, we have a spending problem. Therefore, I'm committed to not raising your taxes.

VETERANS (/ISSUES/VETERANS)

Our veterans serve a whole career, volunteer to fight our wars, and spend countless months and years away from their families. We must maintain the promises we gave them when they volunteered. To do otherwise is a breach of contract.
