always prompt and reliable.

ABSORBENT: Significantly more absorbent than wood shavings and comparable to other leading bedding products.

BIOSECURITY: Sourced from clean wheat fields and protected from contamination before and after production in our bio-secure facility.

ANIMAL HEALTH: Being dust extracted means that it Reduces animal exposure to harmful dust, mold, salmonella and other pathogenic organisms, improving animal health and comfort.

MORE COVERAGE: Each bag compacted 4:1 giving twice the volume of material over regular wood shavings. Reduces bedding waste by half.

CONVENIENCE: Easy to haul in trailers and stores well barns. Light weight for cleaning and reduces waste.

COMPOSTABLE: Forms a complete biological cycle that takes 100% wheat straw from grain crops, then returning used straw back to the soil in as little as 3 months composting. An excellent soil enhancer.

ODOR REDUCTION: Reduces barn odor by trapping ammonia gasses in the layers of straw.

EMPLOYEE WELLNESS: Employees no longer have to breathe in the dust and mold that comes from working with regular straw bales or wood shavings.

RELIABLE SUPPLY: Animal bedding is our business, not a by-product or an afterthought. As a result, GoldFields is available on-time, when you need it.
