HIGH OUTPUT AND LONG RANGE BEAM A TRUE PERFORMER FOR HUNTING

The HT18 uses Cree XHP35 HI LED plus a large metal glossy reflector to deliver a maximum beam distance of 1011 yards (925 meters) and a maximum 1500 lumens output; it is the best tool for long-distance prey searching and targeting.

DUAL FILTER ADAPTERS FOR NIGHT SEARCHING

Different animals have different sensitivity to various colors of light. The corresponding color filter can be selected according to your hunting needs and effectively reduces the chance of spooking the targeted prey and improves your chances of night hunting success.

*Included a red and a green filter adapter with hole for lanyard.

5000mAh LARGE-CAPACITY BATTERY ENSURES ULTRA-LONG RUNTIME

The included Fenix ARB-L21-5000U rechargeable battery can be charged via its own USB Type-C port. The 5000mAh large-capacity battery ensures longer runtime and the ability of resisting low temperature, it is cost-efficient and environmentally friendly.

* The normal charging time is about 4 hours.

* With the ALF-18 battery holder, the 18650 Li-ion battery can also be used.

ACCURATE BATTERY LEVEL INDICATOR READABLE CLEAR BATTERY STATUS

When the light is switched on, the battery level indicator inside the side switch will light up for 3 seconds to display the battery status.

The remaining battery level is indicated by the following:

● Green constant on: 100% - 85%, saturated

Green flashes: 85% - 50%, sufficient

Red constant on: 50% - 25%, poor

Red flashes: 25% - 1%, critical

Note: This only works with Fenix ARB-L21 series 21700 rechargeable Li-ion battery
and Fenix ARB-L18 series 18650 rechargeable Li-ion battery.

DOUBLE SPRING STRUCTURE ENSURES A SOLID CONNECTION

The battery compartment is designed so that the positive and negative springs effectively hold the battery in place, resisting external impact and avoiding instantaneous power failure.

INSTANT ACTIVATION WITH THE TACTICAL TAIL SWITCH

TACTICAL TAIL SWITCH

Tap to momentarily turn on the light, release it and the light will go out; fully press to constantly turn on/off the light.

SIDE SWITCH

When the light is switched on, single click to select output level; press and hold for 0.8 seconds to enter strobe, single click again to return to general mode.

*Tactical tail has withstood 100,000 press tests: the specification is the test result given by Fenix through its laboratory testing. Actual result may vary slightly according to different environments.

ALUMINUM BODY - TOUGH AND RELIABLE

The light body is made of high-strength A6061-T6 - rugged and reliable, and works well even when subjected to extreme conditions.

Additionally, it has withstood drop test of 1.5 meters on 6 sides.

* A6061-T6 is high-quality aluminum alloy produced by heat-treating and pre-stretching process. It is widely used in various industrial structural parts requiring a certain strength and high corrosion resistance, such as manufacturing trucks, tower buildings, ships, trams, railway vehicles, furniture machinery parts, precision machining, molds and so on.

*The 1.5 meters drop test result is given by Fenix through its laboratory testing.

IP68 RATED PROTECTION

Able to work in extreme environments
Totally protected against dust and foreign objects
Submersible to 2 meters for 30 minutes

FENIX
LIGHTING FOR EXTREMES

WITHSTAND BITTER COLD AND EXTREME HEAT

Fitted with high-performance components and advanced circuit design, the light will operate normally even in temperatures from -35°C to

* Cold-resistant battery is recommended in low-temperature environments.

-35°C

45°C

TECHNICAL PARAMETERS

SIZE: 7.24" x 2.68" x 1.02" / 184 x 68 x 26 mm **WEIGHT:** 7.76 oz / 220 g (excluding battery)

*The above specifications are the test results given by Fenix through its laboratory testing. Actual results may vary slightly according to the measurement method in the industry.

ANSI/PLATO FL1		Turbo	High	Med	Low	Strobe
 Output	21700 Li-ion	1500 lumens	500 lumens	150 lumens	30 lumens	1500 lumens
	18650 Li-ion	1100 lumens				1100 lumens
 Runtime	21700 Li-ion	1 hour 40 minutes*	4 hours 15 minutes	20 hours 15 minutes	61 hours	/
	18650 Li-ion	1 hour 40 minutes*	2 hours 50 minutes	14 hours 10 minutes	53 hours	
 Distance	21700 Li-ion	925 meters	570 meters	300 meters	160 meters	/
	18650 Li-ion	805 meters				
 Intensity	21700 Li-ion	214187 candela	80877 candela	21567 candela	6379 candela	/
	18650 Li-ion	162682 candela				
 Impact Resistance		1 meter				
 Waterproof		IP68, 2 meters underwater				

Note: The above specifications are the test results given by Fenix through its laboratory testing using one Fenix ARB-L21-5000 and one Fenix ARB-L18-3500 rechargeable Li-ion battery under the temperature of 21±3°C and humidity of 50% - 80%. The true performance of this product may vary according to different working environments and the actual batteries used.

*The Turbo output is measured in total of runtime including output at reduced levels due to temperature or protection mechanism in the design.

Fenix has always been committed to the mission of lighting for extremes since the birth of the brand. Concentrating on development of LED lighting tools of high performance and reliability, Fenix products are now being sold in more than 100 countries around the world, reaching tens of millions of users worldwide. Fenix tactical products are widely used and recognized by major national departments such as the Switzerland Military Department, the Netherlands Police, the Saudi Arabia Border Defense, and the Queensland Police of Australia, etc.
