

BULLYING

The South Shore School District believes that a safe and civil environment is needed for students to learn and attain high academic standards and to promote healthy human relationships. Bullying, like other violent or disruptive behavior, is conduct that interferes with students' ability to learn and teachers' ability to educate students in a safe environment. The purpose of this policy is to assist the school district in its goal of preventing and responding to acts of bullying, intimidation, violence and other similar disruptive behavior.

Bullying includes aggressive or hostile behavior that is intentional and involves an imbalance of power between the bully and the bullied. It is typically repeated over time.

Bullying takes many forms, including, but not limited to, physical or verbal assaults, nonverbal or emotional threats or intimidation, social exclusion and isolation, extortion, and the use of computer or telecommunications to send embarrassing, slanderous, threatening, or intimidating messages.

Bullying is a form of victimization and is not necessarily a result of or part of an ongoing conflict.

- Bullying can also be characterized by teasing, put-downs, name-calling, cruel rumors, false accusations, and hazing.
- All forms of harassment in cyberspace commonly referred to as cyber bullying are unacceptable and viewed as a violation of this policy. Cyber bullying includes but is not limited to the following misuses of technology: harassment, teasing, intimidating, threatening, or terrorizing another person or group of people by sending or posting inappropriate and hurtful e-mail messages, instant messages, text messages, digital pictures or images, or website postings, including blogs, social media or any other messages via cyberspace. For purposes of this policy, "cyberspace" is defined as a global domain within the information environment consisting of the interdependent network of information technology infrastructures, including the Internet, telecommunications networks, computer systems, and embedded processors and controllers.

"School district property" or "at school-related functions" means all school district buildings, school grounds, school property, school technology, school bus stops, school buses, or any other vehicles approved for school district purposes, the area of entrance or departure from school grounds, premises, or events, and anywhere

students are under the jurisdiction of the School District of South Shore. School district property also may mean a student's walking route to or from school for purposes of attending school or school-related functions, activities, or events. While prohibiting bullying at these locations and events, the school district does not represent that it will provide supervision or assume liability at these locations and events.

An act of bullying, by either an individual student or a group of students, is expressly prohibited on school district property or at school-related functions. This policy applies not only to students who directly engage in an act of bullying but also to students who, by their indirect behavior, condone or support another student's act of bullying. This policy also applies to any student whose conduct constitutes bullying that interferes with or obstructs the mission or operations of the school district or the safety or welfare of the student, other students, or employees, as well as bullying by an adult staff member bullying a student or another staff member.

No employee or volunteer of the School District shall engage in, permit, condone, or tolerate bullying.

Consent by a student being bullied does not lessen the prohibitions contained in this policy.

Retaliation against a victim, good faith reporter, or a witness of bullying is prohibited.

A person who engages in an act of bullying, reprisal, or permits, condones, or tolerates bullying shall be subject to discipline for that act in accordance with school district's policies and building procedures.

The school district may take into account but not be limited to the following factors: the developmental and maturity levels of the students involved; the circumstances; the severity of the behavior; and past incidences or continuing patterns of behavior.

Consequences for students who commit acts of bullying may range from positive behavioral interventions up to and including suspension and/or expulsion. Consequences for employees who permit, condone, tolerate or engage in bullying may result in disciplinary action up to and including termination or discharge. Consequences for other individuals engaging in acts of bullying may include, but not be limited to, exclusion from school district property and events.

The school district will act to investigate all complaints of bullying and will discipline or take appropriate action against any student or employee of the school district who is found to have violated this policy.

While it is the intent of the school district to prevent bullying, take actions to stop bullying, and protect reporters of bullying, the school district cannot monitor the activities of students at all times and eliminate all incidents of bullying between students, particularly when students are not under the direct supervision of school personnel.

Reporting Procedure

- A. Any person who believes he or she has been the victim of bullying or any person with knowledge or belief of conduct that may constitute bullying shall report the alleged acts immediately to the building employee most closely connected to the student or the incident. This reporting procedure is not intended to prevent any person from reporting bullying directly to the building principal or school district human rights officer.
- B. Any employee that receives a report of, observes, or has other knowledge or belief of conduct that may constitute bullying, is required to report to the building principal or principal's designee in a timely manner.
- C. The school district encourages the reporting party or complainant to write down the bullying complaint. However, oral reports shall be considered complaints as well. Anonymous reports will be investigated but the school district's ability to take action on such reports may be limited.
- D. Reports of bullying are classified as private educational and/or personnel data and/or confidential investigative data and will not be disclosed except as permitted by law.
- E. The school district will respect the privacy of the complaint(s), the individual(s) against whom the complaint is filed, and the witnesses as much as possible, consistent with the school district's obligation to investigate, take appropriate action, and comply with any legal disclosure obligations.
- F. Submission of a good faith complaint or report of bullying will not alter the complainant's or reporter's future employment, grades, or work assignments, or educational or work environment.

School District Action

- A. Upon receipt of a complaint or report of bullying, the school district shall undertake or authorize an investigation by school district officials or a third party designated by the school district.
- B. The school district may take immediate steps, at its discretion, to protect the complainant, reporter, students, or others pending completion of an investigation of bullying, consistent with applicable law.
- C. Upon completion of the investigation, the school district will take appropriate action. Such action may include, but is not limited to, warning, suspension, exclusion, expulsion, transfer, remediation, termination, or discharge. Disciplinary consequences will be sufficiently severe to deter violations and to appropriately discipline prohibited behavior. School district action taken for violation of this policy will be consistent with the requirements of applicable collective bargaining agreements; applicable statutory authority, including the state statutes; school district policies, and other regulations.

Reprisal

The school district will discipline or take appropriate action against any student or employee of the school district who retaliates against any person who makes a good faith report of alleged bullying or against any person who testifies, assists, or participates in an investigation, or against any person who testifies, assists, or participates in a proceeding or hearing retaliating to such bullying. Retaliation includes, but is not limited to, any form of intimidation, harassment, or intentional disparate treatment.

Training and Education

- A. The school district annually will provide information and any applicable training to school district staff and bus drivers regarding this policy.
- B. The school district annually will provide education and information to students regarding bullying, including information regarding this school district policy prohibiting bullying, the harmful effects of bullying, and other applicable initiatives to prevent bullying.
