

BOARD POLICY DEVELOPMENT

The Board will adopt policies to guide the actions of those to whom it delegates authority. These policies will be recorded in writing and organized according to a standard policy classification system.

In formulating policies, the Board will adopt general principles and statements of intent. The district administrator will, when necessary or when directed by the Board, prepare written regulations to ensure the implementation of Board policy.

The district administrator, in cooperation with staff and the Board, will recommend policies for adoption and recommend revision of existing policies. Policies and/or revisions may be proposed by any member of the Board, by any group, or organization, or by any citizen. Proposed policies will first be referred to the policy committee for discussion and recommendation to the full board. The Board will not formally act upon recommended policies until the regular meeting following the presentation of such policies in order to allow time for review and possible change.

The Board will reappraise its policies regularly in view of the changing needs of the community and schools.
