

EVALUATION OF SCHOOL BOARD

OPERATIONAL PROCEDURES

The South Shore School District recognizes the need for Board evaluation. The goal is to improve the operation of the Board as it carries out its legal and ethical responsibilities.

The Board will establish a process and an evaluation instrument to assess its own performance.

Priorities for improvement will be established from the results of the evaluation.

Yearly goals will be developed from the priority list and for those areas, which the Board agrees, are most important.

Board evaluation will take place annually.
