

SCHOOL BOARD LEGISLATIVE PROGRAM

The Board, as an agent of the state, must operate within the bounds of state and federal laws affecting public education. If the board is to meet its responsibilities to the residents and students of the community, it must work vigorously for the passage of new laws designed to advance the cause of good schools and for the repeal of modification or existing laws that impede this cause. To this end:

1. The Board will develop an annual legislative program through conferences with the state and national school board associations.
2. When appropriate, the Board will work for achievement of common legislative objectives through these associations and with other concerned groups.
3. The Board will also seek both direct and indirect representation of its position on pending legislation with appropriate state and federal legislators and legislative committees.
