

Fenix E12 V2.0 Flashlight

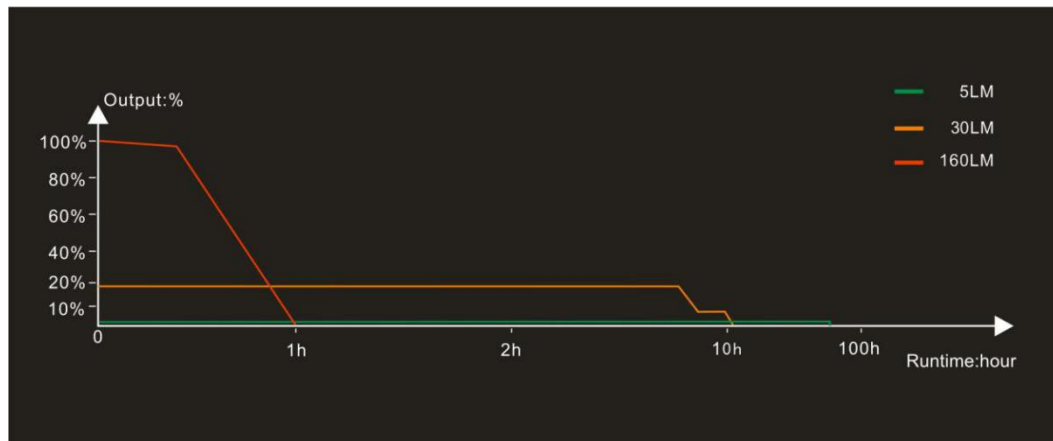

Technical Parameters

| ANSI/PLATO FL1 | | High | Med | Low |
|--|---------------------|--------------|-------------|------------|
|  Output | | 160 lumens | 30 lumens | 5 lumens |
|  Runtime | Alkaline Battery | 1 hour | 13 hours | 70 hours |
|  Distance | | 68 meters | 28 meters | 12 meters |
|  Intensity | | 1133 candela | 185 candela | 31 candela |
|  Impact Resistance | | 1 meter | | |
|  Submersible | | IP68 | | |

Note: The above specifications are from the results produced by Fenix through its laboratory testing using an Alkaline battery under the temperature of 21±3°C and humidity of 50% - 80%. The true performance of this product may vary according to different working environments and the actual battery used.

*The High output is measured in total of runtime including output at reduced levels due to temperature or protection mechanism in the design.

Runtime Graphics

Product Features

- 160 lumens maximum output, 68 meters maximum beam distance.
- Uses **MATCH CA18 cool white LED** with a lifespan of 50,000 hours.
- Included by a single AA battery, easy to find (Ni-MH/Alkaline).
- Automobile ultrathin optical lens coating process.
- No standby current, safe and cost-efficient.
- One-handed operation with the single tail switch.
- Two-position body clip and tail standing capability for varying conditions.
- Made of durable A6061-T6 aluminum.
- Premium type HAIII hard-anodized anti-abrasive finish.
- Size: 3.06" x 0.75" x 0.69" / 77.6 x 19 x 17.6 mm.
- Weight: 0.96 oz / 27.3 g (excluding battery).

Operating Instruction

On/off

Fully press the tail switch to turn on/off the light.

Output Selection

With the light switched on, tap the tail switch to cycle through Low→Med→High.

Intelligent Memory Circuit

The light does not memorize the previously used output level, each time it is turned on, Low mode will be activated.

Battery Specifications

| Type | Dimensions | Nominal Voltage | Usability | |
|------------------|------------|-----------------|-------------|----|
| Ni-MH Battery | AA | 1.2V | Recommended | ✓✓ |
| Alkaline Battery | AA | 1.5V | Recommended | ✓✓ |

| | | | | |
|-------------------------------------|-------|------|--------|---|
| Non-rechargeable Lithium Battery | AA | 1.5V | Usable | ✓ |
| Rechargeable Li-ion Battery | 14500 | 3.7V | Banned | × |

Battery Replacement

Unscrew the light tail and insert the battery with the anode side (+) towards the light head, then screw the light tail back on.

Low-voltage Warning

When the voltage level drops below the preset level, the flashlight is programmed to downshift to a lower brightness level until Low output is reached. To ensure normal use, the flashlight will not turn off automatically and will work till the battery runs out completely.

Usage and Maintenance

- Disassembling the sealed head can cause damage to the light and will void the warranty.
- Fenix recommends using an excellent quality battery.
- If the light will not be used for an extended period, remove the battery, or the light could be damaged by electrolyte leakage or battery explosion.
- Unscrew the tail cap half a turn or take out the battery to prevent accidental activation during storage or transportation.
- Long-term use can result in O-ring wear. To maintain a proper water seal, replace the ring with an approved spare.
- Periodic cleaning of the battery contacts improves the lamp's performance as dirty contacts may cause the lamp to flicker, shine intermittently or even fail to illuminate for the following reasons:

A: The battery needs replacing.

Solution: Replace battery (Ensure battery is inserted according to the manufacturer's specifications).

B: The threads, PCB board contact or other contacts are dirty.

Solution: Clean the contact points with a cotton swab soaked in rubbing alcohol.

If the above methods don't work, please contact your authorized distributor.

Included

E12 V2.0 flashlight, AA battery, Spare O-ring, Lanyard, User manual, Warranty card

Warning

- This flashlight is a high-intensity lighting device capable of causing eye damage to the user or others. Avoid shining the flashlight directly into anyone's eyes.

- This flashlight will accumulate a lot of heat when used for extended periods, resulting in high temperature of the flashlight shell. Pay attention to safe use to avoid scalding.
- All information provided in this manual is subject to change without prior notice.
