About the situation in Ukraine and the risk of a new world war

The situation in Ukraine has been developing, quite predictably, towards an increasing confrontation with Russia. All this leads inexorably to a big war, which no one needs and which would not solve the underlying crisis. At present, only we, New Marxists of Russia, have the proper scientific ideology and the program to get out of this explosive impasse. Our program guarantees:

- (1) the creation of the true democracy in Ukraine and the solution of all its current problems;
- (2) a gradual transition of Russia to the true democracy and the revival of its geopolitical status;
- (3) the revival of friendly relations between Russia and Ukraine;
- (4) the solution of all international problems and the elimination of the threat of a new world war.

Our program requires a wide international support and the creation of a coordination center. The program is partly outlined on the website:
