RELIABLE WALKING LIGHT

Whether it is commuting or walking, the E02R with its professional lens, shines brighter and farther than a mobile phone light. You don't have to worry about dark corners walking at night. You deserve safety and protection.

TWO BRIGHTNESS LEVELS WITH THE TWISTY HEAD

Freely twist the light head to choose the brightness levels of low and high. The E02R provides peace of mind in emergency lighting and city commuting at night.

THREE COLORS FOR PERSONALIZED CHOICE

There are three optional colors of classic black, fancy blue and elegant brown. The E02R combines attractive appearance and practical performance.

PRACTICAL AND CONVENIENT MICRO USB CHARGING

The E02R is powered by the built-in 120mAh Li-polymer battery, allowing you to reach a maximum runtime of 6.5 hours. The E02R has a standard Micro USB port in the middle for charging with the included Micro USB charging cable; easy charging without carrying an additional battery charger.

FENIX
LIGHTING FOR EXTREMES

A THUMB SIZE FOR PERFECT EVERYDAY CARRY

The E02R has an ultra-compact body shape which provides convenient carrying. It is a true go-to flashlight whether matched with the car key or a handbag. Additional features include a thoughtful keychain loop, anti-slip tail and charging port mark, all making for an easier user experience.

SIZE: 1.89" x 0.59" x 0.55" / 48 x 15 x 14 mm

IP68 RATED PROTECTION

Able to work in extreme environments

Fully protected against dust and foreign objects

Submersible to 2 meters for 30 minutes

* According to the ANSI/PLATO FL1 standard, the above specifications are from the results produced by Fenix through its laboratory testing.

* Once charging is completed, be sure to tighten the light head to maintain dustproof and waterproof ability.

ALUMINUM BODY - TOUGH AND RELIABLE

The light body is made of high-strength A6061-T6 aluminum. Rugged and reliable, even when subjected to extreme conditions. It can withstand a drop test of 1.5 meters on 6 sides.

* A6061-T6 is high-quality aluminum alloy produced by heat-treating and pre-stretching process. It is widely used in various industrial structural parts requiring a certain strength and high corrosion resistance, such as truck manufacturing, skyscrapers, ships, trams, railway vehicles, furniture machinery parts, precision machining, molds and more.

* The 1.5 meters drop test results were produced by Fenix through its laboratory testing.

TECHNICAL PARAMETERS

SIZE: 1.89" × 0.59" × 0.55" / 48 × 15 × 14 mm

WEIGHT: 0.53 oz / 15 g

ANSI/ PLATO FL1	High	Low
 Output	200 lumens*	15 lumens
 Runtime	25 minutes	6.5 hours
 Distance	49 meters	13 meters
 Intensity	591 candela	39 candela
 Impact Resistance	1 meter	
 Submersible	IP68	

Note: According to the ANSI/PLATO FL1 standard, the above specifications are from the results produced by Fenix through its laboratory testing using the built-in 120 mAh Li-polymer battery under the temperature of 21±3°C and humidity of 50% - 80%. The true performance of this product may vary according to different working environments and the actual battery used.

*The High output is measured in total of runtime including output at reduced levels due to temperature or protection mechanism in the design.
