Knesset

Dear Mr. Speaker of the Knesset:

RE: International crime

I am an Israel citizen, 85, a scientist with a great research done (worth perhaps of billions of dollars) and, despite my age, with still a great mission vital for civilization. For about 15 years I have lived in a hostel in Haifa, controlled thoroughly by Russian agents isolating me from the scientific community and depriving me actually of all means of communication, email, fax, internet, telephone, to say the least. Their activity presents an especially dangerous international crime, threatening the destiny of the Jewish people as well. More information is enclosed.

In this connection would you please assign a commission to investigate that monstrous, global crime, as well as perhaps the opportunity to provide me with the proper living and working conditions.

Sincerely,
Igor Makarov, PhD
