

Email of October 22, to reformach110@gmail.com

Dear Dr Igor Makarov,

Greetings from Physics Congress 2022,

On behalf of Physics Meet 2022 Organizing Committee, we would like to solicit your gracious presence as a speaker at the upcoming **International Congress on Physics** (*Physics Congress 2022*) scheduled on **March 03-04, (Thu-Fri) 2022 at Paris, France.**

Physics Congress 2022 is a specially designed cluster conference. This event is organized around the theme “*Fascinating talks that seek to unravel the Future faces of Physics*”.

For more information visit: <https://physics.annualcongress.com/>

For any queries and concerns please, **WhatsApp us at +447481355586**

Sincerely,

Eliza Haris

Event Organizer

International Congress on Physics

March 03-04, 2022, Paris

Dear Ms. Haris,

RE: concerning your invitation to the Congress

I would be ready to take your kind invitation to be a speaker at the International Congress on Physics - only on the following conditions:

(1) The only purpose of the Congress should be the discussion of my independent research in theoretical physics, titled "A Theory of Ether, Particles and Atoms", subtitled "Introduction to the Reform of Modern Physics", the discussion aimed at the conclusion on whether the author of that research, Igor Stepanovich Makarov, deserves the scientific degree of PhD in physics.

(2) The Congress should be presided by an international committee of world famous physicists, university professors, top researches, etc.

(3) To present my above research at the Congress, me, the author of the research, would make six reports, corresponding to the respective chapters of the research, each of 30-45 min; every report would be followed by a discussion consisting first of all of remarks by officially assigned opponents and my answers to them.

(4) There should officially be assigned up to 12 opponents, each of them acquainted with my research to a sufficient degree and obliged to send his remarks to me by January 15.

(5) My final decision on the participation at the Congress would be two weeks later, February 1, 2022. Unless most of the remarks are serious, I will have the right to cancel my participation at the Congress.

(6) I would like to know the staff of the Organizing and the Scientific Committees of the Congress by January 1, 2022.

(7) The URLs of the websites with my research and its abstract are as follows. The research: <https://kvisit.com/S2uuZaQ>; its abstract: <https://kvisit.com/SgfD0Aw>.

(8) At present I live in a quasi-fascist state of Israel in conditions incompatible with such a scientifically and socially important event: a hostel in Haifa controlled thoroughly by Russian fascists, security and intelligence agents, set to prevent me from making any contacts with the world scientific community, to say the least. So I would need to change this place before the Congress first of all. To do that I would need your assistance including that of UN, UNESCO and perhaps NATO as well.

Yours sincerely,

Igor Makarov, Cand. of Science
