# BUSINESS GOALS:

## START WITH THE END IN MIND

What is your ultimate destination (can be a title) for your business?

Why do you want to reach this destination? How will your life be different when you get here?

Can you taste it?

Take a moment to visualize what you will be doing? How does it feel? How does it smell, taste, look?

Who else will be affected by you successfully reaching this destination and how so?

### Financial Independence:

First, settle that getting rich is ok as long as we remain honorable. The more you have the more you can give back.

Do the best you can.

Someday you will be able to live off the income of your invested resources. Look at where you are financially. It doesn't matter where you start, as long as you start. Some

people start at 97% and go up from there. Some people start at 1%. It doesn't matter, you'll grow!

Prove it to yourself, "I'm not living the old way anymore." Your economic future is based on your philosophy, not the economy.

The greatest value is not what you get, but what you can give.

Multiplying yourself in other people will increase your wealth. If you work, you make a living; multiply yourself, a fortune.

## Business Goals

### NARROW YOUR FOCUS

# MY NEXT STEP TOWARD MY DESTINATION IS \_\_\_\_\_

**HINT: (It's NOT a TITLE. With the STRUCTURE, comes the TITLE.)**

How many new WORKING, EXCITED, and INSPIRED team members do you need to partner with to reach the next step? \_\_\_\_\_

The names of people that I'd like to have on my team and will contact to find out if they would like to join me are:

(Need a memory jogger? <http://bit.ly/jogmem>. Or you can use your phone, have you called all of your contacts?)

In order for me to achieve the next step, my activities and 100% of my effort must be in alignment to get the results needed .The activities that I have on my calendar to support my next step are:

**I will commit to daily action and put 100% of my focus and activities toward my NEXT STEP. The people's lives that I touch are worth my commitment and so am I.**

**Be Curious. Be Direct. Be Nice.**

# SOME OTHER IDEAS WORTH THINKING ABOUT:

If you think it's impossible, it isn't. If you think you know everything, you don't, If you think you're alone, your not.

Attend every class you can. Some events will be life changing and you don't know which ones.

If you can't buy it with money, you can earn it by sharing.

Time is more valuable than money. Don't let people steal your time.

You are who you hang out with. Who're you hanging out with?

It's not to be that you will inspire everyone.

From testimonials and personal experiences, we have enough to conclude that it's possible to design and live an extraordinary life.

Find customers, sales transform your economic life.

Find good people to be part of your organization. If you search you will find but finding is reserved for those who search! The day you DECIDE to start looking, your life will never be the same.

If you keep knocking, you will find a door that will open. So knock on Monday. Knock on Tuesday. Knock on Wednesday. Knock on Thursday. Knock on Friday. Knock on Saturday. Reserve Sunday for learning, praying, and family.

Don't wish it was easier, wish you were better. You may need to invest in yourself and increase your skills.

If you don't plant, you won't reap. If you plant a little, you'll reap a little.

Wouldn't it be sad to live in the wrong community and have the right philosophy? How about the right country with the wrong philosophy? Climb the ladder as far as you wish here.

Work harder on yourself than you do on your job. If you work hard on your job, you'll make a living. If you work on yourself, you'll make a fortune.

Success is something you attract by becoming an attractive person. Multiply your skills. The marketplace has plenty of money, how much can you attract by becoming an attractive person?

To become wealthy, find a way to serve many. If you help enough people get what they want, you can have everything you want.

To do or not to do, is your philosophy.

You don't have to do the same the next 6 years as you did the last. You're not a goose! You can change everything; your goals, life, TV you watch, books you read, music you listen to, people you surround yourself with, and your philosophy.

For things to change, you have to change. For things to get better, you have to get better. It's not what happens to you, it's how you react to what happens to you.

Words speak life or death. Speak encouragement.

Be a selective listener, listen only to the people and things that support you. Stand guard at the door of your mind.

If you rest too long, the weeds take the garden. You need enough rest to produce energy for the week's accomplishments. Be more interested in the work than the rest.

Leave a legacy. Life is short. We only have a small amount of time to make an impact on society. Everyone wants to leave a legacy.

Look good, feel good, make money, and have fun and pass it on. You will have an opportunity to make a positive impact for other's health and wealth!

## **THE LAW OF LARGE NUMBERS REWARD THE PERSISTENT.**

**STRIKE UP A CONVERSATION!** Here are a few ideas: Customer care- Do they want to add another product? Host an event and invite some people. Ask someone to join you to attend a lecture. Make a list and intentionally call and ask if there is interest in getting healthier or making some extra income, or join your mission of helping others. Be interested in others and use "life-styling" throughout your day. Fear means GO! Success happens outside of your comfort zone.
