

15 Ways To Make \$100 Or More Per Day Online!

[Visit Website](#)

Introduction

If you've been on the internet for more than a few hours, you've likely seen at least one advertisement teaching you how to make thousands of dollars a minute, working from your underwear, in the comfort of your own home.

These ads are so ridiculously popular that if you're like most people, you start doubting whether it really IS possible to make money online.

The truth is, it IS possible. It might be hard to make thousands of dollars a minute from the get-go (or at all 😊), but there are certainly ways you can make an extra \$100 a day working from home with ease.

In this report, I am going to share 66 different ways in which you can create more income. I have tried to cover all types of methods for all different personality and skill types, and I am confident that you'll be able to find at least a few that sound good to you.

While some of them require more work than others, please know that you can mix and match. For example, maybe you can do a few hours of forum moderation at \$10 an hour for \$30, and then make up the extra \$70 doing something else. The key is to have fun and do whatever you enjoy.

I have given an overview of each idea, and then fleshed them all out a little bit so you could get started on whatever you like, immediately.

Do keep in mind that these methods are NOT internet businesses in any nature – it's just opportunities available on the internet to make "part-time" income.

It is my sincere hope that you get a lot out of this report, and that you take action and start making money!

Without any further ado, let's get started. 😊

1. Create Facebook Fan Pages and manage them:

Many companies need to advertise themselves and Facebook Fan Pages are one phenomenal place to do it. Most local businesses do not have any ideas how to create and manage them.

In order for you to make money with Facebook Fan Pages, here are some steps you can take:

- Create a Facebook Fan Page for a business in your area.
- Email them and show them what you've created. Let them know they can buy it if interested.

How much money can I make?

You can reasonably expect \$100 - \$200 per fan page, and you may also want to charge a monthly maintenance fee for managing it.

Article writing:

If you are a good writer, you can earn money by writing articles for people with websites.

Many website owners know that they need to keep their websites current and up to date, but don't have the time to constantly create new content for them. Because of that, they hire people who can write on their behalf.

In order for you to become a content writer, here are some steps you can take:

1. Post a profile on freelancing sites such as [UpWork.com](https://www.upwork.com) and [Guru.com](https://www.guru.com). Describe your interests and your levels of expertise.
2. Look for writing jobs on the same freelancing sites and apply for them
3. Google "writer job openings".
4. Ask the owners of websites that you already like if they are looking for writers.

How much can I make out of writing?

 Content writing jobs pay anywhere from \$1 to \$100+ based on the length of the article and your expertise. If you're already an expert on the topic you're writing about, you can often charge a premium.

 Even if you are new to writing, you can make upwards of \$.50 for each 100 words on an article.

2. Become A Blogger:

If there's something you're passionate about, you can create a blog where you can talk about it.

This is a fun way to share your passions while learning and teaching about what you're already excited about.

In order to do this well, you would need to be a good writer with the ability to make people interested. You would also need to be able to post fairly regularly to a blog.

Blogs can be monetized in several ways. Just some ways are to have companies pay you to post their advertisements (this is better for blogs with a lot of traffic), or put [Google AdSense](#) on your blog. With this option, Google pays you every time someone clicks on an advertisement.

In order for you to become a Blogger, here are some steps you can take:

- Choose a company to blog with. Two of the most popular ones are [Blogger](#) or [Wordpress](#).
- Decide if you want a free account or if you would like to host the blog on your own domain (if you bought a domain, your blog could look like [www.yourpassion.com](#), or a free account would look like [www.yourpassion.wordpress.com](#)).

Most people opt to buy a domain so that their blog appears more professional. If you choose to do this, you'll need to sign up with a hosting company (I recommend [HostGator](#) – their plans are as low as \$4.95 a month), and then have your domain routed to the hosting company.

- This may sound difficult but it's actually very easy, and [HostGator's](#) customer support can help you with any questions.
- After your blog is set up, decorate it however you would like (Wordpress calls the blog skins "themes", and Blogger calls them "templates")
- Post news, lessons, stories, or anything relevant to your blog.
- Add content as frequently as possible so that you build up a regular readership base.
- Start advertising your site on social networks, amongst friends, or via other traffic methods.

How much can I make out of blogging?

- It can take some time to establish a blog, but the profit potentials can be quite large. Some people report making in the millions of dollars from a blog. Your earnings will vary based on traffic you get to the blog, how interesting your content is, how often you post, and the types of advertisements you put on your blog.
