So, if I Continue To Work, How Do New Earnings Increase My Benefit Amount?

- 1. If your latest (new) year of earnings turns out to be one of your highest years (higher than the 35 previously used or you had fewer than 35 years and it replaces a zero), we refigure your benefit and pay you any increase due.**
- 2. You do not need to request this; it is an automatic process and benefits are paid in December of the following year.**
- 3. For example, in December 2018, you should get an increase for your 2017 earnings if those earnings raised your benefit. The increase would be retroactive to January 2018.**
