I. INTRODUCTION

The SouthEastern Arizona Governments Organization (SEAGO) is a regional planning agency which performs and coordinates a variety of functions. Established in 1972, SEAGO is a 501(c)3, nonprofit organization whose mission is to assist local governments in seeking cooperative solutions to area wide problems; to provide a forum for regional policy development and serve as a coordinating link between municipal, county, tribal, state, and federal agencies. SEAGO is one of six Arizona Councils of Governments (COGs).

SEAGO serves the four counties of Cochise, Graham, Greenlee, and Santa Cruz. SEAGO's programs focus on issues that often cross jurisdictional boundaries. Originally a planning entity, SEAGO's operational scope has expanded considerably since its inception to include planning as well as project programming and implementation activities in the areas of housing, economic development, social services, transportation, the environment, and public transit.

The SEAGO Transportation Program assists member entities with programs administered through the Arizona Department of Transportation (ADOT). Each community within the region is eligible for funding through a competitive application process. As a result, the smaller communities find it difficult to compete with the larger communities within the state of Arizona for valuable grant funding. SEAGO's transportation department provides technical support, data, and other information to these communities when applying for ADOT or transportation related grants.

State transportation agencies such as ADOT are the principal recipients of Federal-aid Highway Funds for transportation planning and infrastructure improvements. ADOT has the authority to delegate project administration and management to subrecipients including Local Public Agencies (LPAs) including "any city, county, township, municipality, or other political subdivision that may be empowered to cooperate with the State transportation department in highway matters" (23 CFR 635.102).

SEAGO, as a condition to receiving Federal funding assistance from the Federal Transit Administration (FTA), Federal Highways Administration (FHWA), and Arizona Department of Transportation (ADOT) must comply with the Title VI of the Civil Rights Act of 1964 and the 1994 Presidential directive of 1994, Executive Order 12898. The purpose of this plan is to describe how SEAGO intends to ensure that Title VI protected populations are provided meaningful opportunities to become involved in the transportation planning process within the SEAGO region.

II. POLICY STATEMENT

The SouthEastern Arizona Governments Organization (SEAGO), is committed to ensuring that no person is discriminated against on the grounds of race, color, national origin, sex, age, disability, limited English proficiency, or low- income status as provided by Title VI of the Civil Rights Act of 1964, The Civil Rights Restoration Act of 1987, Section 504 of the Rehabilitation Act of 1973, Americans with Disabilities Act of 1990 (ADA), Executive Order 12898 (Environmental Justice), Executive Order 13166 (Limited Proficiency), Code of Federal Regulations 49 Part 21, Code of Federal Regulations 23 part 200, and Code of Federal Regulations Part 303.

The SouthEastern Arizona Governments Organization (SEAGO) strives to ensure nondiscrimination in all of its programs and activities, whether those programs and activities are federally funded or not. As a sub- recipient of federal funding, the SEAGO is responsible for initiating and monitoring Title VI activities, preparing required reports, technical assistance and training. SEAGO's contractors/consultants must also comply with this policy.

III. ENVIRONMENTAL JUSTICE

Title VI of the Civil Rights Act of 1964 requires outreach to underserved groups. Title VI specifically requires that “No person in the United States shall on the grounds of race, color, or national origin be excluded from participation in, denied the benefits of, or subjected to discrimination under any program or activity receiving Federal financial assistance.” (42 USC 2000d)

Furthermore, in direct response to the 1984 Supreme Court decision in the Grove City College vs. Bell case (465 U.S. 555), the Civil Rights Restoration Act of 1987 restored the original intent of Title VI to include all programs and activities of federal-aid recipients and contractors whether federally funded or not. This includes other civil rights provisions of federal statutes and related authorities that prohibit discrimination in programs and activities receiving federal financial assistance (23 CFR 200.5(p)) including:

- The 1970 Uniform Act (42 USC 4601), which prohibits **unfair and inequitable treatment** of persons displaced or property to be acquired as a result of federal-aid programs & projects.
- Section 504 of the 1973 Rehabilitation Act (29 USC 790), which states “No **qualified handicapped person** shall, solely by reason of his handicap, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity that receives or benefits from federal financial assistance.”
- The 1973 Federal-aid Highway Act (23 USC 324), which states “No person shall on the grounds of **sex** be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal assistance under this title or carried on under this title.”
- The 1975 Age Discrimination Act (42 USC 6101), which states “No person shall on the basis of **age**, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance.”
- Executive Order 13166 on Limited English Proficiency (LEP), which requires federal agencies [including those of recipients (see FHWA Order 6640.23(2)(h))] to examine the services they provide, identify any need for services to those with **limited English proficiency** (LEP), and develop and implement a system to provide those services so LEP persons can have meaningful access to them.
- Executive Order 12898 on Environmental Justice (EJ), which states “Each Federal agency shall conduct its programs, policies, and activities [including those of recipients (see FHWA Order 6640.23(2)(h))] that substantially affect human health or the environment, in a manner that ensures that such programs, policies, and activities do not have the effect of excluding persons (including populations) from participation in, denying persons (including populations) the benefits of, or subjecting persons (including populations) to discrimination under such programs, policies, and activities because of their race, color, or national origin.”

In response to the federal requirements noted above, SEAGO considers environmental justice as an integral part of its planning activities. To ensure that all populations are acknowledged and engaged in SEAGO planning processes, ***SEAGO has developed a Public Participation Plan which is included as Section XIV of this document.***

In addition to the Public Participation Plan, SEAGO takes additional steps to ensure compliance with federal requirements. These include:

ADA Accessible Facilities

SEAGO makes every effort to hold public meetings in facilities that are Americans with Disabilities Act (ADA) compliant; and, arrange for reasonable accessibility and accommodation to persons with disabilities. In order to ensure effective communication, whenever possible, SEAGO provides assistance to individuals who are hearing or visually impaired, upon request.

Demographic Data Analysis

Prior to conducting any transportation planning activity, SEAGO develops a demographic profile of the planning area. SEAGO uses the most current ACS Estimates from the U.S. Census data to identify minority and low-income populations. The demographic profile summarizes the data for both population groups by U.S. Census Tract. Although minority and low-income persons live throughout the SEAGO region, many are concentrated in specific locations and neighborhoods. SEAGO's most recent regional demographic analysis found that minorities comprise 54% of the population. Therefore, any census tract with a percentage of population considered minority that is above 54% is considered to have a regionally significant concentration of minority population. A similar approach is taken to establish regionally significant concentrations of low-income populations. SEAGO's most recent regional demographic analysis found that regional poverty rate was 19.2% of the population. Therefore, any census tract with a percentage of population considered "in poverty" that is above 19.2% was considered to have a regionally significant concentration of low-income population.

Targeted Outreach

The objective of SEAGO's public outreach efforts is to make every attempt to involve all stakeholders regardless of their demographic composition, and, those that may be directly impacted because of a transportation improvement. SEAGO uses the above demographic analysis to develop specific community outreach activities. This includes door-to-door and one-on-one outreach activities.

Limited English Proficiency Outreach

SEAGO also assists persons with limited English proficiency to actively participate in the transportation planning process. SEAGO ensures all planning surveys and outreach materials are provided in both English and Spanish. SEAGO attempts to have bilingual staff at public meetings. Staff will make every effort to provide Spanish translators and document translation, where feasible, upon request. Upon request, SEAGO staff are available to go speak to groups in an effort to eliminate participation barriers and involve citizens in the transportation process.

IV. PUBLIC PARTICIPATION PROCESS

The SouthEastern Arizona Governments Organization (SEAGO) recognizes the increasing importance of involving the public as they plan, organize and implement transportation projects. Engaging interested parties generally results in a more effective project overall. Taking time at the beginning to communicate with potentially affected interests, carefully explaining the proposal, and gathering input, can enhance the project and theoretically reduce the time and effort for implementation.

The goals of this public involvement are to ensure that:

- Residents are given the opportunity to participate in the transportation planning process.
- The issues and concerns of residents are given consideration in the selection of transportation investments.
- Transportation investments do not disproportionately burden any population with adverse impacts.

The SouthEastern Arizona Governments Organization (SEAGO) operates under a comprehensive Public Participation Plan (PPP). The Plan explains the agency goals for public participation, governing structure, and composition of boards, procedures for board meetings, program areas, interagency coordination, and specific procedures for public participation in the planning process, public engagement and notification methods. The full plan is incorporated into this document.

SEAGO has developed a Limited English Proficiency Plan (LEP) which is incorporated in this document.

Commitment to Public Involvement

The Public Participation Plan (PPP) contains background material, guidelines, and commitments that SEAGO is undertaking to incorporate an effective public process into future plans, projects, and programs. Specifically SEAGO is committed to:

- Inclusive and meaningful public involvement.
- Open and honest communications with all individuals and entities.
- Timely public notice.
- Full public access to information and key decisions.
- Creating a sense of shared responsibility and ownership for regional transportation/congestion problems and a shared sense of pride in the development of solutions to those problems.
- Helping form partnerships between member entities, and the private and public sectors to plan and implement transportation/congestion solutions.
- Establishing policies and prioritizing needs based on valid data and using objective, fair and consistent processes.
- Providing information and gathering input so that decision makers will be able to make informed decisions.

Dissemination of Title VI Information

Subrecipients of federal funding must post notices informing the public of the agency's Title VI obligations and of the protections afforded to the public through Title VI. SEAGO's public notice will appear in all significant publications of SEAGO and on the agency's website. This includes information about the complaint process described in section XI. The full text will be used when space is available. The abbreviated text will be used when space is limited. The public notice is posted on the SEAGO website and on the bulletin board that is visible immediately upon entry into SEAGO where all public meeting notices are posted.

SEAGO understands the need to keep the public aware of our transportation planning activities. In addition to posting meeting agendas on our website and offices, meeting notices and agendas are distributed via email to agencies that provide direct services to Title VI protected populations. We request that they make their clients aware of these opportunities for public involvement by posting the meeting notice at their office locations, websites, or social media pages.

Public Meetings

SEAGO's Administrative Council meets quarterly. Meetings are the 2nd Thursday of February, and the 1st Thursday of May, August, and November. The Executive Board meets on the Friday that is two weeks following the Administrative Council meeting. The SEAGO Technical Advisory Committee meets the 3rd Thursday of even numbered months. Agendas for each meeting are posted at the SEAGO office, 1403 W. Highway 92, Bisbee, Arizona, Bisbee City Hall located at 915 S. Tovreaville Road, Bisbee, Arizona and online at: www.seago.org a minimum of 72 hours in advance of each meeting.

Public participation is promoted at each meeting and our agendas give opportunity to call upon the public to make comment on any unrelated agenda topic as well as during discussion on an agenda topic.

In the event of a cancellation, notice will be posted on web site a minimum of 48 hours in advance as well as email notification sent to regular meeting participants and our Title VI notice distribution list.

VII. SEAGO REGION MAP

VIII. SEAGO ORGANIZATION, STAFFING, AND TITLE VI ADMINISTRATION

a. General Organization

The SouthEastern Arizona Governments Organization (SEAGO) is a regional planning agency which performs and coordinates a variety of functions. Established in 1972, SEAGO is a 501 (c)3, nonprofit organization whose mission is to assist local governments in seeking cooperative solutions to area wide problems; to provide a forum for regional policy development and serve as a coordinating link between municipal, county, tribal, state, and federal agencies. SEAGO is one of six Arizona Councils of Governments (COGs).

SEAGO serves the four-county planning area of Cochise, Graham, Greenlee and Santa Cruz counties, which covers approximately 14,000 square miles and is very rural. Within the region, there are fourteen incorporated communities and one Native American government – the San Carlos Apache Tribe. SEAGO is charged with providing technical assistance to all the entities within the region, for transportation planning, population data gathering, project management, transit programs and activities, and other related programs.

b. SEAGO Title VI Staffing, Coordination and Administration

The **Executive Director**, on behalf of the SEAGO Executive Board, is responsible for supervising and administering the overall activities of the SEAGO, its programs, and employees. As such, the Executive Director signs all necessary nondiscrimination assurances to aid in ensuring all civil rights requirements are met. The Executive Director is responsible for the overall implementation of the Title VI program, and serves as the Chief Title VI Officer. Duties or powers are delegated to carry out the efficient operation of the Title VI Program. **SEAGO's Executive Director is Randy Heiss.**

Mr. Heiss may be contacted via phone at 520-432-5301 Extension 202. He may be contacted by email at rheiss@seago.org. He may be contacted by mail or in person at 1403 W. Highway 92, Bisbee, Arizona 85603.

The day to day administration of the program lies with the **SEAGO Transportation Program Administrator**, which includes, but is not limited to; activity such as reporting, data collection, technical assistance, and training. The position has responsibility for preparing required reports regarding Title VI compliance. This position is also responsible for overseeing the implementation of SEAGO's Limited English Proficiency Plan. Jim Russell is the Transportation Program Administrator.

Mr. Russell may be contacted via phone at 520-432-5301 extension 209. He may be contacted by email at jrussell@seago.org. He may be contacted by mail or in person at 1403 W. Highway 92, Bisbee, Arizona 85603.

The SEAGO Training Coordinator is also our Title VI Coordinator. The Title VI Coordinator has the delegated authority to have a direct line of communication to the SEAGO Executive Director involving all Title VI matters. The Title VI Coordinator is charged with ensuring that notices of opportunities for public involvement are directed to Title VI protected populations through agencies most likely to serve such

populations. The Title VI Coordinator is also responsible for coordinating Title VI training for SEAGO staff and collecting statistical data (race, color, sex, national origin and low-income status) of participants in and beneficiaries of SEAGO Transportation programs. Jessica Urrea is SEAGO's Title VI Coordinator.

Ms. Urrea may be contacted via phone at 520-432-5301 extension 215. She may be contacted by email at jurrea@seago.org, or by mail or appointment at 1403 W. Highway 92, Bisbee, Arizona 85603.

Compliance is ongoing and strategies to include disadvantaged populations (including individuals with Limited English Proficiency) in the transportation planning and grant awards processes are outlined in the SEAGO Public Participation Plan which is included as Section XIV of this document. Every effort is made to include disadvantaged populations in the SEAGO Technical Advisory Committee (TAC) process.

A copy of the SEAGO Organization Chart can be found in Attachment A of this plan.

The TAC has the authority, and primary responsibility to conduct technical reviews regarding all work activities of the Work Program; to recommend project awards; and to advise the Administrative Council and Executive Board on appropriate actions to be taken for the overall transportation

planning policies and direction of the region. The 2010 Census triggered the creation of several new Metropolitan Planning Areas in Arizona. ACS data are based on a sample and are subject to sampling variability.

Data Collection, Reporting, and Analysis

SEAGO collects, reviews, and analyzes demographic data annually to develop a demographic profile (baseline) for the region. **SEAGO uses the most current ACS Estimates from the U.S. Census data** to identify minority, low-income, age 65+, disabled, and limited English proficient populations (see table above). The demographic profile summarizes the data for these population groups by U.S. Census Tract.

Demographic Data Used in Transportation Planning

SEAGO's uses the Demographic Profile data to determine the presence of Title VI communities as well as the potential to affect them through the planned activity. The process that SEAGO uses to identify Title VI communities is:

1. Prior to conducting any transportation planning activity, SEAGO develops a demographic profile of the planning area with a focus on minority and low-income populations. Although minority and low-income persons live throughout the SEAGO region, many are concentrated in specific locations and neighborhoods. SEAGO's most recent regional demographic analysis found that minorities comprise 54% of the population.

Therefore, any census tract with a percentage of population considered minority that is above 54% is considered to have a regionally significant concentration of minority population.

2. A similar approach is taken to establish regionally significant concentrations of low-income populations. SEAGO's most recent regional demographic analysis found that regional poverty rate was 19.2% of the population. Therefore, any census tract with a percentage of population considered "in poverty" that is above 19.2% was considered to have a regionally significant concentration of low-income population.
3. Appropriate outreach and analysis will be incorporated into all relevant activities from the beginning. Therefore, a Public Participation Plan specific to the identified Title VI community shall be developed prior to any planning activity taking place.
4. The Title VI Coordinator will assist staff as needed in determining the potential effect of planning activities on Title VI populations.

Data Reporting

SEAGO will collect and report to ADOT the following data by August 1 of each year:

a. Lawsuits Alleging Discrimination

SEAGO will keep data on any lawsuits or complaints relating to discrimination have been filed against SEAGO and report on the status and outcome of such incidences.

b. Outreach Efforts

SEAGO will maintain records on its efforts to invite participation from Title VI in its planning activities.

c. Public Participation Data

SEAGO will gather data reflecting the extent to which members of Title VI protected populations participate in planning activities and any issues raised by those participants.

d. Ethnicity and Sex Statistics for SEAGO Committees

SEAGO will report the ethnicity and sex of SEAGO's primary advisory committees.

e. Demographic Composition of the SEAGO Region

SEAGO will update the demographic composition of the SEAGO region's population each year.

f. Pending Applications for Federal Assistance

SEAGO will report the federal funding sources that it receives direct funding from each year. SEAGO currently applies annually for federal funds directly from the U.S. Department of Commerce. SEAGO also receives federal pass through funding from a number of state agencies, including but not limited to ADOT, Arizona Department of Housing, and the Arizona Department of Economic Security.

XII. TITLE VI PROGRAM COMPLIANCE AND ENFORCEMENT

Transportation Planning

The purpose of the SEAGO Transportation Program is to ensure that transportation related resources are equitably, effectively, and efficiently distributed throughout the region to support the safe movement of goods and people. This is accomplished by transportation planning and coordination with local, state, federal agencies, and the general public to identify and implement projects and multi-modal programs to meet the transportation needs of the region.

Management of the planning process is performed by the SEAGO Transportation Planner, with strategic direction from the Executive Director. The Technical Advisory Committee (TAC) provides review and input, as appropriate, and works directly with the Transportation Program Administrator, providing recommendations on regional transportation policy and the development and maintenance of a fiscally constrained five-year Transportation Improvement Program (TIP). It is the function of the Executive Board to act as a policy body for transportation planning, and related implementation activities.

Other Activities Provided by the SEAGO Transportation Program

- Public Involvement – Provide outreach activities to stakeholders.
- Highway Performance Management System – Traffic counts & road classification.
- Data Collection – Population data collection and Air Quality Standards.
- Regional Planning Coordination – Technical Assistance for project management, grant writing, funding research
- Transit – Planning and management activities to all rural transit programs throughout the region.
- Regional Mobility Management - Training and technical assistance to public transit programs to assist them in meeting compliance with program requirements.

Compliance Training, Investigations, Complaints and Lawsuits

SEAGO is committed to Title VI and other nondiscrimination authorities and will make every effort to identify and address discrimination in its programs and activities, if found to exist. Compliance is ongoing and falls under the direction of the Title VI Coordinator.

Title VI Program Compliance and Enforcement Process

SEAGO will actively pursue the prevention of deficiencies and will take the necessary steps to ensure compliance with all program requirements. To further enhance the ability to identify and eliminate patterns of discrimination, SEAGO will ensure that staff, sub-recipients, and beneficiaries are educated and informed regarding Title VI roles and responsibilities. SEAGO's Title VI Compliance and Enforcement Process is identified below:

- a. Internal compliance and sub-recipient reviews will be conducted annually for a minimum of one program area to 1) ensure compliance with Title VI; 2) identify deficiencies; and 3) correct deficiencies when found to exist.
- b. When conducting Title VI compliance reviews, any deficiencies found will be communicated in writing. It is SEAGO's goal to secure voluntary compliance at the outset in every noncompliance situation and will be pursued through each enforcement action.
- c. Remedial action/correction steps shall be identified, agreed upon, and remedial action shall be completed within 90 calendar days.
- d. Technical assistance will be made available to any department or sub-recipient in finding methods, strategies, and processes to ensure effective Title VI implementation and compliance.
- e. When a sub-recipient fails or refuses to comply with the requirements within the time frame allotted, SEAGO will involve the ADOT Civil Rights Office to initiate remedies.
- f. Compliance audits, results, and corrective actions will be included in the SEAGO Title VI Non Discrimination Annual Goals and Accomplishments Report.

Compliance Training

- a. SEAGO is committed to Title VI/Nondiscrimination training. SEAGO's Transportation Program Administrator and/or Title VI Coordinator will participate in ADOT provided Title VI training and meetings.
- b. On a semi-annual basis (January/July) the SEAGO Title VI Coordinator will review ADOT, FHWA, and FTA resource websites to identify training opportunities and changes in program requirements.
- c. The Title VI Coordinator will provide at least one Title VI training annually to all SEAGO staff. The training will serve to review and refresh staff's knowledge of program. This will include complaint procedures, LEP, website resources, and Title VI contacts.
- d. A training sign-in sheet shall be completed for training provided. The Title VI Coordinator will maintain all training documentation including sign-in sheets and training materials.
- e. SEAGO sub-recipients shall be required to complete Title VI training annually. They may attend SEAGO annual training or submit a self-certification sheet demonstrating completion of training.

Sub-recipient Review Procedures

SEAGO at times may use consultants to assist in the completion of the above activities. SEAGO sub-recipient review procedures include review of sub-recipient contracts, data collection and analysis efforts, and staff interviews to help ensure compliance with Title VI and subsequent authorities. The SEAGO Transportation Program Manager and the Title VI Coordinator will monitor these sub-recipients to ensure compliance with Title VI and related authorities.

- a. SEAGO sub-recipients shall be reviewed annually for compliance with Title VI.
- b. The Transportation Program Administrator and/or Title VI Coordinator shall review of sub-recipient contracts for compliance with required Title VI language.

- c. Sub-recipient development of a Public Participation Plan (PPP) shall be included in all contract Scopes of Work. SEAGO will review and approve the PPP before other work is allowed to proceed.

XIII. LIMITED ENGLISH PROFICIENCY PLAN

It is the policy of SEAGO to ensure that our programs and activities, normally provided in English, are accessible to Limited English Proficiency (LEP) persons. As a recipient of federal funding, SEAGO is required to take reasonable steps to ensure that all members of the community, regardless of their proficiency to understand English, have the opportunity for meaningful access to SEAGO's planning and programming process. U.S. Department of Transportation guidance on LEP requires a four-factor analysis to determine the need for translation services in order to fully engage LEP populations in the planning process. The four factors are as follows:

1. The number or proportion of LEP persons served by the SEAGO service area.
2. Frequency of contact with SEAGO services or programs.
3. Nature and importance of SEAGO programs and services to people's lives.
4. The resources available and the overall cost to SEAGO.

SEAGO's analysis of the four factors is provided below.

Factor 1: The number or proportion of LEP persons served by the SEAGO service area.

According to the 2013 to 2017 American Community Survey (ACS) five-year estimates 38.1 percent of the region's population speaks a language other than English, with 32.25 percent speaking Spanish. The ACS also indicated that 12 percent of persons five years old and over speak English less than "very well." The predominant language for this group is Spanish.

SEAGO has determined that it was not cost effective to take specific actions for languages of the LEP populations other than Spanish unless a specific request was made for an accommodation. This is because languages other than Spanish made up only 3.4 percent of those that speak English less than "very well" (See DP2 tables included in Attachment B).

Factor 2: The number or proportion of LEP persons served by the SEAGO service area.

SEAGO recognizes that transportation planning is an area that touches everyone's lives. However, as a planning agency SEAGO's contact with the general public is significantly less frequent than programs that offer direct transportation services. When the scope of a proposed project or plan has the potential to significantly impact LEP persons, SEAGO will, to the maximum extent feasible, provide appropriate alternative non-English formats. Additional translation and interpreter services are offered.

Factor 3: Nature and importance of SEAGO programs and services to people's lives.

Transportation is an important element to people's independence. Inclusive community engagement is critical to ensuring that transportation planning is responsive to the needs of all residents.

Factor 4: The resources available and the overall cost to SEAGO.

SEAGO has limited staff and financial resources, which makes the translation of all materials cost prohibitive. Often persons with a limited English proficiency have several trusted sources to interpret for them. SEAGO works to provide enough bilingual information for the LEP population to understand which SEAGO services are available or what major planning activities are taking place so that they can ask for assistance from SEAGO or one of their trusted sources.

On the basis of this four-factor analysis, SEAGO will, to the maximum extent feasible, provide appropriate alternative non-English formats when the scope of a proposed project or plan has the potential to significantly impact LEP persons. All SEAGO agendas and public notices will contain a footnote in Spanish that translations are available upon request. SEAGO staff will make every effort to provide Spanish translators and document translation of SEAGO's official deliberations and communications, community outreach, and related notifications, where feasible and upon request. Requested translation and interpreter services will be provided for SEAGO public meetings with advance notice as stated in our public notices.

XIV. PUBLIC PARTICIPATION PLAN

Background

Over the past few years, governmental agencies have come to recognize the increasing importance of involving the public as they plan, organize, and implement transportation projects. Involving interested parties generally results in a more effective project overall. Taking time at the beginning to communicate with potentially affected parties, carefully explaining the proposal, and gathering input, can enhance the project and potentially reduce the time and effort for implementation.

The goals of public involvement are to ensure that:

- Residents are given the opportunity to participate in the transportation planning process.
- The issues and concerns of residents are given consideration in the selection of transportation investments.
- Transportation investments do not disproportionately burden any population with adverse impacts.

This plan outlines the importance of, and specific guidelines for, involving community members, organizations, governments, transportation professionals and others in ongoing and future regional projects, plans, and programs. Included is information about the value of public participation, how it will be accomplished, and what will be done with the results.

It is important to note that a Public Participation Plan (PPP) needs to incorporate a broad array of interested parties. These include agencies responsible for land use management, natural resources, environmental protection, conservation and historical preservation. Involving all the potentially affected interests, including the traditionally underserved populations, can significantly increase a plan or project's efficiency and effectiveness. By following the process outlined in this plan, SEAGO will be able to better ensure inclusive and meaningful public involvement.

Public Involvement Process

Public participation implies an open process. This means that anyone who is potentially affected, or is just interested in the process, is welcome to participate. Some of the reasons for encouraging this openness are:

- Project leaders may gain new information.
- Participants, who want a project to be completed, can provide additional resources in the form of assistance, goods, or services.
- Public participation can be a forum for dispute resolution.
- Progress can be made and implementation occur because:
 - The project itself will be better designed with public input.
 - The community better understands what the project is about.

- Input can provide a warning mechanism for potential problems.

Participant comments help the project leaders understand areas where residents and other stakeholders may have concerns or misunderstandings. This can be used to provide better information to others who are not actively participating in meetings or providing input.

Just opening the process to the public is not enough. There are numerous populations that are not likely to get involved unless a special effort is made to reach out to them. In this Plan, groups that need a more focused effort to get involved are referred to as “underserved populations”. These include, but are not limited to:

- Minority (Hispanic and/or non-white) community members.
- Low-Income community members.
- Physically and mentally challenged community members.
- People who may rely on alternative transportation.
- People with limited English proficiency.
- Aging individuals.

By making a reasonable extra effort to include these populations, SEAGO hopes to ensure that the interests and input of all residents are given equal consideration.

Guidelines

a. Techniques

There are numerous and varied techniques/activities to provide the opportunity for public involvement. Any combination and number of these may be used depending on the scope of the specific plan, program, or project. These techniques/activities are defined in detail in Table 1. As funding permits, SEAGO will select from the various activities to provide the most effective public participation in each particular situation.

b. Welcoming Attitude

Public participation is welcomed and encouraged by SEAGO. All questions and statements are valuable and will be treated as such. Participants will be treated with respect. Meetings will be conducted with basic ground rules that enforce civil discussion. Anyone who feels that these rules have not been followed should contact SEAGO staff at (520) 432-5301.

c. Meeting Schedules and Locations

Meetings and hearings, which are open for public participation, will be scheduled to allow the best opportunity for attendance by the general public and other entities whenever possible. The meeting locations will be convenient and ADA accessible. In addition to general meetings, events and activities,

reasonable efforts will be made to reach those who are particularly affected, the underserved or others who request SEAGO come to them. These options are open to any group or individual and it is the policy of SEAGO to go where people are whenever possible. Locations and meeting times for these activities will be designed according to the specific needs.

d. Notification

Notices will follow the general Open Meeting Law of the State of Arizona. Information about meetings, events and other opportunities for participation will be made in a timely manner. This is especially important for the physically and mentally challenged as extra time may be needed to arrange for accommodations to meet their needs. This notification will be easy to understand and provide adequate information or explain where the information can be obtained.

e. Presentation of Information

In order to help citizens better understand Transportation Planning, efforts will be made to show how presented information specifically relates to the public in both the near future as well as long-term. Visualization enhancements such as color, animation, physical props, pictures, 3-D models, etc. will be incorporated as appropriate and as budgets allow.

f. Written and Personal Communications from SEAGO

Technical and policy information from SEAGO will be written so that it is clear and understandable to the public. All relevant information will be open for public consideration. Staff will be available to answer questions at meetings and respond to phone questions in a timely manner.

g. Ongoing Communications

SEAGO will use mailings, media, and electronic technology such as e-mail and web sites to have ongoing communication with the public and other entities. Members of the staff are also available via the phone for questions, concerns, and suggestions.

h. Other Entities

The needs and interests of other public and governmental entities will be solicited as appropriate. Coordination, cooperation, and teamwork among all the agencies are vital to the success of any plan, program, or project.

i. Transportation Interests

SEAGO will solicit input from transportation-related groups such as professional organizations, freight interests, private providers of transportation, chambers of commerce, and others.

j. Opportunities for Input

Opportunities for input will vary depending on the project, program, or plan. For larger projects, such as a regional transportation plan, several rounds of public participation may be appropriate. Opportunity for initial comments on what projects citizens would like their transportation system to include, prior to the start of any work may be desired. Comments on the first draft would be collected and incorporated as appropriate in the final draft. Finally, if there were significant changes to the final draft, there could possibly be another call for input. In each of these stages a variety of techniques would be used to involve all the stakeholders. Techniques would be determined by the extent and nature of the project as well as available funds to do so.

k. Use of Public Comments

A complete record of public comments will be retained for public review. In specific cases, identified by federal regulations, public comments would be a part of the final document. Additionally, individual questions will receive a response in a timely manner.

l. Decision Making

All final transportation decisions (other than those requiring a vote of the people) are made by one or more groups of elected or appointed officials. Public meetings allow comments to be collected and may identify a consensus. The final decision, however, will be up to the elected and/or appointed officials based on a consideration of all related information. Prior to each key decision point, ample opportunity will be offered for input and that input will be shared with the decision-makers.

Evaluating Public Involvement Activities

A continuing focus on evaluation and enhancement of the public participation process should help to improve the outcome of each new SEAGO plan, project, or program. Evaluating public participation is a multi-dimensional task. First, there is the quantitative aspect which uses measurements such as the number of activities held, the number of notices sent, and/or the number of people who participated. While valid and important, these factors may not show the complete picture.

Second, it is important to evaluate the qualitative aspects relating to perceptions, attitudes, and effectiveness. Did the people who participated feel they were heard? Were all the potentially affected interests (including the underserved) actually represented? Were the materials provided easy to understand? Were announcements received in a timely manner?

Third, is the question of how the public input was used. This information needs to be recorded and made available. It also needs to be considered in the decision-making process. Fourth, is the need to evaluate the reason something happened. Understanding why there was good (or poor) participation is important to assessing effectiveness.

The ultimate point to consider in an evaluation is the existence of respect and trust. It is not possible to please everyone, but it should be possible to proceed forward with an atmosphere of respect and trust and SEAGO intends to earn this by being fair and open with everyone at all times.

Development, Adoption, and Revision of the Public Participation Plan

This PPP and the associated Title VI Implementation Plan has gone through several stages during its development:

- Preparation of a preliminary draft plan.
- Evaluation of this plan to ensure compliance with all federal regulations.
- Review of the plan by SEAGO's Technical Advisory Committee.
- Review of the plan by stakeholders including the general public, governmental entities, and transportation professionals/businesses.
- Revision of the plan based on the above reviews.
- Completion of a final draft plan.
- Circulation of the draft plan for at least 45 calendar days. This includes notice to all potentially affected interests that this final draft plan is available for review, including placement at public libraries throughout the region.
- Review and evaluation of any further recommended changes.
- Ongoing implementation of the plan by SEAGO.
- Availability of alternative formats i.e. large prints, Braille, audio/video cassettes (as appropriate) upon request for individuals who are blind or individuals with hearing/vision impairments. Due to the time and expense required to develop such materials, this will only be done upon request and a minimum of two weeks' notice must be provided to ensure timely preparation of such materials.

The plan will be officially reviewed at a minimum of every 5 years. (The first review occurred in 2017.) Public input would be solicited for future revisions and a minimum 45 calendar day review period prior to adopting any changes. Efforts to involve the public and other organizations will follow the steps outlined in the adopted plan.

Other periodic revisions may occur, as new and better approaches are determined. Each time any significant content revisions are made (other than technical or grammatical revisions) the public will be given a 45-calendar day review and comment period prior to implementing the changes. SEAGO will update the plan annually and submit an annual accomplishment report to ADOT.

SEAGO Commitment

This plan contains background material, guidelines, and commitments that SEAGO is undertaking to incorporate an effective public process into future plans, projects, and programs.

Specifically SEAGO is committed to:

- Inclusive and meaningful public involvement.
- Open and honest communications with all individuals and entities.
- Timely public notice.

- Full public access to information and key decisions.
- Creating a sense of shared responsibility and ownership for regional transportation/congestion problems and a shared sense of pride in the development of solutions to those problems.
- Helping form partnerships between member entities, and the private and public sectors to plan and implement transportation/congestion solutions.
- Establishing policies and prioritizing needs based on valid data and using objective, fair, and consistent processes.
- Providing information and gathering input so that decision makers will be able to make informed decisions.

Table 1 – Public Participation Toolbox

Activity	Description	Comments
Brochure	Written material to distribute generally contains more information than a flyer. It is often folded to create a small piece for distribution.	
Charrette	An intensive brainstorming session using visual methods to define alternatives.	These can last anywhere from a few hours to a few days.
Conference	A meeting with two or more people where the participants confer and discuss. (This can also be a series of meetings and/or events focused on a unifying subject.)	
Contact lists	Create contact lists for interested parties.	
Display	Information and materials are displayed in an informal setting where people are free to move about and consider whatever is of interest to them.	These are typically held at malls, city halls, banks, etc.
E-mail	Using the Internet to contact people with electronic mail addresses.	This is very inexpensive and a quick way to contact people. It is, however, important to find other ways to communicate with people who do not have access to computers.
Flyer	A written communication piece that provides the most basic information.	Multiple flyers can be produced for one event, plan or project with each flyer designed to communicate with different groups. These can be produced in various languages when resources are available to do so.
Focus Group	A small carefully selected group of individuals who meet together to give feedback to the organizer on a specific topic.	Because this is a selected group, people who are not selected may be suspicious of the information gathered.
Games and	These include a wide variety of activities including	Use of these is an unusual and

Contests	such things as board games, role playing, computer simulations, etc.	creative way to actively involve people.
Forum	A public meeting that is designed to help attendants better understand a subject by hearing different points of view. Usually several people with differing opinions, each make a short presentation and then answer questions. It is not designed for decision making.	It is most helpful if a disinterested party moderates. It also helpful, especially in some communities, if some of the “experts” were local and trusted by the community. If a forum is used, it may need to be in Spanish for Spanish speaking community members.
Activity	Description	Comments
Grocery Store	Contacting people at the grocery store, either by printing information on a grocery bag, dropping information into a grocery bag, staffed information tables, or by displaying flyers or posters in the store.	This is a way to reach a larger and possibly diverse group of people, but it will also require availability of the necessary level of resources.
Information Booths	Place an information exhibit at fair-type events.	
Key Person Interview	This question and answer session is with a specifically targeted person who has been identified as someone with whom it would be particularly important or useful to speak.	This may be useful as a first step in reaching minority or other interest groups.
Meetings	These are opportunities for larger groups of people to get together for a multitude of purposes. The general intent is to allow people to interact on a person-to-person basis. Meetings can be held for a wide variety of reasons from working on an issue to making a presentation	To be most effective, a meeting should inform the participant prior to coming: what type of meeting it will be, what their role will be, and the expected outcome of the meeting.
Modeling	Computer and/or physical modeling can be used to help people better visualize or better understand a particular concept or project.	
Newspaper Advertisement	Information that a newspaper prints in their paper that is not part of the news. The person/group placing the advertisement has control of the content.	These are generally purchased, and are used to announce meetings, events, etc.
Newsletter	A regular communication for a predetermined group of individuals/groups.	These can be mailed or sent electronically. This is a standard way to keep interested individuals and entities informed on a regular basis.
Open House	Information and materials are displayed in an informal setting where people are free to move about and consider whatever is of interest to them.	This is a commonly used tool which has now been expanded to locations such as the local mall, in

	Informed people are available to answer questions and take comments and suggestions.	addition to places such as the lobby at city hall.
Organization Contact	Contact with an organization could take the form of a presentation, question & answer session, brainstorming, etc.	
Postcard Notices	A postcard mailed to a predetermined mailing list to announce an event or activity specific information.	
Posters	A large written announcement posted in a public place.	These can be placed at numerous locations and designed to appeal to different groups or underserved populations. Posters must be displayed in conspicuous and accessible locations.
Activity	Description	Comments
Presentation Meetings	These meetings allow the organizer to provide information and answer questions for a large group at once.	The presenter generally does not present any side of the issue other than their own.
Web Site	A series of "pages" on the Internet that relate to a specific subject. They can be reached by anyone who has access to the Internet by typing a particular address or by doing a search.	This is an easy and inexpensive place to keep the most recently updated information and it is becoming an increasingly popular way to communicate.
Public Hearings	This is a legal meeting that is often required to make sure there is some opportunity for public comment. It is normally done with elected officials sitting at the front and allowing community members very specific conditions to speak under.	These are a poor setting for getting input as they are generally late in the process and can easily erupt into confrontation.
Public Notice	These are official notices posted prior to meetings.	These are required for meetings where a quorum of elected officials from the same governing body will be present.
Public Service Announcements	These are short announcements usually on radio or television, for which there is no charge and announce something important for the public to know.	
Radio Talk Show	A longer discussion, on the radio, of a particular subject. It usually involves a talk show host and one or more additional people. Sometimes there is an opportunity for people to call in questions.	This is an opportunity for providing more in-depth information on a certain topic.
School TV/News Stations	Some schools have a local school TV station for sharing information with the students. This could be used to reach a larger spectrum of youth.	Presentations to students needs to be short and to the point with a source of additional information such as a web site.

School Presentations	In order to reach the youth, presentations can be made at the schools, including presentations to clubs, student council, and specific classes.	Suggested classes would be: civics, economics (or other senior level classes), and transportation classes. (Presentations to the students needs to be short and to the point with a source of additional information such as a web site.)
TV Advertisements	These are usually 30 or 60 second spots on TV during breaks in a regular show.	These would only be utilized if sufficient resources were available to do so.
Speakers' Bureau	This is an organized effort to provide speakers to various groups and events on one or more specific subjects. This generally consists of several speakers who are used as needed.	This allows more flexibility and a broader outreach.
Workshop	Meetings to inform and solicit input on specific issues, plans, or projects.	These usually allow a smaller group of people to participate more intensively.
Activity	Description	Comments
Survey – General	This type of survey is open to anyone who wants to participate. (This can be in traditional or electronic formats).	While the information is useful and important, it cannot be stated as representing a larger group. To be representative the survey must be statistically valid. (Surveys should be offered in Spanish as well as English.)
Survey - Statistically Valid	This is a survey that collects information from specific people who have been chosen on a random basis according to a specific formula. With this type of survey the results can be stated as representing the group from which the random sample was taken.	These are very expensive but can be useful in certain circumstances. (Any survey should be offered in Spanish as well as English.)
Town Meeting	This is usually a semi-formal meeting designed to be open to everyone in a community. It often includes both the public and elected officials with an opportunity for comments back and forth.	
Press Releases	This official release tells the press there is news they might be interested in reporting. It generally follows a specific format and includes who, what when, where and a contact for more information.	Information that is reported as "news" gets more attention and credibility than paid advertising.
Working Meetings	Generally these are meetings designed to work through issues when there can be give and take among all the participants.	

Importance of Public Participation

People need to understand that Transportation Planning is relevant to them. Maintaining public interest as decisions are made is critical to gathering effective public input. Therefore:

- With each contact, efforts will be made to present information that is relevant and show how this information relates to the public in both the near future as well as long-term.
- As any of the above tools are used, SEAGO will keep in mind the importance of making whatever the subject matter is as interesting as possible. Color, animation, physical props, pictures, visualization, 3-D models, etc. will be incorporated, as budget allows, to enhance the experience for the public.
- Public notices must include reasonable accommodations for individuals with disabilities with special needs, e.g. sign language interpreters. SEAGO will include point of contact person, telephone number, e-mail address, and timeframe for response from those with special needs.
- When the scope of a proposed project or plan has the potential to significantly impact individuals with special needs, pertinent materials will be available in alternative formats, i.e. large print, Braille, audio/video.

About the U.S. Census Bureau's 2013-2017 American Community Survey 5 year Estimates

The American Community Survey (ACS) is a nationwide survey that uses continuous, multi-year sampling to produce estimates for a variety of geographical areas, the smallest being the Census Block Group. MAG uses the 5-year estimates because they provide increased statistical reliability for less populated areas and small population groups. ACS is a sample, meaning that it is not a full census of the population. For the 5 year estimates, surveys are collected from a sample population over the 5 year period. These surveys are then used to create estimates for the whole population. And, because it is an estimate of the whole population, there is a degree of uncertainty in the results. This degree of uncertainty is reflected in the margins of error that are calculated and reported along with the results of the survey. The margins of error are calculated at the 90 percent confidence level, meaning that users of the data can be 90 percent confident that the range reflected in the margin of error contains the true value. The margins of error are not reported on this web site, but are available from the Census at <http://factfinder.census.gov/> or are available upon request from MAG. More information on the methodology of the American Community Survey is available at <http://www.census.gov/acs/>.

* Minority population is defined as the population that is of any race other than non-hispanic white.

I. OVERVIEW

SEAGO

The SouthEastern Arizona Governments Organization (SEAGO) is a regional planning agency which performs and coordinates a variety of functions. Established in 1972, SEAGO is a 501(c) 3, nonprofit organization whose mission is to assist local governments in seeking cooperative solutions to area wide problems; to provide a forum for regional policy development and serve as a coordinating link between municipal, county, tribal, state, and federal agencies. SEAGO is one of six Arizona Councils of Governments (COGs).

SEAGO serves the four counties of Cochise, Graham, Greenlee, and Santa Cruz. SEAGO's programs focus on issues that often cross jurisdictional boundaries. Originally a planning entity, SEAGO's operational scope has expanded considerably since its inception to include planning as well as project programming and implementation activities in the areas of housing, economic development, social services, transportation, the environment, and public transit.

The SEAGO Transportation Program assists member entities and other organizations with programs administered through the Arizona Department of Transportation (ADOT). Each community within the region is eligible for funding for transportation infrastructure or public transit projects from various programs, which is often done through competitive application processes. SEAGO's Transportation Program conducts the processes through which ADOT administered funding sources are accessed and provides technical support, data, and other information to communities or organizations within the SEAGO region when applying for ADOT or transportation related grants.

SEAGO/ADOT Relationship

State transportation agencies such as ADOT are the principal recipients of Federal-aid Highway Funds for transportation planning and infrastructure improvements. ADOT has the authority to delegate project administration and management to subrecipients and Local Public Agencies (LPAs) including "any city, county, township, municipality, or other political subdivision that may be empowered to cooperate with the State transportation department in highway matters" (23 CFR 635.102).

As described above, SEAGO receives planning funding from ADOT to perform a defined annual scope of work that consists of assisting ADOT in carrying out certain transportation related planning activities within the four-county SEAGO region. Because SEAGO is a subrecipient of federal funding through ADOT, SEAGO is considered an LPA. As an LPA, SEAGO is required to carry out its transportation planning duties and obligations in accordance with all applicable federal requirements.

One such requirement is Title VI of the Civil Rights Act of 1964, which requires outreach to underserved groups. Among other requirements, Title VI specifically mandates that "No person in the United States shall on the grounds of race, color, or national origin be excluded from participation in, denied the benefits of, or subjected to discrimination under any program or activity receiving Federal financial assistance." (42 USC 2000d)

Unlike LPAs implementing transportation infrastructure or public transit projects, these planning activities have a limited impact on the underserved populations protected under Title VI. For example,

an LPA who is providing public transit services might adversely impact underserved populations when making decisions such as which routes to cut in response to reductions in funding and the need to improve efficiencies, whereas SEAGO's administration of the application and ranking process through which public transit providers are awarded ADOT funding would have a much narrower exposure to adversely impacting underserved populations.

Although adverse impacts on underserved populations from SEAGO's planning activities will be limited in most cases, this does not relieve the agency from its obligation to comply with Title VI requirements. To that end, SEAGO has developed a Title VI Implementation and Public Participation Plan, which sets forth how SEAGO will ensure underserved populations are provided meaningful opportunities to become involved in the transportation planning process within the SEAGO region. This Title VI Report and Update describes the progress SEAGO has made in implementing the Title IV Implementation and Public Participation Plan.

II. SUMMARY OF PUBLIC OUTREACH AND INVOLVEMENT ACTIVITIES

Targeted Public Involvement Activities

Underserved populations are less likely to become involved in the transportation planning process unless a special effort is made to reach out to them. These populations include, but are not limited to:

- Minority (Hispanic and/or non-white) community members.
- Low-Income community members.
- Physically and mentally challenged community members.
- People who may rely on alternative transportation.
- People with limited English proficiency.
- Aging individuals.

By making a reasonable effort to include these populations, SEAGO ensures that the opportunity exists for the interests and input of all residents to be given equal consideration.

SEAGO's Title VI Implementation and Public Participation Plan includes a Public Participation Toolbox which is a comprehensive listing of various public outreach activities that may be utilized to enhance public participation. There are numerous and varied techniques/activities to provide the opportunity for public involvement. Any combination and number of these may be used depending on the scope of the specific plan, program, or project. As funding permits, SEAGO selects from the various activities to provide the most effective public participation in each particular situation.

Due to the current limitations of planning resources, SEAGO has chosen to focus on public outreach activities required by law and those most likely to reach underserved populations, while preserving resources that may be needed to provide special accommodations to include these individuals during the planning process, such as translation of materials for Limited English Proficiency (LEP) individuals, or those who are hearing and visually impaired.

Therefore, during the preceding year, public outreach and involvement consisted of the following activities selected from the Toolbox:

E-mail – This has been used extensively to communicate notices of meetings or public hearings to SEAGO's membership, the general public and underserved populations (more specifics below).

- Contact Lists – SEAGO has developed a Title VI contact distribution list which consists of individuals and agencies that serve the underserved populations protected under Title VI. Notices of all SEAGO meetings, including the SEAGO Executive Board, the Administrative Council, the Technical Advisory Committee (TAC), and any committees or subcommittees thereof, are distributed via e-mail to the Title VI Contact list so that they are provided the opportunity to participate in and/or comment on SEAGO planning activities. The e-mail notice asks the providers serving underserved populations to inform those individuals they serve of the opportunity to participate, the date, time, and location of the event.
- Internal Communications – In addition to transportation planning, SEAGO functions as the four-county Area Agency on Aging, which provides a wide range of services to the aging individuals in the region. This connection provides a unique opportunity to involve this underserved sector in SEAGO planning activities.
- Meetings – Underserved populations are invited to participate in all SEAGO meetings (see Contact List [above] and Public Notice [below] for details). To facilitate participation, a call-in number is provided for individuals who are unable to attend the meetings in person.
- Newsletter – SEAGO currently produces a newsletter that is distributed to a broad range of stakeholders and service providers, many of which serve underserved populations protected under Title VI.
- Press Releases – Press releases are used when a study or plan is available for public comment, and to notify the general public of the opportunity to comment, and when activities such as public hearings will be held.
- Public Meetings/Hearings – The Title VI Contact distribution list is used to inform underserved populations of any public meetings or hearings.
- Public Notices – These are a requirement for all SEAGO meetings, which are conducted in compliance with the Arizona Open Meeting Law. As discussed above, public notices are also distributed to the Title VI Contact distribution list. Public notices include reasonable accommodations for individuals with disabilities, or with special needs, e.g. sign language interpreters. SEAGO includes the name of the SEAGO Title VI Coordinator as the point of contact person, telephone number, e-mail address, and the deadline for response from those with special needs. SEAGO typically distributes notices of meetings at least a week in advance of any meetings. Notices for public hearings are distributed at least 45 days in advance of the date of the hearing.
- Website Notices – All notices of SEAGO meetings, public hearings or public comment periods are posted to the SEAGO website.

SEAGO understands the need to keep the public aware of our transit planning activities. In addition to posting meeting agendas on our website and offices, meeting notices and agendas are distributed via email to agencies that provide direct services to Title VI protected populations. We request that they make their clients aware of these opportunities for public involvement by posting the meeting notice at their office locations, websites, or social media pages. The following is our current email list of agencies that assist us in distributing our notices and opportunities for public involvement:

The following is a list of the meetings and other activities that were open to the public or open for public comment during the last year:

- 45-day public comment period on the DRAFT regional Transportation Improvement Plan (TIP). The purpose of this activity was to solicit public comment on the DRAFT TIP.

- Four (4) Advisory Council on Aging (ACOA) meetings, held quarterly at the United Methodist Church in Willcox. The purpose of these meetings is to make recommendations to the Administrative Council and Executive Board relating to programs administered by the SEAGO AAA, including public transportation funding for senior citizens in the SEAGO region.
- Eight (8) Transit Coordination meetings, held quarterly in Cochise and Graham Counties. The purpose of these meetings is to enhance coordination, leverage resources and increase efficiencies among the public transit providers, and to provide information and technical assistance to the providers who need it.
- Seven (7) Technical Advisory Committee (TAC) meetings, held bi-monthly in Benson, Arizona. The purpose of these meetings is to include local governments in the regional transportation planning process. These communities compete for local project funding from various federal aid highway programs. The TAC ranks funding applications, approves TIP amendments, recommends transportation planning policies and procedures, and discusses successes and challenges at these meetings. All recommendations from the TAC are forwarded to the Administrative Council and Executive Board for final consideration.
- Three (3) Administrative Council meetings, held in February, May, August and November in Benson, Arizona. The purpose of these meetings is to conduct SEAGO business, including recommending to the Executive Board the approval of funding applications, TIP approvals and other business relating to SEAGO programs.
- Four (4) Executive Board meetings, held in February, May, August and November at various locations throughout the region. The purpose of these meetings is to conduct SEAGO business, including the approval of funding applications, TIP approvals and other business relating to SEAGO programs.
- Four (4) combined Administrative Committee and Executive Committee meetings held telephonically. These committees are comprised of the officers of the Administrative Council and Executive Board. The purpose of these meetings is to conduct business in between regularly scheduled meetings of the Administrative Council and Executive Board, including recommending to the Executive Board the approval of funding applications, TIP approvals and other business relating to SEAGO programs.
- Seven (7) Cochise Connection Technical Advisory Committee meetings. The purpose of these meetings is to include local governments, transit providers, and regional stakeholders in the regional transit planning process.
- Nine (9) Willcox Healthy Community Meetings. SEAGO partnered with the Cochise County Health Department and the University of Arizona to host community meetings involving seeking solutions to transit issues in the Willcox area.
- Six (6) Douglas Healthy Community Meetings. SEAGO partnered with the Cochise County Health Department and the University of Arizona to host community meetings involving seeking solutions to transit and community issues in the Douglas area.
- Twelve (12) Training Workshops. SEAGO receives FTA Section 5310 funding to provide a rural Arizona Training Program. All trainings are open to the public free of charge and focus on improving transit safety, grant development, operations, and program management.

General Public Involvement Activities

In addition to the above, meetings and hearings are scheduled to provide the best opportunity for attendance by the general public and the underserved populations protected under Title VI whenever

possible. The meeting locations are convenient and ADA accessible. In addition to general meetings, events and activities, reasonable efforts are made to reach those who are particularly affected, the underserved, or others who request SEAGO come to them. These options are open to any group or individual and it is the policy of SEAGO to go where people are whenever possible. Locations and meeting times for these activities are designed according to the specific needs.

In order to help citizens better understand Transportation Planning, efforts are made to show how presented information specifically relates to the public in both the near future as well as long-term. Visualization enhancements such as color, animation, physical props, pictures, 3-D models, etc. are incorporated as appropriate and as budgets allow. Technical and policy information from SEAGO is written so that it is clear and understandable to the public. All relevant information is open for public consideration. Staff are made available to answer questions at meetings and respond to phone questions in a timely manner.

Opportunities for input vary depending on the project, program, or plan. For larger projects, such as a regional transportation plan, several rounds of public participation may be appropriate. A complete record of public comments is retained for public review. In specific cases, identified by federal regulations, public comments may be a part of the final document.

All transportation planning decisions are made by one or more groups of elected or appointed officials. The Technical Advisory Committee (appointed officials for transportation infrastructure) or the Review Panel (appointed officials for public transit projects) make recommendations for project funding which are then passed on to the Administrative Council (appointed officials), whose recommendation is finally voted on by the Executive Board (elected officials). Through this process, there are multiple public meetings which allow comments to be collected. Prior to each key decision point, ample opportunity is offered for input and that input is shared with the decision-makers. The final decision, however, is the responsibility of the elected officials, which is based on recommendations of the appointed officials and consideration of all related information.

Specialized Public Involvement Activities

In FY 19, in an effort to support our regional planning efforts, ***SEAGO conducted three specialized public involvement efforts to introduce the community to the region's public transportation services.***

- **Willcox Feasibility Study:** SEAGO was awarded a transit planning grant by the Arizona Department of Transportation to conduct a Willcox Transit Feasibility Study. The purpose of the study was to evaluate the feasibility of public bus service (FTA Section 5311) that would serve Willcox and possibly it's surrounding communities of Bowie, Cochise, Kansas Settlement, Pearce/Sunsites and Winchester Heights. SEAGO conducted Public Meetings to promote the new service options. Of those represented over 19 agencies attended these events.

The following table reflects the ethnicity and gender of these attendees:

ACTIVITY		ETHNICITY				GENDER	
Date	Name of a Activity	White	Hispanic	Native American	Other	Male	Female

III. TITLE VI TRAINING/TECHNICAL ASSISTANCE

Training

SEAGO staff are trained annually involving Title VI. Training will be provided by the Title VI Coordinator on August 5, 2019 to all SEAGO staff (14 people). Content includes the online location of the SEAGO Title VI Plan, the protected classes, the Title VI Coordinator contact information, our complaint procedures, and the online location of our Title VI Complaint Form.

SEAGO delivered FTA Section 5310 and FTA Section 5311 grant recipients with Title VI Training August 9, 2018 at the Regional Transportation Coordination Meeting. The training on Title VI was through a PowerPoint presentation. The goal is to ensure that our providers are aware of the purpose of Title VI, the protected classes, and the Title VI complaint process. The Training was attended by 27 people representing FTA Section 5310/5311 agencies. SEAGO also provided a refresher of the rules that apply to public meetings and Title VI at the October 11, 2018 and February 14, 2019 Cochise and Santa Cruz County Transportation Coordination Meeting.

SEAGO participated in ADOT's FHWA and FTA ADA Title VI Implementation Plan Webinar on November 13, 2018.

Technical Assistance

Title VI is a routine agenda item for our Transit Coordination Meetings. During these meetings, SEAGO discusses current Title VI issues with our 28 agency coordination group. We offer an opportunity to ask questions and to clarify information. **SEAGO provided technical assistance to 11 FTA Section 5310 and 5311 grant applicants in the development and/or update of their plans.** SEAGO assisted ADOT in distributing and following up on discrepancies noted in ADOT plan reviews.

IV. PROGRAM AREA REVIEWS

In 2019, SEAGO conducted three (3) program area reviews:

1. Website – SEAGO reviewed its Title VI website to ensure necessary documents were available. The site was checked for the Public Notice, Complaint Procedures, Title VI Plan, Complaint Form, Goals and Accomplishment Report were present and accessible. Ensured Title VI Coordinator Information was accurate and easily accessible. No issues were found.
2. Public Meeting Notices – Public meeting notification processes were reviewed to ensure meetings notices were posted in a timely manner, that meeting notices and agendas are distributed via email to agencies that provide direct services to Title VI protected populations, and that the following statement is conveyed on each meeting agenda in both English and Spanish: “Individuals with disabilities who require special accommodations may contact Jessica Urrea at (520) 432-5301 extension 215 at least 72 hours before the meeting time to request such accommodations.” No issues were found.
3. Outreach Materials – SEAGO reviewed several outreach materials developed to ensure that they were provided in both English and Spanish. No issues were found.

V. LIMITED ENGLISH PROFICIENCY (LEP)

Demographic information from the April 1, 2010 Census indicates that approximately 43 percent of the region's population are Hispanic or Latino of any race. According to the American Community Survey (5-year selected population tales, Table DP-2), there were 70,923 people in the SEAGO region (or approximately 32% of the region's population) who reported that they spoke Spanish in the home. Of those individuals, only 22,569 (or approximately 10.25% of the region's population) reported that they spoke English less than very well.

This data indicates that while a large number of individuals in the region are Spanish speaking, the percentage of those who may be rated as Limited English Proficiency (LEP) is relatively small. This data also suggests that there are an abundance of Spanish speaking individuals available to assist other Spanish speakers with issues of public interest, such as understanding activities and proposed projects that may impact their quality of life.

SEAGO assists persons with limited English proficiency to actively participate in the transportation planning process. In order to ensure effective communication, SEAGO makes every effort to provide Spanish translators and document translation, where feasible, upon timely request. SEAGO also provides assistance to other LEP populations or individuals who are hearing or visually impaired, upon timely request. These materials and services, i.e. special translations, interpretation or sign language services, large prints, Braille, audio/video cassettes (as appropriate), will be produced when required. However, due to the time and expense required to develop such materials or services, this will only be done upon request and a minimum of two weeks' notice must be provided to ensure timely arrangements or preparation of such services or materials.

Careful consideration is given to the potential impacts from SEAGO's specific planning activities to the underserved populations. Only when the scope of a proposed project or plan has the potential to significantly impact individuals with language barriers or special needs will pertinent materials or

services be prepared in alternative formats without having been specifically requested, i.e. special language translations, interpretation or sign language services, large print, Braille, audio/video, etc. ***In FY 2019, SEAGO received no requests for LEP services.***

VI. PUBLIC PARTICIPATION DATA
