Introduction

Federal Transit Law requires that projects selected for funding under the Elderly Individuals and Individuals with Disabilities (Section 5310) programs be derived from a locally developed, coordinated public transit-human services transportation plan. The purpose of the plan is to identify the transportation needs of individuals with disabilities, older adults, and people with low incomes, provide strategies for meeting these needs, and prioritize transportation services for funding and implementation.

SEAGO recognizes that the transit environment is dynamic and ever changing. As a result, SEAGO reviews and updates the plan on a bi-annual basis. This Plan Update includes updated regional demographic data, transit capacity building strategies, as well as updated information on new and existing transportation providers serving the transportation dependent and disadvantaged populations in the region.

SEAGO utilizes a process that includes representatives of public, private and nonprofit transportation and human services providers, elected officials, and public participation identify transit needs/service gaps and to establish priorities in order to make informative funding decisions for specialized transportation services.

This plan update will focus on the 2021-2022 State fiscal years and will be updated once again in January of 2023.

Title VI

SEAGO is committed to ensuring that no person is discriminated against on the grounds of race, color, national origin, sex, age, disability, limited English proficiency, or low-income status as provided by Title VI of the Civil Rights Act of 1964, The Civil Rights Restoration Act of 1987, Section 504 of the Rehabilitation Act of 1973, Americans with Disabilities Act of 1990 (ADA), Executive Order 12898 (Environmental Justice), Executive Order 13166 (Limited Proficiency), Code of Federal Regulations 49 Part 21, Code of Federal Regulations 23 part 200, and Code of Federal Regulations Part 303.

SEAGO strives to ensure nondiscrimination in all of its programs and activities, whether those programs and activities are federally funded or not. As a sub-recipient of federal funding, SEAGO is responsible for initiating and monitoring Title VI activities, preparing required reports, technical assistance and training. SEAGO's consultants must also comply with this policy. SEAGO's Title VI Public Participation and Implementation Plan can be found at <http://www.seago.org/title-vi.html>.

Regional Coordination Meetings

Cochise/Santa Cruz Counties - 2nd Thursday, bi-monthly at 10am in Benson

Graham/Greenlee Counties - 2nd Tuesday, bi-monthly at 10am in Safford

All County Regional Meeting – Bi-annually in January and September

Meeting schedules, agendas and minutes are available at seagomobility.org

THE FEDERAL TRANSIT ADMINISTRATION (FTA)

Federal Transit Administration (FTA) Section 5300 Rural Public Transportation Programs provide funds for capital, administrative, operating, and training assistance to local public bodies and nonprofit organizations for the operation of public transportation services in non-urbanized areas. The following FTA Programs are available in the SEAGO Region:

Section 5310 – Enhanced Mobility for Seniors and Individuals with Disabilities

The purpose of the Section 5310 Program is to improve mobility for seniors and individuals with disabilities by removing barriers to transportation service and expanding transportation mobility options. This program supports transportation services planned, designed, and carried out to meet the special transportation needs of seniors and individuals with disabilities in all areas – large urbanized (over 200,000), small urbanized (50,000-200,000), and rural (under 50,000). Eligible projects include both traditional capital investment and nontraditional investment beyond the Americans with Disabilities Act (ADA) complementary paratransit services. SEAGO has over 15 programs that receive Section 5310 funding.

Section 5311- Rural Area Formula Grants

This program provides capital, planning, and operating assistance to states and federally recognized Indian tribes to support public transportation in rural areas with populations less than 50,000, where many residents often rely on public transit to reach their destinations. It also provides funding for state and national training and technical assistance through the Rural Transportation Assistance Program. Benson, Bisbee, and Douglas operate 5311 programs within the SEAGO Region.

Section 5307 - Urbanized Area Formula Grant

The Urbanized Area Formula Funding program (49 U.S.C. 5307) makes Federal resources available to urbanized areas and to Governors for transit capital and operating assistance in urbanized areas and for transportation related planning. An urbanized area is an incorporated area with a population of 50,000 or more that is designated as such by the U.S. Department of Commerce, Bureau of the Census. Sierra Vista is the only 5307 operator within the SEAGO Region.

SEAGO AND REGIONAL MOBILITY MANAGEMENT

SEAGO is a regional planning agency which performs and coordinates a variety of functions. Established in 1972, SEAGO is a 501(c) 3, nonprofit organization whose mission is to assist local governments in seeking cooperative solutions to area wide problems; to provide a forum for regional policy development and serve as a coordinating link between municipal, county, tribal, state, and federal agencies. SEAGO is one of six Arizona Councils of Governments (COGs). SEAGO serves the four counties of Cochise, Graham, Greenlee, and Santa Cruz. Together they comprise 13,946 square miles of rural area with per capita income below the state and national averages.

SEAGO's Regional Mobility Management program is a result of federal and state mandates for increased coordination efforts with a focus on expansion of services and greater cost efficiencies. The goals and objectives of the program include:

- Provide greater public access to transportation and transportation information;
- Provide support to existing local mobility managers and transportation providers;
- Identify ways to fill gaps in the provision of transportation services;
- Identify ways to ease barriers and reduce costs for transportation providers;
- Act as a conduit between transportation providers and transportation funders; and
- Act as an advocate for the development of federal, state, and local policy that supports the advancement of rural transportation opportunities and stated goals.

Within the SEAGO region, local governments and human services providers have come together in an effort to maximize scarce resources and build efficiencies that will better serve the residents of the area. In that same spirit, providers of public transit programs and special needs transportation services have conceived this coordination plan as a means to establish and improve transit and transportation services for the four county regions. This Coordination Plan was developed by the SEAGO Transportation Department in cooperation with transit and transportation providers throughout the region. The Plan has been approved by the SEAGO Executive Board and updates are submitted to ADOT on an annual basis.

GOALS OF THE COORDINATION PLAN

The SEAGO Region Transit/Transportation Coordination Groups coordinate their efforts and communications in order to provide information and guidance to federal, state and local government officials as well as transportation/transit service providers for the purposes of policy development, decision making, and investments needed to create greater efficiencies, build capacities and address gaps in service.

In addition, the Coordination Plan serves as a catalog of transit and transportation services available in the region. Its content is made available on the SEAGO website www.seagomobility.org for use by the general public and by organizations serving persons in need of transit/transportation services.

As funding priorities shift during this uncertain economy, information shared on a region wide basis enables smaller agencies to coordinate with larger providers to cover gaps in service, and for all members to implement the best usage of monies, equipment, and personnel.

While each member organization has its own goals and objectives for its transit/ transportation programs, common issues are often served by collective solutions. The goal of this coordination plan can be summarized more simply as *a desire to meet the transit/transportation needs of the region's citizens in a safe, reliable, accessible manner that maximizes the use of resources and minimizes the cost to provide said services.*

THE COORDINATION PROCESS

Coordination meetings are held in Cochise/Santa Cruz, Graham/Greenlee Counties each quarter. These Coordination groups consist of public and human services transportation providers, local elected public officials, local government representatives, the general public, social service and faith-based agencies that represent the elderly, individuals with disabilities, veterans, low income, domestic abuse, and youth programs. In addition, ADOT staff participates in Coordination meetings at various times throughout the year and provide valuable guidance, data, and resources. ADOT also supports the coordination effort by holding statewide meetings and conferences that allow providers to learn about and model other successful programs.

These meetings provide an opportunity for rural area governments and organizations to discuss ways they can improve their services and share information pertinent to the success of their transit operations. They are able to share resources through program management and driver training, vehicle maintenance and repair, route coordination, program planning, and funding strategies. In addition, organizations work together to determine how to fill gaps in rider services, and to conduct geographic outreach.

The Regional Mobility Manager and Assistant Regional Mobility Manager facilitate meetings in Cochise, Santa Cruz, Graham/Greenlee Counties, disseminate information to members, assist in identifying gaps, and encourage collaborative efforts.

Bi-Annually, each coordination group come together to form the Regional Coordination Council. It is at these meetings that short-term planning strategies and priorities are developed to address the transit needs of the Region. This group reviews and provides updates to the Human Services Transportation Coordination Plan. New members are added to the Plan and organizations no longer active are removed from the Plan. Each organization is given an opportunity to update their own efforts and the combined efforts of the group are recorded in the Plan. The process includes an update of the regional needs assessment, a review of and update of regional transit goals, capacity building and gap filling strategies, and the establishment of Regional Funding Priorities for the 5310 grant cycle.

TRANSIT NEEDS ASSESSMENT

The core of the coordinated mobility planning process is the needs assessment. The needs assessment focuses on the identification and assessment of community transportation needs comparative to available resources. The purpose of this process is to help the public set goals, identify outcomes, develop strategies, and establish a network of transportation services that will meet customer and community needs.

The coordinated mobility planning process focuses on specific population groups that are more likely to be dependent on public transit and/or specialized transportation. These groups are often defined as transit dependent and include:

- **Elderly:** This includes all individuals 65 years of age or older.
- **Individuals with disabilities:** The FTA defines disability as “with respect to an individual, a physical or mental impairment that substantially limits one or more of the major life activities of such individuals. The phrase major life activities means functions such as caring for one's self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning, and work.”
- **Below poverty level:** This includes individuals whose family income is at or below the poverty line threshold.
- **No Vehicle Available:** This includes individuals who have no vehicle available at home.

TRANSIT DEPENDENT POPULATION DATA

To better understand the transit needs and demand for services of our transit dependent population, demographic data was collected for each county. This data illustrates how transit dependent population groups are represented throughout the region in order to provide an understanding of the transportation needs that the Coordination Plan attempts to address. The sources for these datasets include the 2020 U.S. Census and the 2021 American Community Survey (ACS) Estimates. The following table reflects the data collected along with a 5-year demand estimates:

Cochise County: Population 125,092					
Population Type	2022	2023	2024	2025	2026
Over Age 65	28,146	28,427	28,711	28,998	29,288
Disabled	12,894	13,023	13,153	13,285	13,418
Below Poverty Level	16,872	17,041	17,211	17,383	17,557
No Vehicle Available	6,991	7,061	7,132	7,203	7,275
Cochise Totals	64,903	65,552	66,207	66,896	67,538
Unduplicated Totals*	40,240	40,642	41,048	41,476	41,874

Graham County: Population 38,145					
Population Type	2022	2023	2024	2025	2026
Over Age 65	5,283	5,336	5,389	5,443	5,497
Disabled	4,937	4,986	5,036	5,086	5,137
Below Poverty Level	6,940	7,009	7,079	7,150	7,222
No Vehicle Available	2,913	2,942	2,971	3,001	3,031
Graham Totals	20,073	20,273	20,475	20,680	20,887
Unduplicated Totals*	12,455	12,569	12,695	12,822	12,950

**An individual may be reflected in more than one category. The unduplicated totals extract double counting of this data.*

TRANSIT DEPENDENT POPULATION DATA (Cont)

Greenlee County: Population 9,542					
Population Type	2022	2023	2024	2025	2026
Over Age 65	1,230	1,242	1,254	1,257	1,270
Disabled	1,114	1,125	1,138	1,150	1,163
Below Poverty Level	1,097	1,108	1,120	1,131	1,142
No Vehicle Available	142	144	146	148	150
Greenlee Totals	3,583	3,619	3,658	3,686	3,725
Unduplicated Totals*	2,221	2,244	2,268	2,285	2,310

Santa Cruz County: Population 47,463					
Population Type	2022	2023	2024	2025	2026
Over Age 65	7,636	7,712	7,789	7,867	7,946
Disabled	6,247	6,309	6,372	6,436	6,500
Below Poverty Level	10,216	10,318	11,053	11,164	11,275
No Vehicle Available	2,781	2,809	2,837	2,865	2,894
Santa Cruz Totals	26,880	27,148	28,051	28,332	28,615
Unduplicated Totals*	16,667	16,832	17,392	17,566	17,741

	2022	2023	2024	2025	2026
SEAGO Totals	115,439	116,492	118,391	119,594	120,765
SEAGO Unduplicated Totals*	71,583	72,287	73,763	74,149	74,875

*An individual may be reflected in more than one category. The unduplicated totals extract double counting of this data.

The following table illustrates need in relation to percentage of county population:

County	Total Population	Transit Dependent	Percentage Transit
Cochise	125,092	40,240	32%
Graham	38,145	12,455	33%
Greenlee	9,542	2,221	23%
Santa Cruz	47,463	16,667	35%
SEAGO Region	220,422	71,583	32%

TRANSIT NEEDS SUMMARY

There are nine US States that have fewer square miles than the SEAGO region. Sierra Vista is the largest city in Cochise County with a population of nearly 50,000. Nogales, in Santa Cruz County, is its largest city with 21,688. Safford is the largest city in Graham County with a population of 10,269. Morenci and Clifton have a combined population of over 6,000 in Greenlee County. With a large geographical service area, and sparsely populated spaces that have a significant population of baby-boom generation and elderly, transportation needs within the SEAGO region are significant.

Within the region there are three FTA Section 5311, fixed route transit services, one each in Benson, Bisbee, and Douglas. The City of Willcox operates an FTA Section 5311 Dial-a-Ride Program. The City of Sierra Vista operates a FTA Section 5307 fixed route transit system. All of these programs are located in Cochise County. There are no fixed route systems in Santa Cruz, Graham or Greenlee Counties.

Within the Section 5310 (Coordinated Mobility Program), the most often cited use of transportation is for health care, followed by access to shopping, appointments, and food/ nutrition. Access to jobs and job training are most often used by consumers with developmental disabilities and those who are seeking rehabilitation services.

As funding resources become scarce, funding priorities become more difficult. It is agreed that all transportation programs in the SEAGO region are important, valued, and essential to maintaining basic services and adding quality to the lives of riders who routinely depend on it. Programs that combine efforts, serve multiple client bases and/or serve large sections of the region will receive funding priority. New programs will be considered for recommendation only if they fill identified gaps in service.

Ridership numbers are going up across the region. With rising pressures on both sides (reduced funding and increased ridership), municipalities and organizations providing transit and transportation services will see greater unmet needs and ultimately larger gaps in service provision.

The SEAGO Region's senior population is highly dependent on "all-volunteer" programs such as the Sierra Vista Interfaith Caregiver Program (VICaP), Valley Assistance Services, and Senior Citizens of Patagonia. High operating costs are limiting program effectiveness. These programs are in need of operating funds to maintain service levels of over 20,000 riders annually.

Identifying efficiencies, potential for cost reductions, and opportunities for greater connectivity are priorities for the coming years in the SEAGO region. Without success in these areas, the region is at great risk of losing ground and ultimately losing essential transit/transportation.

IDENTIFICATION OF TRANSIT NEEDS

To identify transit needs, SEAGO collects information and data from a range of sources. This includes:

- US Census Bureau Demographic Data
- Regional and Local Transit Coordination Meetings and Surveys
- Local FTA Section 5307/5311 Technical Advisory Committee Meetings
- SEAGO Transportation Advisory Committee Meetings
- County developed Community Health Improvement Plans (CHIP) and meetings
- Area Agency on Aging – Area Plan on Aging
- State and Regional Transit Planning Studies
- Regional Public Transit Feasibility Studies

In the past 6 years, three (3) Transit Feasibility Studies were conducted in the SEAGO Region.

The Graham County Feasibility Study conducted by Mobility Planners LLC focused on service that connected the communities of Safford, Thatcher, Pima, and the unincorporated areas of Graham County immediately adjacent to these communities. Mobility Planners, LLC concluded that there is a significant need for additional public transportation in Graham County. The qualitative input from key stakeholders was unanimous on the need for public transportation. Based on national research the total need for transit, including both public transportation and human service agency transportation is approximately 257,000 annual trips. The following are locations that were consistently mentioned by stakeholders and focus group participants as key destinations for a transit service:

- Access to Eastern Arizona College
- Access to Medical Facilities
- Access to Shopping
- Access to Downtown Safford
- Access to Social Service Offices

The Cochise County Intercity Route Feasibility Study conducted by Moore & Associates focused on connecting service between the communities of Benson, Bisbee, Douglas, and Sierra Vista. Moore & Associates collected data from over 800 participants through public survey tools and public meetings. More than half of all respondents indicated Sierra Vista as the most common travel destination. 73 percent of the respondents indicated that would use a bus service between Douglas/Bisbee and Sierra Vista. 60 percent of the respondents indicated that they would use a bus service between Benson and Sierra Vista. The feasibility study found a high demand for interconnecting bus service. The most common needs for service were:

IDENTIFICATION OF TRANSIT NEEDS (cont)

- Access to Medical Services
- Access to Cochise College
- Access to Shopping
- Access to Work

The Willcox Feasibility Study conducted by SEAGO focused on Dial-a-Ride service in Willcox and the surrounding communities located in northeastern Cochise County. The most common needs for service were:

- Transportation to Employment
- Transportation to Shopping
- Transportation to Medical Appointments

Each of these studies can be accessed at www.seagomobility.org

GOALS OF THE COORDINATION PLAN

The SEAGO Region Transit/Transportation Coordination Groups coordinate their efforts and communications in order to provide information and guidance to federal, state and local government officials as well as transportation/transit service providers for the purposes of policy development, decision making, and investments needed to create greater efficiencies, build capacities and address gaps in service.

In addition, the Coordination Plan serves as a catalog of transit and transportation services available in the region. Its content is made available on the SEAGO website www.seagomobility.org for use by the general public and by organizations serving persons in need of transit/transportation services.

As funding priorities shift during this uncertain economy, information shared on a region wide basis enables smaller agencies to coordinate with larger providers to cover gaps in service, and for all members to implement the best usage of monies, equipment, and personnel.

While each member organization has its own goals and objectives for its transit/ transportation programs, common issues are often served by collective solutions. The goal of this coordination plan can be summarized more simply as *a desire to meet the transit/transportation needs of the region's citizens in a safe, reliable, accessible manner that maximizes the use of resources and minimizes the cost to provide said services.*

THE COORDINATION PROCESS

Coordination meetings are held in Cochise/Santa Cruz, Graham/Greenlee Counties each quarter. These Coordination groups consist of public and human services transportation providers, local elected public officials, local government representatives, the general public, social service and faith-based agencies that represent the elderly, individuals with disabilities, veterans, low income, domestic abuse, and youth programs. In addition, ADOT staff participates in Coordination meetings at various times throughout the year and provide valuable guidance, data, and resources. ADOT also supports the coordination effort by holding statewide meetings and conferences that allow providers to learn about and model other successful programs.

These meetings provide an opportunity for rural area governments and organizations to discuss ways they can improve their services and share information pertinent to the success of their transit operations. They are able to share resources through program management and driver training, vehicle maintenance and repair, route coordination, program planning, and funding strategies. In addition, organizations work together to determine how to fill gaps in rider services, and to conduct geographic outreach.

Assessment of Needs by Population

Based upon the data collected through our regional feasibility studies and information gathered through numerous public meetings, the following are our Regional needs based upon populations:

Special Needs Population: This includes transportation needs for developmentally disabled, persons with physical disabilities, persons addressing mental health issues, and the elderly. Primary transportation needs for this population include:

- Health Care
- Food & Nutrition
- Jobs and Job Training
- Shopping, Social, and Recreational

Gaps include operating funds for existing 5310 programs sufficient to meet demand. Additional efforts to coordinate with Area Agency on Aging and with Health and Human Services agencies are a priority.

Low Income Population: This includes transportation needs for those whose income is at or below 80% of area median income and for those who are working with State and local agencies to meet sustainable income goals. Primary transportation needs for this population include:

- Access to Jobs
- Access to Job Training
- Access to Health Care
- Access to Food and Nutrition
- Access to Shopping

The lack of transit connections to other communities is a significant barrier to employment, health, and education.

Assessment of Needs by Population (cont)

Elderly Population: This includes transportation needs for those who are age 65 and over. Primary transportation needs for this population include:

- Access to Local Health Care
- Access to Veteran Healthcare in Tucson
- Access to Medical Specialists in Tucson
- Access to Food and Nutrition
- Access to Shopping
- Access to Social Activities

General Public: This includes all other persons requesting transportation services. Primary transportation needs for this population include:

- Access to Jobs
- Access to Health and Human Services
- Access to Education
- Access to Shopping
- Connections to other communities
- Access to Social and Recreation Activities

Gaps include fixed route service in Nogales, Safford, and Willcox, and connector services between communities. Additional efforts to coordinate intercity route possibilities with 5311 providers are a priority.

SEAGO REGION NEEDS BY POPULATION

LOW INCOME

- Access to Jobs
- Access to Job Training
- Access to Healthcare
- Access to Food and Nutrition

ELDERLY

- Access to Local Healthcare
- Access to Veteran Healthcare in Tucson
- Access to Medical Specialists in Tucson
- Access to Food & Nutrition
- Access to Shopping
- Access to Social Activities

SPECIAL NEEDS

- Access to Healthcare
- Access to Food & Nutrition
- Access to Jobs and Job Training
- Access to Shopping, Social and Recreation

GENERAL PUBLIC

- Access to Jobs
- Access to Health and Human Services
- Access to Education
- Access to Shopping
- Connections to Other Communities
- Access to Social and Recreational Activities

ASSESSMENTS OF NEEDS BY GEOGRAPHICAL AREA

Based upon the data collected through our regional feasibility studies and information gathered through numerous public meetings, the following are our Regional needs based upon geographic area:

Cochise County:

- Connecting service between Benson and Sierra Vista
- Local Service for Huachuca City and Tombstone
- Connecting service between Huachuca City and Sierra Vista
- Connecting service between Tombstone and Sierra Vista
- Connecting service between Elfrida and Douglas
- Service from outlying areas to Willcox

Graham and Greenlee Counties:

- Fixed route service in Safford
- Connecting service between Safford, Duncan, Clifton, and Morenci
- Connecting service between Safford and San Carlos Reservation

Santa Cruz County:

- Fixed route service in Nogales
- Connecting service between Nogales, and Rio Rico, Tubac, and Green Valley
- Connecting service between Nogales, Patagonia, and Sonoita

TRANSPORTATION SERVICE GAPS

The SEAGO Region currently has 356 miles of public transportation access gaps that separate rural areas from our population centers that provide essential medical, food, social, shopping, and job access. The following map illustrates the current public transportation network within the SEAGO Region. Roadways outlined in blue indicate existing service. Roadways outlined in green indicate a planned route that is scheduled to begin service in 2021. Roadways outlined in red indicate areas in which no access to public transportation is provided.

- Yes
- No
- Limited
- Planned

TRANSPORTATION CAPACITY BUILDING AND GAP CLOSING STRATEGIES

The following are the 5-year planning strategies (2022-2026) developed during the 2022 coordination planning process. The intended purpose of these strategies is to increase public access to transportation services through capacity building efforts.

Strategy #1: Development of a Regional Transit Emergency Coordination Plan

Purpose/Status: During the initial statewide lockdown in March of 2020, a significant gap between emergency planning and transit operations was identified. It was found that many of our FTA Section 5311 and FTA Section 5310 providers lacked emergency planning tools and protocols to not only address pandemic issues, but lacked basic procedures to address a variety of potential internal and external emergencies. This resulted in transit services being delayed or stopped. A need for an emergency plan template that can be customized by provider was identified as a top priority. In addition, the development of a Regional Transit Emergency Coordination Plan that incorporates resource sharing and local emergency planning into a regional plan was also identified as a high priority. In 2021, SEAGO was awarded a planning grant to develop this plan. The plan is in the final stages of development. The Draft Plan has been uploaded to www.seagomobility.org and is undergoing a 60 day public comment period. The plan is expected to be in place by October 2023.

Strategy #2: Pursue Fixed-route Service in Santa Cruz County

Purpose/Status: The City of Nogales (21,668) and the adjacent unincorporated community of Rio Rico (21,007) have a combined population of 42,675. 37% of the population is within 150% of poverty level. This is one of the largest communities in the State without fixed transportation service. The City of Nogales operates limited transit services (Nogales Rides). The program provides limited dial-a-ride transportation services to senior citizens, developmentally disabled, special needs or physically impaired people. Currently Rio Rico has no transportation services. The pursuit of funding to develop a feasibility study was identified by the Regional Coordinating Council has a high priority. In March 2023, SEAGO secured a grant in the amount of \$95,000 to conduct a feasibility study for the area. The Study will kick off in July 2023.

Strategy #3: Pursue a FTA Section 5311 Program in the Safford area

Purpose/Status: Currently the area has one FTA Section 5310 provider. That program focuses its transportation efforts on the disabled and the elderly. There are no transportation programs that provide service to low income populations and the general public. ISEAGO partnered with Graham County to secure an Arizona Department of Transportation Planning Assistance for Rural Areas (PARA) grant to conduct the Graham County Transit Feasibility Study. The study was completed in April 2016. The study demonstrated a high need and demand for service. However, efforts to implement the program stalled due to the inability to secure local government match funding for the project.

TRANSPORTATION CAPACITY BUILDING AND GAP CLOSING STRATEGIES (cont)

In 2017, SEAGO partnered with Easter Seals Blake Foundation (ESBF) to develop a community transportation project that provided limited transit services in Graham and Greenlee Counties. SEAGO is currently in the process of updating the feasibility study to find alternatives to the recommendation made in the 2016 feasibility study. The focus of the study is a partnership between the San Carlos Apache Tribe (a current Section FTA Section 5311 program) and ESBF to develop fix route services that will serve Safford, Pima and Thatcher. The study is expected to be completed in October 2023.

Strategy #4: Develop Intercity Service to Tucson

Purpose/Status: Almost all transit needs surveys conducted in the SEAGO region over the last 5 years have identified connecting service to Tucson as a significant need/gap in service. Access to the VA and medical specialist were commonly listed as transportation needs. This issue was exasperated during the COVID emergency. Greyhound was providing limited service from Cochise County to Tucson prior to COVID. The service was canceled in FY2021 due to low ridership. In FY24 SEAGO will engage local and national transit providers to identify solutions for this gap in services.

Strategy #5: Continued Development of the Huachuca City/Tombstone Public Transit Program

Purpose/Status: From 2008 to 2014, Huachuca City operated a FTA Section 5310 program that provided residents of Huachuca City and Whetstone daily transportation to medical, shopping, and recreation services in Sierra Vista. From 2015 to 2018, Huachuca City self funded a transit program that provided daily transportation to Sierra Vista. Due to budget issues Huachuca City closed its transit program in 2019. In 2020, Huachuca City received \$50,000 grant from the Legacy Foundation of Southeast Arizona to pilot a transit program for Huachuca City and Tombstone for 1 year. The grant was intended as a bridge to allow Huachuca City to pursue for FTA Section 5310 and/or FTA Section 5311 funding. The Regional Coordinating Council agreed that service in the Huachuca City/Tombstone area was critical to closing regional transportation gaps and set as a goal to support Huachuca City's efforts to pursue FTA funding. A FTA Section 5311 Feasibility Study has been included in the Sierra Vista MPO budget for FY24. SEAGO and our Regional Coordinating Council will actively support this project.

TRANSPORTATION CAPACITY BUILDING AND GAP CLOSING STRATEGIES (cont)

Strategy #6: Updated PASS Training Curriculum

The Regional Coordination Council identified Passenger Accessibility, Sensitivity, and Safety (PASS) as the top training need for the Region. SEAGO currently uses Community Transportation Association of America (CTAA) training curriculum and materials to deliver PASS training to the Region. CTAA has transitioned to an online training program. The coordination group strongly agreed that the online format was not meeting the training needs of their staff. The group felt that the training did not meet local training needs such as language barriers and volunteer driver programs. The Regional Council identified in-person training as critical to passenger safety, driver development, and capacity building.

Mobility Management Planning Priorities and Coordination Strategies

The Regional Coordinating Council was asked to identify priorities to help focus Mobility Management efforts for the Region. The following mobility management coordinating, funding and planning priorities resulted from the process:

Priority #1: Communications

- Sharing administrative resources including policies, procedures, and best practices;
- Continued support for Regional Mobility Management (Cochise, Santa Cruz, Graham, and Greenlee Counties);
- Expanded Mutual Aid Agreements with local governments and providers.

Priority #2: Efficiencies

Administrative:

- Insurance - shared or reduced costs;
- Updated and more locally specific PASS training;
- Ridership Tracking - Technology for tracking riders within a service area and particularly to track riders using multiple services across areas;
- Marketing – Identification of opportunities to joint market transportation programs;
- Local Title VI and DBE Training

Operating:

- Combining transportation programs that have similar missions and geographical locations,
- Fuel Purchases - collaborative purchasing - possibly using state contracts,
- Increased operating funds availability,
- Driver cross training and driver sharing agreements

TRANSPORTATION CAPACITY BUILDING AND GAP CLOSING STRATEGIES (cont)

Capital:

- Access to hybrid or green fuel vehicles,
- GPS tracking for vehicles,
- Bus pass/card readers to track ridership and transfers between organizations,

Priority #3: Improved Service

- Surveys of rider satisfaction,
- Review of routes and hours of operations to improve rider access when most needed,
- PASS Training, Defensive Driving Training for all drivers,
- Effective marketing to underserved populations and enhanced trip planning,
- Improved “How to Ride” information with greater outreach.

GAP CLOSING STRATEGIES

2021 - 2025

SEAGO REGION COORDINATED MOBILITY FUNDING PRIORITIES

The following are our regional funding priorities as identified through the regional prioritization process, Transportation Advisory Committee discussions, and discussions with local social service agencies and our Regional Section 5311 Public Transportation providers:

Operating Funding

As funding resources become scarce, funding priorities become more difficult. It is agreed that all transportation programs in the SEAGO region are important, valued, and essential to maintaining basic services and adding quality to the lives of riders who routinely depend on it. It is our goal to ensure that programs that serve the broadest client base and/or service area are giving the highest level of funding consideration. Operating requests should be considered in the following order:

1. Projects that have a broad mission that serve both the elderly and individuals with disabilities.
2. Projects that go “above and beyond” ADA requirements.
3. Continued funding of existing programs that lack a public transportation alternative.
4. Continued funding of existing programs that actively participate in regional coordination activities.
5. New programs that address regional service gaps.

Capital Funding

It is our regional goal to ensure that all regional vehicles are safe and in good operating order (state of good repair). Therefore, age and mileage will receive high priority in making any funding recommendations to ADOT. It is also important that program fleets are operated in the most cost effective manner possible. Therefore, fleet “right-sizing” is highly important. Therefore, an organization’s number of vehicles and annual ridership is considered prior to making recommendations to ADOT on replacement or fleet expansion. Capital requests should be considered in the following order:

1. Re-assign vehicles whenever possible.
2. Replacement of an existing program vehicle that has exceeded its ADOT identified “useful life”.
3. New vehicle requests will be considered only when they fill regional service gaps.

SEAGO REGION COORDINATED MOBILITY FUNDING PRIORITIES (cont)

Mobility Management

Mobility management has been recognized as an essential service to our transportation providers. It is a regional goal to create partnerships with transportation providers, social service agencies, government agencies and the general public in an effort to reduce costs, to enhance travel options, and to improve safety. It is also a goal to standardize program operations, training, and policy/ procedures, so that resources can be more effectively shared and program costs can be reduced. Mobility Management requests are considered in the following order:

1. Programs/projects that have the greatest impact to the region as a whole.
2. Sub-regional programs/projects that benefit a sub-section of the region.

Program Ranking Process

All of our Region's FTA Section 5310 programs are evaluated annually regardless of their intent to apply for funding. Points are awarded for their ability to meet the regional funding priorities as identified in the table below:

SEAGO REGION 5310 FUNDING PRIORITIES		
#	Priority	Point Value
1	Projects that have a broad mission that serves both the elderly and individuals with disabilities.	25
2	Projects that go "above and beyond" ADA requirements.	20
3	Continued funding of existing programs that lack a public transportation alternative.	15
4	Continued funding of existing programs that actively participate in regional coordination activities.	10
5	New programs that address regional service gaps.	5

SEAGO REGION COORDINATED MOBILITY FUNDING PRIORITIES (cont)

SEAGO believes that programs should be rewarded for efforts to build capacity, operate safely, actively participate in coordination, and effectively administer their program. Therefore, additional bonus points are awarded for the following activities:

- Ridership Increase
- Interagency Coordination Activities
- Training Attended
- Safety Measures Implemented
- Program Expansion/Capacity Building Efforts
- Program Outreach Activities
- Program Compliance

The points awarded in this process are incorporated into the scoring of final grant applications and make up 60 percent of the application scoring. The following is our 2021/2022 Project Scoring Matrix:

SEAGO REGION 5310 FUNDING PRIORITIES BY PROGRAM									
Project	Annual Riders	SEAGO FUNDING					Bonus	Total	Rank
		1	2	3	4	5			
VICaP	13,809	25	20	15	10	5	75	150	1

The City of Benson began delivering 5311 transit services in October 2010. Using a fixed route and a flex route the transit program provides riders with a reliable schedule as well as para-transit services through a dial-a-ride program that serves elderly and disabled riders who do not live near the fixed route stops.

Benson Area Transit currently serves the City of Benson and surrounding areas. Our mission is to build capacity with our transit system and partners to enhance Southeastern Arizona mobility.

The City of Benson recognizes the great need for a transit system in the San Pedro Valley and it relies heavily on grant funding from ADOT and the Area Agency on Aging to operate.

The City of Benson has participated in coordination efforts identified through regional coordination meetings. We currently partner with local government and non-profit agencies to increase the utilization of their services by providing needed transportation.

Moving forward, the City of Benson received funding to update our transit plan. With this update, BAT plans to expand the para-transit service by replacing the current DAR bus with 2 smaller vehicles. BAT needs additional operating funds to maintain and expand our service to the residents of Benson and surrounding areas and to train new and existing staff in the Transportation Program. BAT also needs additional administrating funds to expand and train support staff in the Transportation Program. Anticipated funding requests from SEAGO are \$30,000 each year for the next two years.

Identified unmet needs:

At this time, the residents of Benson and the surrounding areas have no way to get to the county seat of Bisbee and return the same day. Residents also need more regular and reliable transportation to Tucson for medical appointments.

The Mission of the City of Bisbee Transit Program is to provide transit services that benefit the residents of the City of Bisbee and the surrounding area. Its mission includes providing safe reliable and affordable transportation service which is cost-effective, reduces energy consumption and contributes to the culture and economic betterment of the residents of Bisbee and the surrounding area.

The Bisbee Bus Program is a deviated, flex-route transit program serving the community of Bisbee with connecting service to Naco, AZ and the Cochise Connections Route. It operates six days a week. Riders can request deviations from the route with a one-day notice and be picked up and dropped off if the location is within one mile of the route.

The City of Bisbee has contracted with Douglas Rides to run the day to day operations of the Bisbee Transit Program. The program uses 5311 funds for its deviated flex route service. Additional support to elderly riders and the disabled is received from SEAGO Area Agency on Aging.

Bisbee Bus staff meets quarterly with the regional Transportation Advisory Councils (TAC), including the City of Douglas TAC, City of Sierra Vista TAC, City of Wilcox, City of Benson, and the TAC Transit/Transportation Coordination group.

Identified unmet needs include operating funds to continue the existing transit program that serves elderly and disabled riders with reduced cost passes for service between Naco and Bisbee. Capital funds are being sought in 2022 - 2024 for a new (1) bus lift.

Douglas Rides is a deviated fixed route transit service in the City of Douglas. With service open to the general public, Douglas Rides operates 4 routes with 50+ stops throughout the City.

In addition to general public transportation, Douglas Rides provides the following services:

- An intercity bus service branded as the Cochise Connection providing a connection from Douglas to Bisbee, Palominas, Nicksville and Sierra Vista
- Contracts with Southeastern Arizona Government Organization (SEAGO Area Agency on Aging) to provide transportation to the elderly and the disabled in the following communities: Douglas, Pirtleville, Bay Acres, Elfrida, Bisbee & Sierra Vista.
- In the City of Douglas, Dial-A-Ride service is provided by the Douglas Rides program, and requires a 24 hour advance notice.
- Service to Elfrida is provided one day a week, every other week. Elderly and disabled clients are brought to Douglas for grocery shopping, nutrition services, and medical appointments.
- The Cochise Connection Route now includes transportation to elderly and disabled program
- Through an agreement with Cochise College, student transportation is provided 4 days a week along with an inter-city connection to the City of Bisbee.

Identified unmet needs include:

- Operating, capital and intercity funds to meet the growth expectations of the existing transit program, specifically intercity funds to connect with the proposed Greyhound route in Sierra Vista
- Additional funding for a half time non-CDL driver for the new Non Emergent Medical Transport (NEMT) program
- Planning funds for continued planning of a transit facility, implementation of NEMT program, matching grants application and Mexico bus line intercity connections.
- New transit facility to house our growing fleet and administration staff to better manage daily operations
- It is imperative that ongoing training is provided to ensure that drivers and administrative staff is knowledgeable and up to date on training requirements.
- Update fleet to include 2 new vehicles that will replace those with excessive mileage and worn out lift systems

The City of Douglas is an active participant in the Coordination efforts by regularly participating in the Cochise County Coordination meetings.

The goal of Vista Transit is to provide safe, efficient and reliable transportation service to the residents of Sierra Vista.

Located in Cochise County, Sierra Vista is the area’s largest City and is adjacent to Fort Huachuca Army Post. Designated as an urbanized area in 2014 with a continuous population of over 50,000, the City of Sierra Vista/Vista Transit receives operating and capital funding assistance from the Federal Transit Administration’s Section 5307 program. Local matching funds are provided from the City’s General Fund.

Vista Transit operates three fixed-routes during the week, as well as curbside para-transit services for the disabled. An eligibility review and advance reservations are required to use the para-transit service. A reduced fixed-route is operated on Saturdays. All routes operate on 60-minute loops that converge at the central transit station where passengers can transfer between routes. Due to staff shortages, service to Fort Huachuca has been suspended until further notice, and regular fixed routes have been reduced. Updated routes and schedules are available the City’s website or in person at the Transit Center.

The Cochise Connection service also meets at the Vista Transit Center providing connections to Bisbee and Douglas. Greyhound has suspended their two trips per day, seven days per week with service from the Transit Center to Tucson and Phoenix until further notice.

The City of Sierra Vista is a participant in the monthly Cochise County Coordination meetings, and provides intergovernmental agreements to cities and organizations that wish to utilize their maintenance and repair facilities.

The City of Willcox 5311 dial-a-ride transit service is open to the general public of Willcox as well as the outlying areas. Outlying areas include the towns of Sunsites/Pearce, Bowie, San Simon and unincorporated areas of Kansas Settlement and Winchester Heights. The service to residents provides for health and human services as well as shopping, education and recreation.

The mission of the Willcox Transit program is to empower the area's general public to expand their opportunities for education and work and improve their quality of life by providing reliable, accessible, and affordable transit services.

The City of Willcox Transit relies heavily upon a 5311 grant through ADOT to support its operations along with SEAGO Area Agency on Aging partnership. The City was awarded its 5311 grant funding for the fiscal year of 2022-2023 in October 2022.

The City of Willcox participates in coordination efforts through regional coordination meetings, training, additional resources, and operational strategies through existing transportation providers in the area. Identified

Unmet Needs Include:

- Enlarging the security fenced area to meet expansion of the service
- Bus barn to protect the vehicle assets
- Ride tracking software
- An additional bus to expand the program.

With a population of just around 1,600, Huachuca City is located approximately 10 miles from Sierra Vista and Ft. Huachuca. Over 51% of the city’s residents are elderly and/ or disabled individuals who have no means of transportation other than what is provided by The Town of Huachuca City.

While transportation services are provided primarily to the elderly and disabled, low income residents are invited to use the service as well. The program provides regular trips to Sierra Vista for grocery and general shopping, medical appointments, and connections to the Vista Transit program. The program also transports riders to the City Senior Center for daily meals and activities.

Drivers are paid transit staff and administrative and operations staff often hold other job titles within the city. Huachuca City staff regularly participates in the quarterly Cochise County Coordination meeting. Staff attends all 5311 TAC meeting in Cochise County.

Currently using Town General Fund for vehicle acquisition to support operations above and beyond the ADA requirements, the Huachuca City transportation program is a much-utilized program with significant growth potential.

Currently Huachuca City is also providing service to Fort Huachuca with transporting student soldiers around the installation for medical appointments, out processing, classes, as well as to the dining facility.

Identified unmet needs include:

- Increase service area to include the neighboring community of Whetstone.
- Operational funds
- Vehicle to replace (2003) high mileage vehicle.
- 15 passenger vehicles for service area increase.

Located in Douglas, a rural community located in southeastern Cochise County, Douglas ARC has been serving the community for the past 60 years. Douglas ARC’s mission is to support and involve citizens with developmental disabilities in the community. With a variety of programs, participants are guided in their efforts to learn, work, and live without undue restrictions while maintaining their safety and dignity.

With a highly trained staff, participants are guided in daily living activities. Douglas ARC has woven its transportation services into a trans-disciplinary approach with its clients. Using 5310 funds to purchase vehicles, Douglas ARC is able to provide a wide variety of services to consumers. Transportation is provided to appointments, medical care, shopping, and recreational outings.

In addition, a vocational program allows consumers to participate in meaningful employment opportunities. Staff transport participants to and from workplaces using trucks purchased from the past 5316 grant program.

Douglas ARC participates regularly in Transit/Transportation Coordination meetings. Jointly we are able to address transportation gaps and creative means of cost reduction. We are also able to consolidate our training programs, vehicle maintenance and repair. We also work closely with local transit providers when our services can complement other agency services.

Douglas Arc has identified needs for the next two years. In year one we are requesting Operating funds of \$25,000, Preventive Maintenance funds of \$30,000, plus a non-ramp mini-van. This van will replace our 2003 Chevy Venture.

In year two we have need for Operating funds of \$25,000, and Preventive Maintenance funds of \$45,000

Easterseals Blake Foundation is a 501 (c) (3) that provides Employment opportunities, community day programs, residential services, transportation and behavioral health services throughout Southern Arizona. BF's mission is to enable each individual served to discover and meet his/her maximum potential for independence, productive living and developmental growth. EBF has a history of providing innovative community services which enrich the lives of individuals we support.

EBF provides transportation that goes above and beyond ADA requirements and is based on the need of each individual. This transportation provides access to each individual's community in a safe and appropriate manner. We provide transportation management solutions that deliver the highest levels of quality and satisfaction to our consumers and partners, while making a continued effort to identify and address regional service gaps.

Due to the absence of cost-effective transportation providers, EBF works with SEAGO and with local transportation providers to build a network of transportation to outlying areas. EBF was at the forefront in developing a Mutual Aid Agreement with Graham/Greenlee Transit Coordination Team and has assisted in the development of several Memorandums of Understanding to provide back-up transportation. EBF has participated in the Rural Transportation Incubator grant to endeavor to build up ridership for older low-income adults throughout Greenlee County.

EBF attends all Area Transit Coordination meetings in the SEAGO area, works closely with the SEAGO regional Mobility Manager and coordinates with the other 5310 transportation providers in the region. EBF is endeavoring to use our ADOT vans to the full and maintain them in good working condition as long as it is feasible.

UNMET NEEDS:

- Capital funds to request replacing 3 cutaway vans, requesting a new maxivan.
- Capital funds for preventative maintenance for all of our fleet vehicles in the SEAGO area in order to maintain them in good condition.
- Operating Funds to assist in covering fuel, insurance and the rising cost of staff wages. We are requesting funds in order to continue providing a high level of service. SEAGO/AAA operating funds along with ADOT funding have enabled us to continue to grow the Community Transportation Program in the Rural Graham/Greenlee area and fill the gap in transportation services for seniors in Safford, Morenci, Duncan, Clifton, Thatcher, Pima and the unincorporated areas of Graham and Greenlee counties. With this program individuals are able to access essential services.

Graham County Rehabilitation Center (GCRC) promotes the welfare of individuals with developmental disabilities and/or physical limitations by supporting and teaching each individual so that they may have the opportunity to reach his/her full potential according to each one's unique abilities; that each person might be an integral part of home, family, and community, thereby giving purpose, meaning, and dignity to their life. GCRC, a nonprofit organization, has served individuals with developmental disabilities and/or physical limitations in rural Graham County since 1968. Individuals age 5 to seniors receive support in a variety of programs: Individual Designed Living Arrangements (IDLA) where they learn life skills and are transported to/from the grocery store, doctor, etc.; Adult and Children Day Programs and two supportive work sites where with the help of a job coach they learn job skills to secure local employment while earning a paycheck.

Transportation to GCRC's various programs are 'on demand' as each schedule is based on the needs of the individual and their families. Since there is no public transportation in Graham County, GCRC collaborates with other programs to provide transportation to social and community events for any individual with developmental disabilities and/or physical limitations. GCRC's fleet is also part of the Graham County Disaster and Pandemic plan.

GCRC programs are expanding capacity and the "on demand" transportation needs are increasing as a result of serving more individuals who need to get to and from work, from school to youth programs, employment and life skills learning opportunities, trips to grocery stores or doctor's appointments, etc.

Unmet transportation needs for GCRC include:

- Aging fleet = 15 out of 15 vehicles are over 5 years old
- Replace 4 vehicles (oldest and highest mileage)
- 2008 Chevy Uplander 223,520 miles
- 2012 Ford Econoline 215,000
- 2000 Ford Econoline 191,000
- 2007 Chrysler Town and Country Wheelchair van 260,000
- Additional operating funds because of higher fuel costs
- An increase in trips provided due to program expansion to include youth with developmental disabilities and higher participation in social events like Special Olympics

GCRC's HR Officer participates in the Graham/Greenlee Transportation Coordination bi-monthly meetings. GCRC has a written 'Back-Up Plan' MEMORIUM of UNDERSTANDING with agencies providing transportation trips in Graham County who are part of the coordination team. GCRC drivers are trained in PASS, CPR, First Aid, Defensive Driving, Behavior Management, giving medication, seizures, lifting and carrying, and in emergency procedures while transporting individuals in vehicles. GCRC has a PASS trainer on staff. At the present time GCRC staff drivers are also job coaches and/or support staff.

HOPE Inc. is a non-profit 501 (C) 3 organization that serves seniors and adults with mental health disabilities; including members with co-occurring developmental, physical or substance abuse related disabilities. HOPE Inc. programs include Community Outreach, Re-entry, Employment Services, Navigator & Peer Support, Counseling/Therapy, and Intakes in the regions we serve. HOPE is currently in the PAG, SEAGO/SVMPO, MAG, YMPO, NACOG and CYMPO regions. Our programs serve individuals enrolled in the Arizona public behavioral health system of care ACC Plans (Arizona Complete Health, Banner Health/UAHP), Care First and ALTCS – enrolled members (Banner Health/UAHP, UFC_ACC, UNHC_ACC). Services are provided through HOPE Inc. on a 1:1 basis or within groups led by certified peer specialists and counselors. Programs provide members with opportunities to enhance their mental health and wellness, achieve goals for personal growth and increase their ability to live as independently as possible in the community. Services include counseling, peer support, health groups, life skills, pre-vocational training, job coaching and transportation assistance to medical appointments, food resources, relieve isolation and to support members needs while they strive to enrich their lives. HOPE Inc. provides Reentry support and services in the seven regions we serve through coordination with Drug Court/Probation, Mental Health Care Court, Care Court, and Opioid addiction programs.

HOPE Inc. staff work in close collaboration with other local agencies to ensure transportation and other needs of our members are met. The staff participates in bi-monthly regional coordination meetings. All staff providing transportation services are required to complete driver training, CPR and First Aid training. They have also received training in psycho-social rehabilitation and peer support.

An Opioid Outreach program for individuals who are either un-insured or under-insured and living with an Opioid Use Disorder (OUD). Individuals identified are provided transportation and assistance in accessing Medically Assisted Treatment (MAT) services. The Community Re-Entry Team provides diversion and re-entry services for individuals being released from incarceration and those who are identified as being eligible or in need of behavioral health services. Staff provide peer support, transportation and assist with completing applications for AHCCCS.

Individuals identified are provided transportation and assistance in accessing Medically Assisted Treatment (MAT) services. The Community Re-Entry Team provides diversion and re-entry services for individuals being released from incarceration and those who are identified as being eligible or in need of behavioral health services. Staff provide peer support, transportation and assist with completing applications for AHCCCS. The Peer After Care Team (PACT) provides peer services for individuals coming out of a crisis or hospital setting and works with these individuals for up to 45 days, providing in-home and community-based services. The Warm Line is an over the phone support line available to all residents of Southern Arizona. Staff provide peer support and resources to individuals over the phone.

Members can engage in therapeutic, recovery services and employment services from:

- 8 AM -4 PM Monday through Friday
- 9 AM – 2 PM Saturday (Pima and Yuma counties)

HOPE’s unmet needs in the SEAGO region include: Requesting maintenance funds for vehicle repairs and maintenance as well as operating funds to support additional drivers and the coordinator to help facilitate the fleets regular maintenance, documentation, and reporting requirements. The need for services is increasing quickly and there is a need for more vehicles as the census increases post-COVID. The support of capital, preventive maintenance, and operational funding to meet the subsequent increase in trips, mileage, fuel and increased overall costs is important to HOPE’s on-going mission to serve those in need.

Horizon Health and Wellness is a non-profit 501(c)(3) integrated health care agency licensed by the State of Arizona to provide an array of inpatient, outpatient and residential behavioral health services in Pinal, Gila and Yuma Counties, as well as Habilitation services in the counties of Cochise, Santa Cruz, Gila and Maricopa. The Agency’s mission is to provide integrated health care that addresses the whole person and promotes wellness using best practices to enhance the quality of life of the individuals, families and communities we serve.

Horizon Health and Wellness provides transportation services for registered participants to and from day treatment programs, therapy sessions, doctor’s appointments and other miscellaneous purposes. No fare is charged.

Horizon Health and Wellness operates day treatment programs in Sierra Vista and Nogales for individuals with intellectual and developmental disabilities. Community integration is an important element of their treatment in that it allows individuals with intellectual and developmental disabilities to participate in community events and activities. Transportation for these individuals to and from their home, the day program, and community events is essential.

Horizon Health and Wellness participates in the regional coordination meetings. The agency has the following needs:

2023:

- One van with lift, replacement (Sierra Vista)

2024:

- One van with lift, replacement (Sierra Vista)
- One 12-passenger van, replacement (Nogales)

San Carlos Apache Nnee Bich'o Nii Services operates ten scheduled routes with an increased variety of fixed route, commuter routes, contract services, and intercity and intercity feeder routes. We provide fixed route services with deviation for all community members.

Currently Nee Bich'o Nii provides reliable and timely services for individuals who are working, attending school, doctor's visit, shopping, attending activities for entertainment or any other activities that support individuals or families. Transit services are used to modernize and expand transit bus services specifically for the purpose of connecting disadvantaged low-income individuals, veterans, seniors, youth and others who are transit-disadvantaged to the local workforce training, employment opportunities, health care, and other vital services.

We are currently involved in the Greater Gila County Feasibility Study with ridership surveys to ensure that services are current and meeting the needs of the riders for Gila & Pinal Counties. Multiple surveys have concluded that there is a need/desire for us to provide expanded services to the White Mountain Apache Tribe in order for families to reunite and employment opportunities. We are also working closely with Cobra Valley Transit to provide services from Globe to Miami.

Identified unmet needs were completed by 2021:

- Completed-Updated fleet by 2021 to include 5 new vehicles that will replace those with excessive mileage-TAM Plan.
- Completed-Expand services to include the White Mountain Apache Tribe to assist those who are employed in that area and those without transportation to see family in that area. Identified unmet needs to be completed by 2024:
-
- FY2024-Expand the Safford Circular Route coordination of their elderly/disabled population.
- FY2034-Oro Valley Connector route to Tucson.

Mary's Mission is a behavioral health facility that provides therapeutic treatment to children ages 11-17 who are mentally, developmentally and behaviorally disabled. Transportation is provided to residents for schooling, medical appointments, counseling, employment and recreational activities. Mary's Mission Outpatient Clinic is located in Mesa, AZ and provides a variety of counseling services, DUI screening, education and treatment, supervised visitation and peer support to people of all ages.

Regular and ancillary support services provide transportation to Buena High School, Berean Academy, Carmichael Elementary, Joyce Clark Middle School, PPEP Tech High School and Cochise College. Transportation to each school is provided at least twice a day, five days a week during the school year, and occasionally in the summer. Some medical appointments, outings and client transportation take us as far as Tucson, Phoenix, the Yuma area, and Native American Nations across the State of Arizona and New Mexico. Recreational outings include taking residents to Bisbee, Tombstone and Phoenix, mostly during summer months and school breaks and holidays. Occasionally recreational outings are provided during the weekends. We provide transportation to and from placement agencies throughout AZ and NM. There are no fees associated with the transportation to residents and family. Mary's Mission continues to work closely with the local Dream Center, various sports organizations, and other agencies from the Sierra Vista and Mesa areas to help serve their transportation needs, too.

Staffs from Mary's Mission have been regular participants in the Cochise County transit meetings. Discussions and actions regarding cost saving measures, coordination of services and means to better serve all clients and the general community to prove invaluable to our non-profit agency.

Identified unmet needs include:

- 12 passenger van to accommodate resident and family transports to our Outpatient Clinic in Mesa, and court hearings in Maricopa and Pima County.

Since 1995 The Mount Graham Safe House has provided crisis intervention, assessment, advocacy and referral as needed, conducted in a safe, secure and confidential environment. Service is provided to women and men needing services. It is the only facility of its kind in Graham County.

MGSB provides advocacy, emergency housing, transitional housing, clothing, food, school supplies, furniture, local transportation, self-help groups, parenting classes, job skills classes, a children’s domestic violence education program to resident and non- resident clients and mobile advocacy (go to clients and provide service). MGSB Battered Immigrant Women Coordinator organizes local agencies to provide training on the issues battered immigrant women face.

Mount Graham Safe House provides transportation to and from the Safe House for job services, medical appointments, counseling, legal services and other needs.

Coordination efforts include regular attendance at the Graham/Greenlee coordination meetings. Mt. Graham Safe House now has a mobile advocacy service. What does this mean for the community? Anyone who is in an abusive situation can call MGSB to have an advocate meet them in a public, but private place. We can even pick up the victim from their home and transport them to anyone that would like to talk in person, but doesn’t have transportation or is uncomfortable coming to the shelter to talk. An advocate will meet the participant at an agreed location. MGSB also provides case planning, safety planning, and resources, lay legal advocacy, and support groups.

Identified unmet needs include:

- Operating funds to support the existing transportation program for disabled and elderly clients.
- Replacement vehicles for our aging fleet.
- Preventative Maintenance Money.

Pinal Hispanic Council is a non-profit 501 (c) (3) behavioral health agency licensed by the State of Arizona to provide an array of outpatient services in Pinal, Santa Cruz, and Cochise Counties. Pinal Hispanic Council has been in operation for over twenty years. Pinal Hispanic Council serves serious mentally ill individuals elderly, families, children, and adults receiving various types of counseling services in the Douglas, Elfrida, and Nogales, Rio Rico area.

Pinal Hispanic Council provides transportation services to its members to maximize the treatment services we offer by allowing the members to consistently keep vital appointments for their wellbeing. By assisting them with daily, weekly, bi-weekly, or monthly transportation the agency assures their mental well-being is secure.

Pinal Hispanic Council would like to request preventative maintenance funds for Nogales and Douglas sites. Pinal Hispanic Council would like to request a total of four vehicles, two vehicles for Douglas replacing 6318 & 6527 and two vehicles for Nogales replacing 5678 & 5892. By working in partnership with others in the community, Santa Cruz Training Programs, Inc. (SCTP) carries out its mission to provide training, care and support for people of all ages with intellectual and developmental disabilities. Services include group homes that provide round-the-clock care within the community we offer a variety of employment opportunities, Day program offers rehabilitation, recreational, semi-retirement services and finally, we provide In-Home support providing Respite, Attendant care, and Habilitation. Spanish is the primary language for 98% of SCTP members, 50% live outside the Nogales city limits, and the majority are low income.

Santa Cruz County does not have any type of public transportation services, therefore SCTP offers door-to-door transportation for all of its members. Transportation is provided Monday-Friday 4:30am and ending by 6:30pm for all members who participate in Day and Employment programs. We also provide Transportation service for our group homes is twenty-four hours a day seven days a week. We take our members to Tucson, Green Valley and Sierra Vista for doctors/dentist appointments and we also provide weekend outings for each group home.

SCTP has a memorandum of understanding (MOU) with other agencies in our community and beyond. We help out with special events, when called upon by partners, or to coordinate special transportation needs across counties. SCTP representatives attend quarterly coordination meetings and regular trainings.

2023 Identified unmet transportation needs include: Preventative Maintenance funding, Operating funding and a replacement for our StarCraft Bus VIN# ending in 3705

The Senior Citizens of Patagonia, Inc. is a 5013 (c) non-profit organization located in Patagonia Arizona. The mission of the Senior Citizens of Patagonia, Inc., is to serve and support senior citizens and disabled persons of any age who live in the Patagonia, Sonoita, Elgin and Canelo areas through assistance with transportation, nutrition, health, education and social services. The Patagonia Senior Center provides a location for congregate meals and social events.

The transit program has been in place since 1992, and is sustained by a volunteer transportation manager and several volunteer drivers. The service area is defined by the northern, eastern, southern county lines, and by a north south line running through mile marker 12 on Arizona highway 82. Clients are taken anywhere within a one hundred mile radius of Patagonia, excluding Mexico.

This transportation service is the only non-commercial option available to seniors and medically disabled in this area. Most of the service is performed between 7:00 am and 7:00 pm, M-F. However because volunteer drivers are the base of our staffing, most transportation needs can be met with planning. Services are only limited by the ability to secure a volunteer driver.

The Transportation Director participates regularly in Transit Coordination meetings held in Benson or Zoom meetings and fully appreciates the information shared at these gatherings in terms of cost savings and service enhancement.

Identified unmet needs include operating and preventative maintenance funds to support the existing transportation program, a web based dispatch scheduling system, and funding to effectively market the program.

Valley Assistance Services is a 501(C)(3) located at a primary office in Green Valley with satellite offices in Tubac and Sahuarita . The mission of VAS is: combining social service and community health programs, Valley Assistance Services guides seniors, individuals, and families to live healthy, resilient, and vibrant lives, while remaining safe and independent.

The transportation program has been in place since the late 1990’s and is sustained by volunteer drivers and VAS Administrators. The service area of the program is along the I-19 Corridor from Pima Mine Rd north of Sahuarita to Rio Rico, AZ. Clients can be transported to Tucson; Nogales, AZ; and anywhere in between along the I-19 Corridor. Clients cannot be transported across the international border.

This transportation service is one of only two non-commercial options available in the northern half of VAS’s service area, and the only option in the southern half. Hours of service are Monday-Friday 8:30AM-5:00PM. Services are only limited by the ability to secure a volunteer driver.

Identified unmet needs include operating funds to support the existing transportation program, funding to effectively market the program, and funds for volunteer engagement.

The Volunteer Interfaith Caregiver Program (VICaP), a 501(c)(3) nonprofit organization incorporated in 1994, is based in Sierra Vista and provides vital transportation services for seniors (ages 60+) and disabled (of any age) residents throughout Cochise County. Rides are provided throughout Cochise County, as well as to Tucson and Safford for medical appointments. While donations are greatly appreciated, VICaP services are offered free-of-charge. Transportation services are provided primarily by volunteers driving their own vehicles, with two paid drivers supporting the greater-Willcox area with VICaP owned vans, one of which is wheelchair accessible. Our mission is to help our “Neighbors” continue to live independently and maintain their quality of life. In 2021, approximately 70 trained volunteers provided individualized transportation services to those in need of VICaP’s support. In 2021, throughout the COVID-19 pandemic, VICaP volunteers drove over 94,395 miles in their personal vehicles. Our volunteer drivers provided transportation to over 3,236 appointments for our Neighbors throughout the County.

VICaP has a 9-passenger cutaway wheelchair-accessible van and one minivan used to provide transportation support for qualified Neighbors in the greater-Willcox area, which also includes transportation to Tucson and Safford medical facilities. Based in Sierra Vista, VICaP has two wheelchair-accessible minivans driven by PASS-trained volunteers to support our wheelchair-bound Neighbors in the southern parts of Cochise County

Our paid Willcox driver covers a large rural area, including San Simon, Bowie, Pearce, and Sunsites. Between January through October 2021, he completed 1,068 trips, driving over 28,029 miles in support of the Neighbors in the greater-Willcox area.

VICaP regularly participates in coordination efforts with other agencies, local health care providers and care facilities, to ensure the needs of our Neighbors are met. VICaP regularly participates in SEAGO’s county & regional Transportation Coordination meetings. VICaP is listed in the Cochise County Community Health Improvement 5-year plan as Strategy 2 under Transportation & Resource Communication.

Identified unmet needs: Additional volunteers throughout the County to support the growing number of Neighbors requesting transportation; additional funding sources to assist with the growing mileage reimbursement costs for Tucson and intercity trips; additional/continued funding for vehicle maintenance/repairs; additional operating funds for administrative salaries to maintain minimal overhead costs; additional funds for Willcox program (to include outreach, operating, vehicle costs, drivers’ salaries, etc.). In addition to traditional 5310 funding, the Coronavirus Response & Relief Supplemental Appropriations Act of 2021 (CRRSAA) additional funding is vital.

The Women's Transition Project is a residential behavioral health facility that serves homeless women in recovery from drug and alcohol dependence, victims of domestic violence, women getting out of jail or prison, women with mental illness, and women who are working to reunite their families.

The transition project provides residents food, shelter, clothing, transportation, and childcare while offering a comprehensive array of services, treatment, and vocational training.

The organization will be applying for 5310 funding in the future to purchase vehicles. Staff provides transportation to medical appointments, shopping and treatment and social services providers. In addition, the Women's Transition Project provides transportation for clients to and from places of employment and to their residential placement after the program is done

Women's Transition Project staff are active in bi-monthly Transportation/Transit Coordination meetings.

Identified unmet needs include a vehicle to transport our clients to and from their vocational skills transportation to medical appointments, shopping, and treatment and social service providers. And as well food pick up not only for the organization but for the community as well.

SEAGO REGION DEMOGRAPHIC DATA

Southeastern Arizona Governments Association

Southeastern Arizona Governments Association has a population of **220,552** with a minority* population of **122,388** or **55.49%**.

Southeastern Arizona Governments Association has **80,583** total households.

About the U.S. Census Bureau's 2017-2021 American Community Survey 5 year Estimates

The American Community Survey (ACS) is a nationwide survey that uses continuous, multi-year sampling to produce estimates for a variety of geographical areas, the smallest being the Census Block Group. MAG uses the 5-year estimates because they provide increased statistical reliability for less populated areas and small population groups. ACS is a sample, meaning that it is not a full census of the population. For the 5 year estimates, surveys are collected from a sample population over the 5 year period. These surveys are then used to create estimates for the whole population. And, because it is an estimate of the whole population, there is a degree of uncertainty in the results. This degree of uncertainty is reflected in the margins of error that are calculated and reported along with the results of the survey. The margins of error are calculated at the 90 percent confidence level, meaning that users of the data can be 90 percent confident that the range reflected in the margin of error contains the true value. The margins of error are not reported on this web site, but are available from the Census at <http://factfinder.census.gov/> or are available upon request from MAG. More information on the methodology of the American Community Survey is available at <http://www.census.gov/acs/>.

* Minority population is defined as the population that is of any race other than non-hispanic white.

SEAGO REGION INTERCITY TRANSPORTATION PROVIDERS

COCHISE COUNTY

Benson/Bisbee/Douglas/Sierra Vista/Hereford/ Palominas

Provider Name: Cochise Connection

Phone Number: 520.417.7400

Address: Douglas Visitor Center, 345 16th Street, Douglas, Arizona 85607

Website: <https://www.douglasaz.gov/399/Cochise-Connection>

Service Information: Service is provided 6 days a week to/from Douglas, Bisbee, Palominas, Hereford, and Sierra Vista, The bus is wheelchair accessible. Schedules are available online at <https://www.douglasaz.gov/399/Cochise-Connection>. Schedules are also available at the Douglas Visitor Center, Bisbee City Hall, and Vista Transit Center.

Benson/Willcox

Provider Name: Amtrak (Sunset Limited)

Phone Number: 1.800.USA.RAIL

Address: 105 East 4th Street, Benson, Arizona 85602 (Located next to Benson Visitor Ctr.)

Website: <https://www.amtrak.com/home.html>

Service Information: Westbound service is provided 3 days a week (Tuesday/Thursday/Sunday) from Benson through Tucson to Los Angeles. Eastbound service is provided 3 days a week (Monday /Thursday/Saturday) from Benson through El Paso to New Orleans. The train schedule is available at:

www.amtrak.com/ccurl/762/581/Sunset-Limited-Schedule-031217.pdf.

Douglas

Provider Name: Transporte Direct Shuttle

Phone Number: 602.272.5555

Address: 231 E 1st St, Douglas, Arizona 85607

Website: www.transportedirecto.net

Service Information: Service is provided 7 days a week from Douglas to Tucson and Phoenix. Shuttles depart every two hours from 7:00am to 5:00pm. Vehicles are not wheelchair accessible.

Provider Name: Sergio's Shuttle

Address: 231 E. 1st. St. Douglas, Arizona 85607

Phone Number: 520.805.0555

Website: None

Service Information: Service is provided 7 days a week from Douglas to Tucson and Phoenix. Shuttles depart at 9:00am, 12:00pm, 2:00pm Vehicles are not wheel chair accessible.

Provider Name: El Bigote

Phone Number: 520.727.1831

Address: 101 N. Pan-American (Plaza Gaytan)

Website: None

Service Information: Provides service to Tucson/Phoenix, on Friday, Saturday and Sunday. Departs Douglas, AZ. At 8:00am and returns from Phoenix to Tucson/Douglas at 1:00pm.

Provider Name: Arizona Department of Corrections

Phone Number: 520.364.7521

Address: 6911 N Bdi Blvd, Douglas, Arizona 85607

Website: <https://corrections.az.gov>

Service Information: This is a van pool program that is strictly for Correctional Officers that work at the Douglas Prison Complex. Vans are provided for the Day Shift, Swing Shift, and the Mid Shift. These vans go from Sierra Vista to Bisbee to Douglas Prison Complex daily.

Sierra Vista/Huachuca City/Ft. Huachuca

Provider Name: Huachuca Shuttle

Phone Number: 520.439.0439

Address: 84 S. 2nd. Street, Sierra Vista, Arizona 85635

Website: www.huachucashuttle.com/

Service Information: Service is provided on a reservation basis. Shuttle service is provided from Sierra Vista to the Tucson Airport. Vehicles are not wheelchair accessible.

Provider Name: Slick Shuttle Service

Phone Number: 520.458.1888

Address: 4151 East La Linda Way Suite 105, Sierra Vista, Arizona 85365

Website: www.slicksshuttleservice.com

Service Information: Service is provided on a reservation basis. Shuttle service provides Service to Tucson, Phoenix and all other county wide areas to include statewide transportation. Vehicles are not wheelchair accessible.

Provider Name: Volunteer Interfaith Caregiver Program (VICaP)

Phone Number: 520.459.8146

Address: 2600 E. Wilcox Drive Ste. H-107 Sierra Vista, Arizona 85635

Website: www.vicapsv.org

Service Information: VICaP travels to Tucson from Bisbee, Benson and Sierra Vista, providing rides for medical, dental, and local (Sierra Vista) shopping for those in need.

Provider Name: Huachuca City Bus

Phone Number: 520.456.1354

Address: 500 N. Gonzales Blvd. Huachuca, Arizona 85616

Website: www.huachucacityaz.gov

Service Information: Huachuca City Bus provides transportation into the City of Sierra Vista, AZ. on Tuesdays. Service is also provided for The Fort Huachuca Military Base for military personnel only. Call for information on pick up and drop off points and to make reservations.

GRAHAM AND GREENLEE COUNTIES

Safford/Thatcher

Provider Name: Greyhound

Phone Number: 1.800.231.2222

Address: 3775 W Main St., Thatcher, Arizona 85552

Website: www.greyhound.com

Service Information: Service is provided 7 days a week from Thatcher to El Paso and from Thatcher to Phoenix. The bus departs to Phoenix at 10:20am. The bus departs to El Paso at 11:05pm. This route also serves Bylas at 297 E. US Highway 70 and Duncan at 221 US Highway 70. The bus is wheelchair accessible.

San Carlos

Provider Name: San Carlos Apache Nnee Bich'o Nii Public Transit

Phone Number: 928.475.5023

Address: PO Box 871, Peridot, AZ 85542

Website: <http://scat-tanf.org/> (Schedule)

Service Information: Service is provided Monday through Friday. The bus departs San Carlos to Safford at 6:45am, 10:55am, and 4:45pm. The bus departs Safford to Sana Carlos at 8:15am, 1:25pm, and 6:30pm. This route also serves Bylas, Fort Thomas, Pima, and Thatcher. Please see website for times and bus stop locations. The bus is wheelchair accessible.

SANTA CRUZ COUNTY

Nogales

Provider Name: Arison Shuttles, LLC

Phone Number: 520.287.6059

Address: 30 N Terrace Ave., Nogales, AZ 85621

Website: <https://www.arisonshuttles.com/>

Service Information: Services are provided to your residence in Tucson or Phoenix. Shuttles depart from Nogales to Tucson every 45 minutes and from Nogales to Phoenix every 45 min. Vehicles are not wheelchair accessible.

Provider Name: Natty's Nogales Shuttle Service

Phone Number: 520.287.8888

Address: 266 W Mix Street, Nogales, Arizona 85621
