

# SoLi Oxy Support Mineral Solution

## Why the lack of oxygen is causing so many vitality undermining issues?

Due to the increase of radiation since Oktober 2019 when the first cities on this planet activated their 5G network and the increase of satellites orbiting in the lower atmosphere beaming 24 hours signals, we discovered since September 2020, in all Vital Blood Scans, regardless of people's age, that the blood cells of humans are **incoherent**. People's blood is literally falling apart. The most affected areas to be seen in the drops are: the lungs, the brain cells with inflammation, and a degradation of the general constitution seen as a reduced fibrin network in the blood.

## What does this radiation increase cause?

1. Decrease in the availability of oxygen in the air due to 5G, because 5G 'uses' O2.
2. The water content in the body decreases because the frequencies of 5G works like a microwave oven. We 'lose water' (just like the soil) and we become dehydrated. Our blood flow is disturbed. This increases fatigue, coughing, lung problems, cardiac arrhythmia, skin problems, constipation, reduced release of toxins, headaches, loss of smell and allergies,
3. The haemoglobin that is responsible for binding and transporting oxygen to the cells is less able to bind oxygen and ultimately results in multi-organ failure due to lack of oxygen (hypoxemia).
4. The cell wall tension is changed by radiation, so the cells no longer repel each other but attract and clot together. As a result, blood cells can no longer flow freely through the blood vessels and certainly not through the capillaries of the pulmonary alveoli, which results in lack of oxygen. *Note: nowadays we have several other solutions available for this issue. Ask your contact person for it.*

Because the haemoglobin is dysfunctional, highly toxic iron is released into the blood and this iron affects the functioning of the liver in particular. (This is the reason why people with respiratory problems can breathe better after doing a coffee enema. (For more information see the 29 reasons why coffee enemas are done). This also explains why the radiation has more effect on older people and people with diabetes and why the radiation damage has less noticeable effect on children and young people; their haemoglobin percentage in the blood is normally higher than in older people and diabetics. Yet children and young adults are also affected, as [Vital Blood Scan](#) clearly shows the same disintegration, or in other words 'cell damage'.

The fact that the liver is so affected also explains why an oxygen machine doesn't work when people can't breathe, while the problem is not related to the functioning of the lungs. **The real problem is the lack of oxygen due to the inability of the haemoglobin to bind with oxygen, similar to the disease caused by altitude sickness.** Pumping more oxygen into the lungs will not work and in many cases will cause lung damage (inflammation) rather than treat the condition.

**Note:** to inform yourself we suggest to read the book "The Invisible Rainbow" of Arthur Firstenberg and or see the work of Professor Martin Pall who has done intensive scientific research on the health effects of EMF radiations.

## Why SoLi Oxy Support Mineral Solution works?

In order to alleviate the oxygen deficiency, doktor Andreas Ludwig Kalcker has discovered this gas-like mineral-salt solution, which we have enhanced with supporting frequencies. This solution is used as a cure for a certain period of time, which we test for people who do the [Vital Blood Scan](#). We test whether the body needs to restore oxygen levels, stabilise blood flow, the extent to which toxins can be eliminated, whether there is an overload of pathogenic microbes and other

waste products in the body. When this is the case, Oxy Power Mineral solution has an important function.

Because Oxy Support Mineral solutions contains a gas that is water soluble, this acts like a secondary oxygen transporter and is much lighter and faster than hemoglobine to reach the mitochondria and provides it with oxygen immediately in the effected area's. Once it is dissolved it will break down & release free oxygen - much in the same way what ozone or hydrogen peroxide does-. The uniqueness of this gas is that its make up - **has the ability to both donate & receive electrons**. What this basically means is that it acts as an "electron donor". This is also why it works immediately and one has again oxygen in the mitochondria to function as it should.

For this reason, for some people, this solution is **the next level in their vitality journey**. SoLi Oxy Support Mineral Solution has 2 major functions:

- it increase the oxygen levels in the whole system, which allows a better function of the body and mind (our brain is the biggest Oxygen consumer).
- it makes the body more alkaline, an environment where pathogen microbes can't survive and don't want to live

Since we use this mineral only in an enema approach: it 'removes' the toxic mucous layer and give the intestines the space to 'recover' & build a 'vital mucous layer' and works with the support of [Mucosa Vitality](#).

#### **Application of SoLi Oxy Support mineral solution, adult usage (>12yrs) :**

It increases the Bio-availability of O2 by 50%, stimulates a better blood flow and reduces therefore all the symptoms related to that. It has an anti-thrombotic effect, releases waste and toxins and reduces the overload of pathogenic microbes.

Add in the evening 15ml Oxy Support to body temperature warm water (between 300ml till 500ml, depending on what your colon can handle) and keep it in for 3 till max. 5 minutes before releasing it into the toilet.

**Ingredients SoLi Oxy Support:** Sodium Chloride (NaCl) gas is dissolved in distilled water to which we add a solution of hand-harvested-natural sea salt full of minerals. We activate the Oxy Support Mineral solution with various harmonising frequencies with the Bio-resonance machine, such as Solfeggios, Earth Schumann frequency and various more supportive vitality frequencies, to help oxygenate the body & mind and detoxify it in a gentle way.

---

#### **This information is provided by the men and women of the Support Team.**

All credit for this gas-like supplement we call SoLi Oxy Support Mineral solution, goes to doctor Andreas Ludwig Kalcker, who did a lot of study and experiments with amazing results. Thank you so much.

From experiencing this ourselves within the Support Team and long-term Forever Vital participants who practiced the suggestion, we received amazing upgrading vitality results.
